U. S. ACTS IN CHINESE CRISIS

TODAY

Diminishing Earthquake.
The Sheik Is Hanged.
The Hen, Pig, Cow.
Some Baby Fall.

By ARTHUR BRISBANE.

(The opinions expressed in this column are strictly those of Mr. Brisbane and not necessarily in consonance with the policies of The Review-Tribune).

Earthquake reports dwindle down. Five times as many deaths in a small section of a big eastern city, due to some disease outbreak, would attract no attention. The Gibraltar dam, supplying Santa Barbara with water reported to have burst and flooded the city has NOT burst or done any harm.

Earthquakes have occurred in 40 places on the earth's surface recently. But especial attention seems to concentrate on every disaster that happens in California. In Santa Barbara 12 at most are dead.

The Italian earthquake in 1915 killed 29,973, and in 1908 earthquakes in Italy killed 76,482. Italy has volcanoes in addition to earthquakes, yet nobody says, "I shall not go to Italy."

Some Wall street gentlemen organized a little panic based on Santa Barbara's earthquake and now wish they hadn't. They sold short California stocks, oils, rails, etc. But real finance knows that, compared to the total wealth of California, the property destruction in Santa Barbara is like losing one nail in a nail factory. The stocks "snapped" back again, as Wall Street reporters put it, and the panic promoters had their financial fingers pinched. Don't sell any part of this country short.

Sheik Said, leader of the Kurds, rebelled against the Turks and Kemal Pasha. He wanted to restore the Holy Mohammedan Caliphate that Kemal Pasha tore down.

Now, Sheik Said is hanged in the public square at Diarbekir, the crowd cheering and eager volunteers pulling on the gallows ropes.

Had Sheik Said been victorious, Kemal Pasha might have been hanged, the same crowd cheering and pulling on the ropes.

Moral: Don't allow yourself to be beaten and never pin your faith to the mob's applause.

Missionaries in Africa take a tame menagerie, including chickens, pigs, cattle and goats. As they travel, the missionaries will observe how these interesting animals all represent EVOLUTION.

The White Leghorns and Rhode Island Reds came from jungle fowl. Cows are improved sisters of the auroch, the buffalo, or the zebu. The pigs have their relatives scattered from the tapirs in South America to the feirce big-toothed wart hog of the jungle, or the hippopotamus.

Everything proves that constant change, or evolution, exists in the animal kingdom. Only the blind don't see it.

Naval oil reserves having been neatly taken from the people's ownership, as a skillful surgeon removes a vermiform appendix, the navy will now conserve large tracts of oil shale.

When oil wells no longer gush, the navy will extract oil from the rocky shale, as is now done in Scotland, where 3,000,000 tons of shale yield 1,200,000 barrels of oil a year.

WASHINGTON AWAITING ANSWER TO SUGGESTION FOR WORLD CONFERENCE

Immediate Future of Peking Government Hangs in Balance as Great Powers Debate Plan to Solve Involved Extra-Territorial Rights Problem—Seek Approval of Four Nations.

PRESENT AUTHORITY OF OFFICIALS ENDS WITH ARREST OF FOREIGNERS

Great Britain Throws Cold Water on Secretary Kellogg's Proposal Declaring China Must Put Her House in Order Before There Can be Any Discussion.

By FRED J. WALKER.

WASHINGTON, July 2.—China's immediate future hung in the balance today as the great powers of the world debated the Washington suggestion that a conference be held at once to solve the involved extra territorial rights problem.

Informal advices, either accepting or rejecting the American proposal, were expected to arrive at the state department within the next few days. The tenor of the communications will decide the next step in the negotiations.

The arrival in Peking of American Minister John Van A. MacMurray was expected here today to be the signal for the formal launching of the conference, which was provided for in resolutions adopted by the powers here in 1921.

Approval by Great Britain, France, Italy and Japan of the proposal, would be sufficient invitation, it was felt in official circles here, for the Peking government to again formally ask the powers to accept her previously tendered invitation.

Cause of Anti-Foreign Riots

Administration officials here regard extra territoriality as one of the great drawbacks to permanent Chinese stability.

During past decades, foregin powers obtaining concessions in China have been permitted to administer and enforce their own laws.

Chinese officials and police have had power to arrest foreigners, but at that point their authority ended, individuals appearing before magistrates of their own nationality.

It was this condition which inspired the anti-foreign riots and American officials are inclined to regard the present time as particularly for a general withdrawal by all the world powers from their extra-territorial rights positions.

The great hinderance to a general agreement by world powers to abou-

Asl. Police Aid As Vandals Rob Cemetery Vases

Police today were asked to look for vandals, who have been robbing the vases at Riverview cemetery.

The choice plants in 15 vases were carried away sometime Tuesday night, cemetery caretakers discovered Wednesday. The robbery occurred sometime after dark.

Driveways to the cemetery are locked at 8 p. m. The plant thieves entered the burial grounds through the smaller gates or through the fences.

Cemetery officials will prosecute any one detected, police were informed.

Anthracite Miners' Delegates Ready to Act Upon Scale

SCRANTON, Pa., July 2.—Convening at town hall for the fourth day's sessions of the tri-district convention of the United Mine Workers of America, the 700 anthracite delegates had before them today for approval or rejection, the final draft of the recommendations of the wage scale committee.

The recommendations of the committee, which, if approved by the delegates, will stand as the demands of the 155,000 miners in the anthracite field when the present wage scale agreement expires on August 31, include as their major items a flat 10 per cent increase for all mine employes, the institution of the "check off" system for union dues collection, and an increase of $1 a day for day shift miners.

MINERS' STRIKE HINT AND KLAN TWO PROBLEMS FOR COOLIDGE

Coal Field Situation and Religious Liberty Question Studied.

UPSET VACATION

Of Greater Concern to President is Mine Fight.

BY GEORGE E. DURNO.

SWAMPSCOTT, Mass., July 2—Two problems hover over the hitherto serene horizon of President Coolidge's vacation today with a distinct threat that the next 30 days may bring developments of a more or less embarrassing nature to the administration.

The first has to do with possibility of a general strike in the coal fields. The second bears upon the old question of religious liberty, aggravated of late by the revival and growth of the Ku Klux Klan.

Of greater concern to the president, although not so imminent as the other, is the attending renewal of the biennial fight between coal operators and miners.

John L. Lewis' Charge.

The charge of John L. Lewis, president of the United Mine Workers of America, that industrial leaders, including John D. Rockefeller, Jr., and secretary of the treasury Mellon, are conspiring to violate the Jacksonville wage agreement, and his observance, is causing Mr. Coolidge some concern.

A tie-up in the coal mines would confront the president with the first real industrial crisis of his administration.

The klan problem is more imminent. Although no invitation actually has reached the summer White House here it has been announced that Mr. Coolidge would be asked to address the Klan convention in Washington early in August and also review their parade.

It has been stated through the press, by officials of that organization that the executive could not well refuse them because he spoke before the Holy Name society last year.

Expected To Decline Invitation.

While it already has been indicated here that should the invitation be received it would be decined on the ground that Mr. Coolidge would not be in Washington at that time. Opponents of the klan — (atholic, Jew and Negro — are literaly flooding White Court with demands that the president not only publicy refuse to accept, but that he take steps to prevent the Klan from assembling and parading in the national capital.

Scores of letters and petitions have been received on this subject.

Thus far, however, President Coolidge has taken no direct action which would indicate he was unduly concerned with either problem. But he is studying the situation closely.

PANAMA CANAL TRAFFIC DROPS

BALBOA, Canal Zone, July 2.—Panama canal traffic showed a drop of 10 percent in the fiscal year just closed, compared with the preceding 12 months, according to figures available today.

The year 1925 still was 20 per cent above 1923. The decrease was attributed mainly to a smaller California oil trade.

The figures for the year showed that 4,673 commercial vessels paid $21,400,000 in tolls. They carried 24,000,000 tons of cargo.

Polite Conductor Dies.

ELYRIA, July 2.—Benjamin Barnes, 70, who was made a thirty-third degree Mason because of his uniform politeness to passengers as a New York Central conductor died at his home here today.

PARTY TICKET ON COURT VOTE

Assistant Secretary of State Interprets Crabbe Ruling.

Confirming by letter his interpretation of Attorney General C. C. Crabbe's ruling for the nomination of candidates for judge and clerk of East Liverpool's municipal court, J. E. Baird, of Columbus, assistant secretary of state, today instructed J. W. Moore, clerk of the Columbiana county board of deputy state supervisors of elections, to prepare party ballots for electors in Liverpool township as well as the city proper for the primaries on Tuesday, August 11.

Baird's letter follows:

"Primaries are to be held in accordance with the primary laws both in the city of East Liverpool and the township of Liverpool. If declarations have been filed for nomination by the political parties entitled to nominate at the primaries those names should be printed upon the ballot with their proper designation—judge and clerk,

Pinkerton Detective Kills Man In Sister's Bedroom

Charge of Homicide is Placed Against New Yorker Who Says Intruder Tried to Choke Woman.

NEW YORK, July 2.—William Fitzmaurice, a Pinkerton detective, shot and killed Lewis Wood, 37, in the bedroom of his sister, Miss Clara Fitzmaurice, 35, at 664 Forty-ninth street, Brooklyn, early today.

The detective and his sister were taken to police headquarters and questioned. Later a charge of homicide was placed against Fitzmaurice.

Miss Fitzmaurice was also charged with homicide.

Miss Fitzmaurice was awakened by the breaking of glass in her bedroom window, according to the story told the authorities. She saw Wood coming through the window. Then, it is alleged, Wood rushed over and tried to choke her. She screamed.

Her brother, William, in a nearby room, rushed in with drawn revolver and fired twice.

Both shots struck Wood in the chest and he died almost immediately.

VANGUARD OF DELEGATES LEAVE FOR N. B. O. P. CONCLAVE AT SEASHORE

Annual Convention Will Open in Odd Fellows' Hall, Atlantic City, N. J., Friday Morning.

Delegates to the annual convention of the National Brotherhood of Operative Potters, which opens in Atlantic City, N. J., tomorrow morning, left East Liverpool today.

A party of about 50, including delegates, their wives and members of their families, boarded the 5 o'clock morning train for Pittsburgh. They left Pittsburgh about 8 o'clock over the B. & O. lines.

Others left here on the 8 a. m. "flyer," while a few boarded the 11:43 train to Pittsburgh. The B. & O. has arranged for a number of excursion specials, leaving Pittsburgh during the day.

The convention is scheduled to open at 9 o'clock Friday morning, in the Odd Fellows' hall, New York avenue, where all sessions will be conducted. Friday's session will be for organization work only. The convention will not be in session Saturday, Independence day, nor Sunday, but will get down to business in earnest on Monday.

Wage questions will not be considered at this year's convention inasmuch as the scale, adopted last fall, does not expire until October 1, 1927. Officers elected in May for one year terms will be installed.

No date has been set for the closing of the annual meeting. It will probably remain in session for at least a week, it was announced today.

OVERNIGHT NEW YORK-CHICAGO AIR MAIL SERVICE IS DECIDED SUCCESS

First Plane From Illinois Metropolis Carries Flowers From Vice-President Dawes to Col. John Coolidge.

NEW YORK, July 2. — Overnight New York-Chicago air mail service is a success.

The first plane in the new night mail service from Chicago arrived at Hadley field, N. J., at 2 o'clock this morning, well ahead of schedule.

It carried flowers for Colonel John Coolidge from Vice President Charles G. Dawes and 130 pounds of mail in 13 pouches.

The second plane landed at Hadley Field at 4:35, Eastern Standard time.

The westbound planes took off from Hadley Field last night with heavy loads of mail for Chicago.

The first plane to arrive this morning at Hadley Field from Chicago arrived one hour and fifteen minutes ahead of schedule. It was piloted by Paul Collins. The second plane, piloted by James Ames, was 24 minutes ahead of time.

Postmaster General Enthusiastic.

Postmaster General Harry S. New and other postal and government officials and a crowd of 15,000 persons witnessed the arrival of the planes which marked the inauguration of night air mail service between America's two largest cities—making it possible for letters posted in New York in the evening to be delivered in Chicago the next morning.

The arrival of the planes from the west was greeted with the honking of

Santa Barbara Quiet With Marines Busy; Feels New Tremor

SANTA BARBARA, Cal., July 2.—With more than 300 United States marines on guard, a quiet prevailed in Santa Barbara today.

A tremblor, the first in the past 24 hours, was felt shortly before 10 o'clock last night. No damage was done.

An extremely light and separate shock followed the earlier one.

No Mail Delivery On July Fourth, Says Postmaster

The holiday schedule will be observed at both the downtown and the Station A postoffices, Saturday, Indepenence day, Postmaster J. Edwin McClure announced today.

The stamp and general delivery window will be open from 9 to 10 a. m., while the money order, registry and postal savings departments will be closed throughout the day. There will be no mail delivery by city or rural carriers.

Special delivery mail will be given prompt attention. All mails will be received and dispatched as usual.

THIEVES LOOT CHURCH; GET $15

Thieves entered the First Methodist Episcopal church, corner Fifth and Jackson streets, Tuesday evening, and escaped with $15 in cash, according to a report made to the police today.

Entrance was made with a skeleton key. The thieves pried open the lid of a roll top desk where they obtained the money. Keys kept in the desk were also taken.

REICH RETURNS FROM CAPITAL

Maurice H. Reich, of this city has returned from Washington, D. C., where he attended the 28th annual convention of the American Zionists association, held this week in the Mayflower hotel. More than 800 delegates from practically every state in the union attended the convention. Reich, who is secretary of the Zionists' organization in the East Liverpool district, was the delegate from the local organization.

Recovering From Stroke.

George B. M. Killmer, former member of the police force, who suffered a stroke of paralysis about two weeks ago, is recovering at his home, 668 St. Clair avenue. Killmer has been working as a cooper for the Smith-Phillips China company.

MAN CRUSHED AS AUTOMOBILE PLUNGES OVER EMBANKMENT

Arthur Dechman, 38, Tire Sales Manager, Seriously Injured.

ANOTHER IS CUT

Loses Control of Car Near West Point Curve.

Arthur Dechman, 38, Fairmont, W. Va., district manager for the Cord Tire Corporation, Chester, is in a serious condition in the City hospital, suffering from injuries, sustained at 6 o'clock this morning when his automobile crashed through a fence and plunged over a 20-foot embankment on the Lincoln highway north of the West Point filling station.

Fell Asleep at Wheel.

Dechman's left shoulder and chest were crushed when he was pinned behind the broken steering wheel.

A companion, Frank Johnson, 28, Youngstown distributor for the Cord Tire Corporation, who was traveling with him, sustained a slight laceration on the nose when struck by flying glass from the windshield.

The two men had been business visitors at the Chester tire factory yesterday and were enroute to Youngstown. Dechman, at the wheel of a Buick roadster, with Johnson, left here at 5:30 a. m. They had just rounded the curve at the gasoline filling station in West Point and reached a point about 200 yards beyond when the accident occurred.

Dechman is said to have fallen asleep, when the car swerved to the left of the road, crashed through the guard railing, cutting down four or five posts and two small trees and then went over the declivity. The car, however, remained in an upright position.

Deckman in Hospital.

A call was sent to Lisbon and Dr. Seward Harris, responded. The Eells ambulance from Lisbon also started for the scene of the smash-up, but out side of Lisbon it broke a rear axle. The driver returned to Lisbon and securing a touring car hurried to West Point.

The injured man and Johnson were placed in the touring car and started for the City hospital here. At the top of "Hall Deadening" hill, six miles north of here, the machine met the Sturgis ambulance which had been summoned in the meantime. The men made the remainder of the trip in the ambulance.

At the hospital, Deckman was attended by Dr. W. A. Hobbs and C. H. Bailey.

UNION WORKERS AID STRIKERS

Agree to Refuse to Work With Imported Carpenters.

Representatives of other branches of the building trades announced today, following a joint meeting last night, that they would refuse to work on jobs on which carpenters, imported to fill the places of 125 strikers, are engaged.

With the exception of plasters and stonemasons, who, it was declared, will stand with other unions workers, all branches of the building trade industry were represented at a conference with union carpenters. The meeting was held in the Fowler building.

As a result of the parley, steps looking toward the formation of a building trades council were taken.

Some out-of-town carpenters came here this week to fill the places of strikers, but most of them have left the city, union workers said.

The carpenters, who are demanding a wage increase from $10 to $11 a day, as well as the contractors, who rejected their proposal and offered a compromise of $10.25, are standing pat.

POTTERY PLANTS SUSPEND OPERATIONS FOR JULY HOLIDAYS WITH OUTLOOK FOR BUSINESS HOPEFUL

Suspension of operations ranging from one to two weeks in duration, will be the rule in the pottery industry in the East Liverpool district during the arly part of July, a survey today showed.

Most of the plants are idle today. In some cases work will be resumed next Monday, although in a majority of the shops operations will not be started until July 13. In one or two instances, plants will not resume production until July 20.

The suspension is customary during the early part of July because of the absence of many workers who are delegates to the annual convention of the National Brotherhood of Operative Potters which opens in Atlantic City, N. J., tomorrow. It is also inventory time.

Many manufacturers will make needed repairs to machinery and buildings during the shutdown.

Outlook for new business during the latter part of the year is hopeful, according to the plant owners.

"We are hopeful for a brighter turn of affairs a little later on," was the statement of one manufacturer.

Here are the results of the survey on the Fourth of July shutdown:

Homer Laughlin China company—(East End and Newell plants)—Decorating shops start July 6; clay shops and other departments, July 13.

Harker Pottery company—About 10 days; will resume July 13.

Vodrey Pottery company—Two or possibly three weeks; will start about July 20.

Knowles, Taylor & Knowles company—Short loaf only; date for resumption not known, probably early next week.

Edwin M. Knowles China company — (Newell and Chester plants) — About 15 days; start about July 1[illegible]

Davidson Porcelain company—Ten days; start July 13.

Potters Cooperative company—Making extensive repairs; date of resumption of operations not determined.

Smith-Phillips China company—About two weeks; start about July 15.

C. C. Thompson Pottery company—Ten days; start Monday, July 13.

Standard Pottery company—Ten days; will resume July 13.

T. A. McNicol Pottery company—Down until after the Fourth. Date for resumption indefinite.

Colonial Pottery company—Time of suspension undetermined.

Trenle China company—About five days only; will resume next Monday.

Hall China company — Two weeks; will start about July 15.

D. E. McNicol Pottery company—About two weeks.

West End Pottery company—About ten days; will resume probably Monday, July 13.

No Sunday Evening Services at St. John's Lutheran Church

Sunday evening services will be dispensed with at St. John's Lutheran church during July and August.

The Sunday school hour has been changed from 9:30 to 9 a. m. English services will begin at 10 a. m.

ELYRIA, July 2.—Benamin Barnes, 70, who was made a thirty-third degree Mason because of his uniform politeness to passengers as a New York Central conductor died at his home here today.

Pinkerton Detective Kills Man In Sister's Bedroom

Charge of Homicide is Placed Against New Yorker Who Says Intruder Tried to Choke Woman.

NEW YORK, July 2.—William Fitzmaurice, a Pinkerton detective, shot and killed Lewis Wood, 37, in the bedroom of his sister, Miss Clara Fitzmaurice, 35, at 664 Forty-ninth street, Brooklyn, early today.

The detective and his sister were taken to police headquarters and questioned. Later a charge of homicide was placed against Fitzmaurice.

Miss Fitzmaurice was also charged with homicide.

Miss Fitzmaurice was awakened by the breaking of glass in her bedroom window, according to the story told the authorities. She saw Wood coming through the window. Then, it is alleged, Wood rushed over and tried to choke her. She screamed.

Her brother, William, in a nearby room, rushed in with drawn revolver and fired twice.

Both shots struck Wood in the chest and he died almost immediately.

VANGUARD OF DELEGATES LEAVE FOR N. B. O. P. CONCLAVE AT SEASHORE

Annual Convention Will Open in Odd Fellows' Hall, Atlantic City, N. J., Friday Morning.

Delegates to the annual convention of the National Brotherhood of Operative Potters, which opens in Atlantic City, N. J., tomorrow morning, left East Liverpool today.

A party of about 50, including delegates, their wives and members of their families, boarded the 5 o'clock morning train for Pittsburgh. They left Pittsburgh about 8 o'clock over the B. & O. lines.

Others left here on the 8 a. m. "flyer," while a few boarded the 11:43 train to Pittsburgh. The B. & O. has arranged for a number of excursion specials, leaving Pittsburgh during the day.

The convention is scheduled to open at 9 o'clock Friday morning, in the Odd Fellows' hall, New York avenue, where all sessions will be conducted. Friday's session will be for organization work only. The convention will not be in session Saturday, Independence day, nor Sunday, but will get down to business in earnest on Monday.

Wage questions will not be considered at this year's convention inasmuch as the scale, adopted last fall, does not expire until October 1, 1927. Officers elected in May for one year terms will be installed.

No date has been set for the closing of the annual meeting. It will probably remain in session for at least a week, it was announced today.

OVERNIGHT NEW YORK-CHICAGO AIR MAIL SERVICE IS DECIDED SUCCESS

First Plane From Illinois Metropolis Carries Flowers From Vice-President Dawes to Col. John Coolidge.

NEW YORK, July 2. — Overnight New York-Chicago air mail service is a success.

The first plane in the new night mail service from Chicago arrived at Hadley field, N. J., at 2 o'clock this morning, well ahead of schedule.

It carried flowers for Colonel John Coolidge from Vice President Charles G. Dawes and 130 pounds of mail in 13 pouches.

The second plane landed at Hadley Field at 4:35, Eastern Standard time.

The westbound planes took off from Hadley Field last night with heavy loads of mail for Chicago.

The first plane to arrive this morning at Hadley Field from Chicago arrived one hour and fifteen minutes ahead of schedule. It was piloted by Paul Collins. The second plane, piloted by James Ames, was 24 minutes ahead of time.

Postmaster General Enthusiastic.

Postmaster General Harry S. New and other postal and government officials and a crowd of 15,000 persons witnessed the arrival of the planes which marked the inauguration of night air mail service between America's two largest cities—making it possible for letters posted in New York in the evening to be delivered in Chicago the next morning.

The arrival of the planes from the west was greeted with the honking of

Santa Barbara Quiet With Marines Busy; Feels New Tremor

SANTA BARBARA, Cal., July 2.—With more than 300 United States marines on guard, a quiet prevailed in Santa Barbara today.

A tremblor, the first in the past 24 hours, was felt shortly before 10 o'clock last night. No damage was done.

An extremely light and separate shock followed the earlier one.

No Mail Delivery On July Fourth, Says Postmaster

The holiday schedule will be observed at both the downtown and the Station A postoffices, Saturday, Indepenaence day, Postmaster J. Edwin McClure announced today.

The stamp and general delivery window will be open from 9 to 10 a. m., while the money order, registry and postal savings departments will be closed throughout the day. There will be no mail delivery by city or rural carriers.

Special delivery mail will be given prompt attention. All mails will be received and dispatched as usual.

THIEVES LOOT CHURCH; GET $15

Thieves entered the First Methodist Episcopal church, corner Fifth and Jackson streets, Tuesday evening, and escaped with $15 in cash, according to a report made to the police today.

Entrance was made with a skeleton key. The thieves pried open the lid of a roll top desk where they obtained the money. Keys kept in the desk were also taken.

REICH RETURNS FROM CAPITAL

Maurice H. Reich, of this city has returned from Washington, D. C., where he attended the 28th annual convention of the American Zionists association, held this week in the Mayflower hotel. More than 800 delegates from practically every state in the union attended the convention. Reich, who is secretary of the Zionists' organization in the East Liverpool district, was the delegate from the local organization.

Recovering From Stroke.

George B. M. Killmer, former member of the police force, who suffered a stroke of paralysis about two weeks ago, is recovering at his home, 668 St. Clair avenue. Killmer has been working as a cooper for the Smith-Phillips China company.

MAN CRUSHED AS AUTOMOBILE PLUNGES OVER EMBANKMENT

Arthur Dechman, 38, Tire Sales Manager, Seriously Injured.

ANOTHER IS CUT

Loses Control of Car Near West Point Curve.

Arthur Dechman, 38, Fairmont, W. Va., district manager for the Cord Tire Corporation, Chester, is in a serious condition in the City hospital, suffering from injuries, sustained at 6 o'clock this morning when his automobile crashed through a fence and plunged over a 20-foot embankment on the Lincoln highway north of the West Point filling station.

Fell Asleep at Wheel.

Dechman's left shoulder and chest were crushed when he was pinned behind the broken steering wheel.

A companion, Frank Johnson, 28, Youngstown distributor for the Cord Tire Corporation, who was traveling with him, sustained a slight laceration on the nose when struck by flying glass from the windshield.

The two men had been business visitors at the Chester tire factory yesterday and were enroute to Youngstown. Dechman, at the wheel of a Buick roadster, with Johnson, left here at 5:30 a. m. They had just rounded the curve at the gasoline filling station in West Point and reached a point about 200 yards beyond when the accident occurred.

Dechman is said to have fallen asleep, when the car swerved to the left of the road, crashed through the guard railing, cutting down four or five posts and two small trees and then went over the declivity. The car, however, remained in an upright position.

Deckman in Hospital.

A call was sent to Lisbon and Dr. Seward Harris, responded. The Eells ambulance from Lisbon also started for the scene of the smash-up, but out side of Lisbon it broke a rear axle. The driver returned to Lisbon and securing a touring car hurried to West Point.

The injured man and Johnson were placed in the touring car and started for the City hospital here. At the top of "Hall Deadening" hill, six miles north of here, the machine met the Sturgis ambulance which had been summoned in the meantime. The men made the remainder of the trip in the ambulance.

At the hospital, Deckman was attended by Dr. W. A. Hobbs and C. H. Bailey.

UNION WORKERS AID STRIKERS

Agree to Refuse to Work With Imported Carpenters.

Representatives of other branches of the building trades announced today, following a joint meeting last night, that they would refuse to work on jobs on which carpenters, imported to fill the places of 125 strikers, are engaged.

With the exception of plasters and stonemasons, who, it was declared, will stand with other unions workers, all branches of the building trade industry were represented at a conference with union carpenters. The meeting was held in the Fowler building.

As a result of the parley, steps looking toward the formation of a building trades council were taken.

Some out-of-town carpenters came here this week to fill the places of strikers, but most of them have left the city, union workers said.

The carpenters, who are demanding a wage increase from $10 to $11 a day, as well as the contractors, who rejected their proposal and offered a compromise of $10.25, are standing pat.

POTTERY PLANTS SUSPEND OPERATIONS FOR JULY HOLIDAYS WITH OUTLOOK FOR BUSINESS HOPEFUL

Suspension of operations ranging from one to two weeks in duration, will be the rule in the pottery industry in the East Liverpool district during the arly part of July, a survey today showed.

Most of the plants are idle today. In some cases work will be resumed next Monday, although in a majority of the shops operations will not be started until July 13. In one or two instances, plants will not resume production until July 20.

The suspension is customary during the early part of July because of the absence of many workers who are delegates to the annual convention of the National Brotherhood of Operative Potters which opens in Atlantic City, N. J., tomorrow. It is also inventory time.

Many manufacturers will make needed repairs to machinery and buildings during the shutdown.

Outlook for new business during the latter part of the year is hopeful, according to the plant owners.

"We are hopeful for a brighter turn of affairs a little later on," was the statement of one manufacturer.

Here are the results of the survey on the Fourth of July shutdown:

Homer Laughlin China company—(East End and Newell plants)—Decorating shops start July 6; clay shops and other departments, July 13.

Harker Pottery company—About 10 days; will resume July 13.

Vodrey Pottery company—Two or possibly three weeks; will start about July 20.

Knowles, Taylor & Knowles company—Short loaf only; date for resumption not known, probably early next week.

Edwin M. Knowles China company — (Newell and Chester plants) — About 15 days; start about July 1.

Davidson Porcelain company—Ten days; start July 13.

Potters Co-Operative company—Making extensive repairs; date of resumption of operations not determined.

Smith-Phillips China company—About two weeks; start about July 15.

C. C. Thompson Pottery company—Ten days; start Monday, July 13.

Standard Pottery company—Ten days; will resume about July 13.

T. A. McNicol Pottery company—Down until after the Fourth. Date for resumption indefinite.

Colonial Pottery company—Time of suspension undetermined.

Trenle China company—About five days only; will resume next Monday.

Hall China company — Two weeks; will start about July 15.

D. E. McNicol Pottery company—About two weeks.

West End Pottery company—About ten days; will resume probably Monday, July 13.

No Sunday Evening Services at St. John's Lutheran Church

Sunday evening services will be dispensed with at St. John's Lutheran church during July and August.

The Sunday school hour has been changed from 9:30 to 9 a. m. English services will begin at 10 a. m.

CAUSE OF BLAZE STILL UNKNOWN

Low Water Pressure is Blamed for Loss at Huntington.

Difference of opinion on estimates as to the amount of damage caused by a fire which yesterday destroyed three principal units of the Charles Boldt Glass commpany's plant at Huntington, and criticism by company officials of the lack of pressure in the city water system furnishing water to fight the blaze were heard yesterday. The loss is variously estimated at from over $100,000 to $500,000 by officials of the company and the city's two fire chiefs.

The cause of the fire is as yet unknown. No one was injured.

F. W. Schwenk, president of the company, placed the lowest estimate on the damage caused by the 12-hour blaze, declaring that accounts which placed the loss at $300,000 were grossly exaggerated and not more than $100,000.

Schwenk attributed the loss to his plant as being principally due to the inadequate water supply. He said that "firemen could not be expected to put out a fire, big or small, when the pressure was so low that they might drink from the feeble stream spouting from their lines."

Rush Barks, fire chief, who retired in favor of Ed Knight, said the loss would be "not one cent less than $500,000." Knight placed the loss at "anywhere between $350,00 and $450,000."

Another official of the glass company today declared that the loss was "substantially more than $300,000." He also said that insurance adjusters were scheduled to arrive here in a day or two, and the first official estimate would come from them. A $1,000,000 policy had been obtained two months ago.

The three principal structures damaged by the flames are the box plant, the power plant, of which the roof was burned, although the machinery housed there was said to be intact, and the planing mill.

In addition to these a number of warehouses storing millions of bottles were destroyed. The warehouses or sheds are in the center of the factory, and it is here that the flames were discovered.

CONDEMNED MAN IS GRANTED STAY

Martin Martino, sentenced to hang by Judge John C. Southern of the Harrison county criminal court, yesterday was granted a 30-day stay of execution of sentence by Governor Howard M. Gore. It was the second stay of execution Martino has received since he was taken to the state penitentiary at Moundsville.

Martino was sentenced after confessing to the murder of his common law wife and sent to the penitentiary in April. The first stay granted him set the date for his execution at July 3, and he was to have been hung on this date when Governor Gore gave him his second postponement.

The governor is believed to be considering the problem of communting the sentence to life imprisonment.

BENEFIT GAME HERE TONIGHT

Chester and Wellsville teams of the Industrial league will meet this evening on the Fifth street diamond. This will bring the first half of the season to a close and in addition the proceeds will be turned over to players Moore and Manning of the respective teams who were injured reecntly. Record crowd is anticipated.

BROOKE COUNTY MINE SUSPENDS

About 30 miners were thrown out of employment yesterday when the McKinleyville mine, three miles south of Wellsburg was closed. The mine was operated by the Richland Coal company, which stated that the closing order was due to decreased demand for coal. The McKinleyville mine is the last of several large mines in the Wellsburg district to suspend operations.

To Attend Convention.

Number of local residents left today for Atlantic City, where they will attend the convention of the National Brotherhood of Operative Potters, which opens tomorrow. Sessions will last for 10 days.

Game Postponed.

The scheduled game here last evening between the Chester Independents and Newell Greys was postponed owing to the non-appearance of the latter team.

Choir Rehearsal.

Members of the choir of St. Matthew's Episcopal church will hold rehearsal this evening for the sacred concert to be given in the church Sunday evening.

TRAMP SHOOTS RIVAL IN FATAL FIGHT OVER OLD PAIR OF SHOES

LOS ANGELES, June.—The story of a fatal battle in a junk heap over a pair of old shoes salvaged from the city's refuse was contained in the murder complaint issued by Deputy District Attorney Harold L. Davis against an unknown itinerant recorded now only as "Pistol Pete."

The victim of Pistol Pete was equally unknown. He was buried in an unmarked grave, after all efforts at identification failed. In drawing the complaint against the accused slayer, the prosecutor's office charged "Pistol Pete" with the slaying of "one Gasoline, a human being." "Gasoline" was the only name by which the dead man was known to his fellow tramps.

According to the meagre testimony obtained by Davis concerning the circumstances that led to the fatal shooting, both men eked out a bare existence by picking out scraps of some slight value from the city's refuse.

To these men a discarded stray hat represented a competence, an old shirt a modest inheritance. Consequently when the eyes of Pete and "Gasolene" lit on and old pair of shoes at the same time a quarrel ensued in which Pete shot and killed "Gasoline."

Kaynee Wash Suits, Shirts and Blouses for Boys'

Many a mother is spared the humiliation of seeing her son look like a ramuffin after strenuous play. If her son's clothes are cut on smart, distinctive lines they look neat and trim at all times—and the boy looks like a small gentleman.

Keeping a small son neat and respectable is a problem in every mother's life. Boys will be boys and they will skin their knees and tear their clothes.

The difference in boys appearance lies in the fact that some have clothes that stand a lot of wear and some have clothes that are quick to tear. Rents, tears, smudges of dirt—that's what makes the life of a boys' suit short.

Yet it need not necessarily.

Kaynee Wash Togs stand hard wear. Why? Because they are made of the best fabrics procurable, many of which are exclusive to Kaynee.

There are middy and Oliver Twist styles in linens, Palmer linens, ginghams and other sturdy materials. Smart styles and color combinations. Priced from $1.95 to $4.50. Sizes 2 to 8.

New Spring Creepers and Rompers for tiny tots. Fashioned of dimity, poplin, swasette and English Broadcloth. Peach, tan, pink, blue and white. Sizes 1, 2, and 3. Priced from $1.00 to $3.75.

Kaynee blouses and shirts are both smart and long wearing.

That a boys' blouse can have both these features is demonstrated in Kaynee togs.

These blouses and shirts are of Lancaster Cloth, madras, English Broadcloth, Oxfords and other desirable fabrics.

You can turn your sons loose in Kaynee blouses and shirts without fear of consequences, for hard wear is nothing to them.

They are built for service — sturdy in fabric — absolutely fast color—every pattern is a design exclusive to Kaynee.

The cut and fit are noticeably good, the workmanship is exceptional. Best of all, these blouses and shirts are able to resist the hazards of grime and rough play.

Among the new Spring blouses you will find checks, stripes and plain light blue. Priced at $1.00, $1.50 and $2.00. Sizes 4 to 15.

Shirts are in sizes 12 to 14 neckbands. Checks and stripes in good shades. Priced at $1.25, $1.35, $1.50, $2.00 and $2.85.

Many Fish Killed

NELSONVILLE — Thousands of dead fish are rotting on the banks of the Hocking river for many miles in this vicinity, according to reports to the state health department. State officials are investigating in an effort to learn the source of the poison in the stream which is believed to have caused the wholesale slaughter.

Kaynee Wash Suits, Shirts and Blouses for Boys'

Many a mother is spared the humiliation of seeing her son look like aramuffin after strenuous play. If her son's clothes are cut on smart, distinctive lines they look neat and trim at all times—and the boy looks like a small gentleman.

Keeping a small son neat and respectable is a problem in every mother's life. Boys will be boys and they will skin their knees and tear their clothes.

The difference in boys appearance lies in the fact that some have clothes that stand a lot of wear and some have clothes that are quick to tear. Rents, tears, smudges of dirt—that's what makes the life of a boys' suit short.

Yet it need not necessarily.

Kaynee Wash Togs stand hard wear. Why? Because they are made of the best fabrics procurable, many of which are exclusive to Kaynee.

There are middy and Oliver Twist styles in linens, Palmer linens, ginghams and other sturdy materials. Smart styles and color combinations. Priced from $1.95 to $4.50. Sizes 2 to 8.

New Spring Creepers and Rompers for tiny tots. Fashioned of dimity, poplin, swasette and English Broadcloth. Peach, tan, pink, blue and white. Sizes 1, 2, and 3. Priced from $1.00 to $3.75.

Kaynee blouses and shirts are both smart and long wearing. That a boys' blouse can have both these features is demonstrated in Kaynee togs.

These blouses and shirts are of Lancaster Cloth, madras, English Broadcloth, Oxfords and other desirable fabrics.

You can turn your sons loose in Kaynee blouses and shirts without fear of consequences, for hard wear is nothing to them.

They are built for service — sturdy in fabric — absolutely fast color—every pattern is a design exclusive to Kaynee.

The cut and fit are noticeably good, the workmanship is exceptional. Best of all, these blouses and shirts are able to resist the hazards of grime and rough play.

Among the new Spring blouses you will find checks, stripes and plain light blue. Priced at $1.00, $1.50 and $2.00. Sizes 4 to 15.

Shirts are in sizes 12 to 14 neckbands. Checks and stripes in good shades. Priced at $1.25, $1.35, $1.50, $2.00 and $2.85.

DAVID BETHEL, AGED 44, DIES

Succumbs to Complications Following Broken Jaw.

David R. Bethel, 44 years old, former Pennsylvania Railroad employe, died this morning at 4 o'clock at his home, 1312 Center street, following a four months' illness of complications resulting from injuries he sustained in February.

Bethel, who was employed in the C. & P. shops here, sustained a fractured jaw bone. The injury failed to heal, it is said, and caused his death.

He was recently taken to the East Liverpool City hospital for treatment, but several days ago was returned to his home.

He is survived by his wife, Helen, and two children, at home.

Pending the completion of funeral arrangements, the body has been removed to the Haugh funeral home.

FIREWORKS GO ON SALE TODAY

Fourth of July fireworks went on sale here today, accompanied by a series of "don'ts" by Mayor James S. Barnes, the chief executive urging a safe and sane observance.

The use of excessively large firecrackers is forbidden by police who will keep close watch on celebrators during the next few days.

Mayor Barnes rules that fireworks must not be ignited close to any structure, especially a frame one. "Keep away from property," he warns.

He further says: "Avoid the use of cheap toy cannons, pistols, etc., in which powder charges of cartridges are used.

"If a firecracker or other noise maker fails to go, wait a few minutes before investigating; otherwise it may explode suddenly and cause injury.

"And don't forget to take proper and immediate care of yourself in case of burns."

MEN'S MEETING AT HILLCREST

Arrangements have been completed for the men's meeting which will be held this evening in the Fairview school house at Hillcrest.

Luncheon will be served, followed by a program of speaking, singing and musicial selections. Attorney S. W. Crawford of East Liverpool will deliver the chief address, it was announced. Attorney Blaine Cochran was scheduled to lead the singing, with Dr. Winesweig at the plano.

ATTEND LODGE MEET IN LISBON

Members of the Wellsville chapter, Order of the Eastern Star, expect to attend the annual inspection of Ivy chapter, Lisbon, which will be held this evening in the Masonic temple, Lisbon.

Mrs. Hazel Beech, worthy matron, and Mrs. Dora S. Mitchell, deputy grand matron, will attend the inspection.

Dinner will be served at 6 o'clock and inspection ceremonies will start at 8:00.

Will Present Drama.

Members of the missionary society of the A. M. E. church today announced plans for the presentation of a home talent play.

The title of the drama is "The Old New Hampshire Home." The first performance will be given on Friday evening at 8 o'clock in the city hall auditorium. Rehearsals are well under way. Brownie's orchestra will provide music.

Yellow Creek Church Services.

"The Influence of Calvinism on History" will be the subject of a special sermon on Sunday morning at 11 o'clock in the Yellow Creek Presbyterian church by Rev K. J. Stewart, pastor.

A patriotic song service, in addition to an address, will be held in the evening.

Sunday school will convene in the morning at 10 o'clock. The Young People's society will hold a patriotic consecration service in the evening. The leader will be Paul Shaffer.

Rev. Stewart will also preach in the Long's Run Presbyterian church in the afternoon at 2:30. The Sunday school will convene at 1:30 p. m.

Mrs. Forbes Seriously Ill.

The condition of Mrs. D. A. Forbes, of Wood street, who recently underwent an operation in the East Liverpool City hospital, remains critical, it was announced today, with little hope for recovery.

Recovering From Injuries.

Miss Allie Mulford, daughter of Mr. and Mrs. Riley Mulford, of Washington avenue, is recovering from injuries sustained recently when an automobile in which she was riding, and driven by her aunt, Mrs. Virginia Saunders, of Toronto, backed into a fire plug in Washington avenue. Her head, which struck against the inside of the car, was severely lacerated.

Wellsville Personals.

Mr. and Mrs. Harry Driggs and son, Harold, of Washington street, have concluded a 10 days' motor trip to Niagara Falls, Buffalo and Geneva on the Lake.

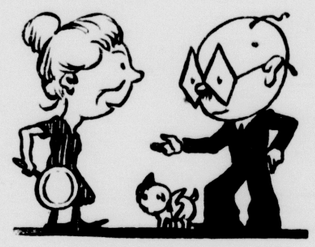

Mrs. W. E. Tucker and sons, of Columbus, are visiting with the former's aunt, Mrs. W. W. Rice, Riverside avenue.

Moore Funeral Today.

Funeral services for William A. Moore, 30, of this city, who died Tuesday at Massillon, will be held this afternoon at the late residence in Chester avenue. Burial will be made in Spring Hill cemetery.

Veteran Bridge Builder.

BELLAIRE, July —. R. Griner, of Baltimore, who designed the vehicle bride between Bellaire and Benwood, W. Va., had charge of the erection 50 years ago of the big Baltimore and Ohio railroad bridge between the two cities. The new structure is to be constructed just north of the old railroad bridge.

JOHNNY HINES AT CERAMIC

'Conductor 1492,' Screen Hit of Season Here for Three Days.

A battle royal, waxing fast and furious, that attracted participants and gained momentum, threatened to bring complete disaster to the production of "Conductor 1492," the feature photoplay which begins a three-day engagement today at the Ceramic, during the filming of a spectacular scene recently.

The grand free-for-all, in which the fists and pugilistic abilities of more than 150 extras were involved, was occasioned by the excessive high spirits and rousing good cheer that welcomed the ever-smiling Johnny's return to Ireland from America, a scene of great mirth in the production.

Hines returns to his native Irish town, very picturesquely portrayed, with adobe-shaped houses, covered with straw and greens; the pigs very comfortably wallowing in the mire, while the goats and mules complete the picture of a typical Erin village.

Johnny's home coming is a matter of great moment in the village, and of great joy, and when the long-awaited hour arrives all the folks rush out to greet him, taking him to their hearts with a vengeance. In the midst of the joyous babel of welcome a County Corker suddenly shouts: "Well, what did ye bring from America?" And, in answer to this query, Hines very dramatically lifts a box-full of boxing gloves, from the back seat of his limousine, throws them to the crowd and exclaims: "Show your nationality."

Well, then the fun begins in earnest. The men, women and boys, participating in the scene, are directed to put on the gloves, to celebrate, in fitting style, the return of Hines. Directors Charles Hines and Frank Griffen, enthusiastically cheered on the mob, and in short time, all had entered into the spirit of the occasion and a real fight, with all the trimmings, was on. Here and there, and everywhere—bang! zip! punch!

Movie Industry Lags In Japan; Ten Years Behind America

LOS ANGELES, July 2.—Japan film producers are still ten years behind American makers of motion pictures, and as yet in their own country they exhibit only 20 per cent of the cinemas shown, according to Baron von Kettler, German manufacturer of photographic films, who has returned from a business trip to the Orient.

"Japanese producers lack the sense of detail and the knowledge of picture making for international appeal that is so pronounced in American films," the Baron said. "It will be twenty years at least before Americans need fear much competition."

EAST LIVERPOOL — AMERICA'S POTTERY CENTER

WEDNESDAY, JULY 1, 1925.

Let's Make It a Sane Fourth

Is East Liverpool's celebration of the birthday of the nation and its president to be safe and sane?

This is the question on the lips of parents today, following the first 24 hours' sale of fireworks under the provisions of a municipal ordinance enacted for the purpose of reducing to a minimum Fourth of July accidents.

Despite the prohibition of the sale of cannon crackers, torpedo canes, pistols and other peace destroying paraphernalia, battle-like noises permeated the atmosphere in all sections of the city last night and today. And it will be a like story tonight and tomorrow night and Saturday.

The Fourth, as some old residents remember, was once a day when young lives were wasted, for mutilations, tetanus, blindness, loss of limbs, and burned buildings marked the celebration. It was a day long remembered by physicians and surgeons, hospital attendants, firemen and undertakers.

According to a report of the National Safety Council, more than 60,000 persons have been killed and injured in the last 20 Independence day celebrations. And included in the casualty list have been East Liverpool district victims.

This year the duties of Defense day are combined with the observance of the country's natal day, and a boisterous nation should celebrate the glad day in a spirit of comparative moderation.

East Liverpool, like scores of other cities, has learned the lesson of reckless Fourths and has legislated in an effort to prevent casualties and fire damage. But despite the prohibition of dangerous pyrotechnics, children may pay tribute with detonating explosives instead of an intelligent understanding of the significance of the great holiday unless older and wiser persons caution them.

Let sports, family picnics, motor trips and community gatherings supplant the old-fashioned Fourth, and let's celebrate the holiday without killing and maiming.

Earthquakes

These earthquake shocks are occurring in the United States lately with such frequency as to cause a good deal of alarm. They come not only in the usual sections but in areas long regarded as immune. It begins to look as if no part of the country is safe from tremors.

The old earth evidently is in one of her periods of readjustment. The crust, slowly shrinking as it cools, has to settle a bit now and then, or shove a little this way or that, to equalize the stresses and strains.

It has always been so since the *molten globe hardened. It* will always continue so, geologists say, until the process is complete and the globe is cold and dead like the moon. That will be many millions of years.

But the quakes diminish in intensity as time goes on. There are evidences in the ancient rocks of upheavals, subsidences and fractures enormously more violent than any recorded in human history. The crust thickens and strengthens like a coat of ice on a northern lake in winter. Even a thick crust will crack occasionally, but the cracking does less and less harm.

Most of our quakes are trivial and would be scarcely known except for the seismograph. It is surprising that the worst of them do so little damage, compared with what they might do. Our civilization really gets off easy, in its contest with great natural forces, in spite of its great cities and transportation systems, its huge buildings and its mazes of electric wires, sewers, water mains and reservoirs and gas and oil pipes.

Life For Gun-Toting

A vigorous effort is being made in New York to fix life imprisonment as the penalty for all persons convicted of crime who used deadly weapons or had such weapons with them at the time of the offense. One of the leading sponsors of the measure is the board of trade and transportation.

This would be severe, but on the whole would be just, because "no criminal set upon committing any crime or act of violence carries a weapon without being a potential murderer." It should tend to discourage both crimes and gun-toting.

Even this drastic proposal, however, ignores the main issue. Criminals carry "guns" because they can get them. Better than locking the criminal up for life after he has shot somebody would be making it impossible for him to get the pistol to shoot with. Sooner or later we shall get around to stopping this dangerous and unnecessary traffic in individual arms.

Fewer Infant Deaths

Belgium furnishes a striking example of the results that can be obtained by the establishment of child-welfare clinics and the general teaching of infant hygiene to the public. Belgium started such work during the World war.

Prior to that time Belgium's infant mortality rate was high. For the years 1901-1905, it had been 147.7 deaths for every 1,000 births. By 1922 the rate had been cut down to 107. The Belgian Children's bureau announces that the rate for 1923 was only 93.1 per 1,000 births. It will undoubtedly be progressively lower in the next few years, for such work accumulates success as it dispels ignorance and indifference. Any community that institutes widespread health publicity can achieve prompt results.

NEW YORK DAYBYDAY

By O. O. McINTYRE

NEW YORK, July 2.—Great Neck, L. I., is peopled mostly by theatrical folk. George M. Cohan, Tommy Meighan, Jame J. Corbett, Ed Wynne, Raymond Hitchcock, Oscar Shaw and hundreds of others, including, of course, Ring Lardner, the town's official Boswell, live there.

Any of its quiet streets is a slice of the Rialto transported. The town is a sharp contradiction to the reputed profligacy of theatrical folk. There are great estates with haughty mansions on all sides and many have their private strips of bathing beach.

A wag has dubbed it "Goitre" and as such it is known to its residents. It is there that Fred Stone and Will Rogers practice with their lariats. Gene Buck writes lyrics for the Follies. Marilyn Miller attempts a new toe twirl and "Tad" fashions his slang.

Great Neck slumbers through the morning and not until 1:30 p. m. do the matinee idols stroll trainward for the life that begins for them at 2:30. And in the afternoon beauties that may be seen in bathing suits would curl Mack Sennett's hair.

Real life for the Great Neckers begins after the theater when the stage folk rush home without often times removing all the grease paint. Homes glow with light, jazz record airs float through the windows and there is the pleasant exchange of talk from verandas.

Great Nack's proximity to New York does not stifle the village atmosphere. Every one seems to know everyone else and I am told they borrow cups and even exchange local gossip over the hedge. That it is a peaceful community and law abiding is evidenced by the village bastile.

It has fewer occupants yearly than any other village on Long Island. Also it has more pets—dogs, parrots, canaries, cats and even monkeys and marmosets.

There is the story of the Wall Street bond salesman who invaded Great Neck. He encountered a group at the golf club and explained his purpose. One actor told him he thought business would be brisk but that the residents were late sleepers and away most of the day rehearsing or acting in plays.

"A good way for you to do," he said, "is to distribute red cards to every home and when they want a bond they can stick it out on the front porch and then drive through town every day and see how many customers you have."

At one of my jobless periods I tried to sell bonds. My first prospect—as we say in the trade—was a man I learned later wrote magazine articles on finance. He admitted me to his office but before I left he had me so confused that I put on his hat and tried to walk out a door that led into a closet.

Manny Silverstone has left Delancey street for Paris. He was known as the "kosher shop poet" and tossed off many poems on the top of bare tables. His hair was long, his elbows threadbare and he wore the conventional poetical flowing tie but his sonnets would not sell. He finally got a job with an importing house and made such rapid advance in three weeks that they dispatched him to Paris but he says he is coming back. At a farewell dinner he said: "Business is just business, but poetry is life."

Most poets have this idea, but I lack the divine afflatus. It seems to me there is more of romance in the hustling business *world than will ever* be found in a cob-webby attic. And I have reached the point where I prefer a pot-belly to malnutrition in a charity ward.

HASKIN'S LETTER

BY FREDERIC J. HASKIN

A News Congress.

WASHINGTON, July 2. — There have been Pan-American commercial congresses, financial congresses, scientific congresses and public health congresses for the purpose of promoting a better understanding between the Americas. Now there is to be a Pan-American Congress of Journalists. This was provided for at the fifth Pan-American conference which met in Santiago, Chile, in 1923. At that time the governing board of the Pan-American Union was authorized to designate the date and place in the United States at which the congress should be assembled.

It has been decided that this congress shall convene on April 6, 1926, at Washington, D. C. One of the reasons for this date is that the annual Newspaper Publishers' convention is held in New York during April. It was felt that there would be more likelihood of a large representation from the west and middle west if the meeting could be arranged at a time when publishers from all over the United States would be congregating in the east for this convention. It was feared that for one reason or another many publishers would not feel that they could make such a trip twice.

In announcing the date Secretary of State Kellogg said he *believed that such a congress of journalists* would have a far-reaching influence in bringing about a closer acquaintance between the people of the American continents. He further stated that he believed that a resultant feature of such a congress would be that the journalists would be better able to interpret to their readers the common purpose and ideals of the nations of America.

Latin Americans are tremendously interested in the United States and have the greatest respect for many of its products. They are convinced that it manufactures the best motion pictures, the best typewriters and the best dental machinery. To this list they have now added American news services. There are at this time approximately a hundred newspapers in Latin America which subscribe to such services as the Associated Press and the United Press.

Up until the advent of the American cables, Latin America had only cable services with very high press rates. The newspapers of those countries therefore welcomed the American cables whose low press rates made it possible to purchase news services from the United States at reasonable cost. Most of their news had come from Great Britain, France and Germany. These services were maintained only by those people who had cables.

Movies Interest Them.

A man who has spent a great deal of time in South America and who probably understands the Latin American viewpoint better than any one else in this country, gives it as his personal opinion that the American motion pictures have had a strong influence on the Latin Americans' interest in United States news. Motion picture productions filmed in the United States enjoy a great popularity in the countries of the southern continent. Most of these deal with everyday life in various sections of the United States. Then there are the news reels which keep the world informed of what is being done even in the most remote places. These have made the Latin Americans familiar with the United States and her people. They feel that they actually know them. Therefore when they read in their newspaper of something which has occurred in Shellbark they feel a thrill of interest and say, "Oh, yes, I saw a picture of that the other day."

It is hoped that the first congress of journalists will be the forerunner of others to be held in Latin America. It is believed that journalists from the United States will be amazed at the way in which newspapers are run on the sister continent. Those who have gone there have come back filled with enthusiasm for many things they have seen. It is said that the United States has no race courses such as there are in some of these countries. There are many magnificent clubs, which far surpass any here.

Any personal contact and acquaintance with the people and the customs would do much to cement a friendship between the man from the United States and his Latin neighbor. One man of national prominence who made his first trip to South America recently became so enthused that he has since made four or five trips. This seems true of the majority who go. Immediately upon their return to the United States they begin planning for another trip.

Model Newspaper Offices.

Probably the most outstanding difference between the newspaper methods of the United States and those of Latin America is in the offices. In the latter the buildings are constructed as monuments to the profession — something which may be pointed to with price. They are built to impress the people with their solidity in much the same manner as our banks are constructed. All bankers realize the psychological effect the building itself has upon their patrons. There is apt to be a lack of confidence in a bank housed in a cheap, flimsy way.

In Buenos Aires one of the largest newspapers has a building which is one of the show places. In this there is a club where out-of-town guests may stay during their visit. There is a restaurant and a hospital which is for the use of not only employes, but for any one who may be injured or be taken ill in that vicinity. There is also an auditorium where any group of business men or others desiring to hold a meeting may gather.

The machinery in the press room is trimmed with the brightest nickel, and while it is probably actually no cleaner than the machinery of our newspaper offices, the visitor is dazzled by the glint of polished nickel. The pressmen instead of being in greasy trousers and B. V. D. undershirts wear neat uniforms. The reporters are not all squeezed into one room which reeks of stale tobacco and perspiration, and where the visitor wonders how they are ever able to concentrate sufficiently to turn in their copy. Each reporter is given a separate room where he may be quiet, and where careful attention has been given to just the proper light and ventilation. Perhaps the Latin American temperament requires more quiet for work.

While the office described may be more pretentious than many, it is said not to be unusual in the main. The publisher from the states may pick up quite a few ideas from a visit to one of these. They are already becoming imbued with the idea of making their offices show places, and it may be that before long large newspapers here may follow suit.

Certainly a Pan-American congress of journalists at which the methods and ethics of newspaper making are discussed can not but be both interesting and helpful to the profession. And it is just one more link in the chain of friendship being forged between the Americas.

Latin Americans are tremendously interested in the United States and have the greatest respect for many of its products. They are convinced that it manufactures the best motion pictures, the best typewriters and the best dental machinery. To this list they have now added American news services. There are at this time approximately a hundred newspapers in Latin America which subscribe to such services as the Associated Press and the United Press.

Up until the advent of the American cables, Latin America had only cable services with very high press rates. The newspapers of those countries therefore welcomed the American cables whose low press rates made it possible to purchase news services from the United States at reasonable cost. Most of their news had come from Great Britain, France and Germany. These services were maintained only by those people who had cables.

Movies Interest Them.

A man who has spent a great deal of time in South America and who probably understands the Latin American viewpoint better than any one else in this country, gives it as his personal opinion that the American motion pictures have had a strong influence on the Latin Americans' interest in United States news. Motion picture productions filmed in the United States enjoy a great popularity in the countries of the southern continent. Most of these deal with everyday life in various sections of the United States. Then there are the news reels which keep the world informed of what is being done even in the most remote places. These have made the Latin Americans familiar with the United States and her people. They feel that they actually know them. Therefore when they read in their newspaper of something which has occurred in Shellbark they feel a thrill of interest and say, "Oh, yes, I saw a picture of that the other day."

It is hoped that the first congress of journalists will be the forerunner of others to be held in Latin America. It is believed that journalists from the United States will be amazed at the way in which newspapers are run on the sister continent. Those who have gone there have come back filled with enthusiasm for many things they have seen. It is said that the United States has no race courses such as there are in some of these countries. There are many magnificent clubs, which far surpass any here.

Any personal contact and acquaintance with the people and the customs would do much to cement a friendship between the man from the United States and his Latin neighbor. One man of national prominence who made his first trip to South America recently became so enthused that he has since made four or five trips. This seems true of the majority who go. Immediately upon their return to the United States they begin planning for another trip.

Model Newspaper Offices.

Probably the most outstanding difference between the newspaper methods of the United States and those of Latin America is in the offices. In the latter the buildings are constructed as monuments to the profession — something which may be pointed to with price. They are built to impress the people with their solidity in much the same manner as our banks are constructed. All bankers realize the psychological effect the building itself has upon their patrons. There is apt to be a lack of confidence in a bank housed in a cheap, flimsy way.

In Buenos Aires one of the largest newspapers has a building which is one of the show places. In this there is a club where out-of-town guests may stay during their visit. There is a restaurant and a hospital which is for the use of not only employes, but for any one who may be injured or be taken ill in that vicinity. There is also an auditorium where any group of business men or others desiring to hold a meeting may gather.

The machinery in the press room is trimmed with the brightest nickel and while it is probably actually no cleaner than the machinery of our newspaper offices, the visitor is dazzled by the glint of polished nickel. The pressmen instead of being in greasy trousers and B. V. D. undershirts wear neat uniforms. The reporters are not all squeezed into one room which reeks of stale tobacco and perspiration, and where the visitor wonders how they are ever able to concentrate sufficiently to turn in their copy. Each reporter is given a separate room where he may be quiet, and where careful attention has been given to just the proper light and ventilation. Perhaps the Latin American temperament requires more quiet for work.

While the office described may be more pretentious than many, it is said not to be unusual in the main. The publisher from the states may pick up quite a few ideas from a visit to one of these. They are already becoming imbued with the idea of making their offices show places, and it may be that before long large newspapers here may follow suit.

Certainly a Pan-American congress of journalists at which the methods and ethics of newspaper making are discussed can not but be both interesting and helpful to the profession. And it is just one more link in the chain of friendship being forged between the Americas.

TRJO SAILING 5,000 MILES IN MOTOR BOAT

Leave Astoria, Ore., in Frail Craft for Hoboken.

90-DAY JAUNT

One Member of Party Will Write for Magazines.

PORTLAND, Ore., July 2.—"Bound for heaven, hell or Hoboken!"

The little motor boat Traveler bears that inscription as it pushes its way along various mighty rivers and streams on a transcontinental journey of 5,000 miles from Astoria, Ore., to New York.

The three members of the crew were most optimistic that Hoboken would be their ultimate landing point as they chugged out of Astoria Harbor the evening of May 21; and John Edwin Hoad, skipper; Frank S. Wilton, movie man, and Val Woodbury, navigator, all of Los Angeles, were mates in joy and enthusiasm when they arrived in Portland Harbor May 22.

"Spy Wapato," a dachsund in appearance, with a water spaniel's disposition, is the other member of the crew. He comes by his name in memory of the potato eaten by members of the Lewis and Clark expedition.

Take Three Months.

The Traveler is eighteen feet long and has a five-foot beam. It is equipped with two outboard engines, four-and-aft steering gear and locker space. The men believe they can make the trip in three months in the light, fast craft.

Leaving Portland the route was via the Columbia and Snake rivers to Lewistown, Idaho. They will portage the craft from Lewiston to Fort Benton, Mont., at the headwaters of the Missouri river, and then proceed down the Missouri 2,280 miles to the Mississippi, just above St. Louis, Mo. The course will then follow the Mississippi to the Illinois river, up the Illinois to La Salle, Ill., through the Illinois-Michigan canal to Chicago; up the west side of Lake Michigan through the Straits of Mackanaw, to Lake Huron.

The route will then follow the Canadian shore to the southern end of Georgia Bay to Fort Severn, Ont., thence through the Trent Waterways to Lake Ontario, down the St. Lawrence river to the mouth of the Richelieu river, then to Lake Champlain, through the Champlain canal to the Hudson river and down to New York.

Woodbury is an old navigator, and Hoag is an author. Hoag will write seevral articles for magazines.

WEAK, RUN-DOWN NERVOUS, DIZZY

Mrs. Lee Suffered From All These Troubles, but Lydia E. Pinkham's Vegetable Compound Made Her Well

Terre Haute, Indiana.—"I was weak and run-down and in such a nervous condition that I could hardly do my work. I was tired all the time and dizzy, had no appetite and could not sleep. I tried different medicines for a year but they did not help me. Then my husband saw the ad. for Lydia E. Pinkham's Vegetable Compound in the newspapers and had me take it. I regained my strength and never felt better in my life. It completely restored me to health. I had practically no suffering when my baby boy was born and he is very strong and healthy. I know that the Vegetable Compound is the best medicine a woman can take before and after childbirth for health and strength. I would be willing to answer letters from women asking about the Vegetable Compound."—Mrs. WM. J. LEE, Route E, Box 648, Terre Haute, Indiana.

What is a Balloon Tire?

THE announcements of two years or so ago defined a balloon tire as—

"A tire of large cross-sectional diameter having a thin, flexible side wall so it can be run at low enough air pressure to provide a soft air cushion between the car and the road."

That was the industry's ideal.

That was what the car owner was told he would get.

That is what the car owner *does* get in the U. S. Royal True Low-Pressure Balloon.

But he doesn't get it in all tires that carry the word "Balloon" on the side wall.

Some tires labeled Balloon wear out too fast when run soft, so they must be run at too high pressure to give ideal cushioning and comfort.

The makers of U. S. Royal Balloons have stuck to the original idea and ideal.

The U. S. Royal Balloon is built of Latex-treated Web Cord.

This provides the necessary strength and flexibility for low air pressure.

It also has the U. S. Low-Pressure Tread which distributes the weight evenly over the entire tread surface and eliminates early, uneven and unsightly tread wear.

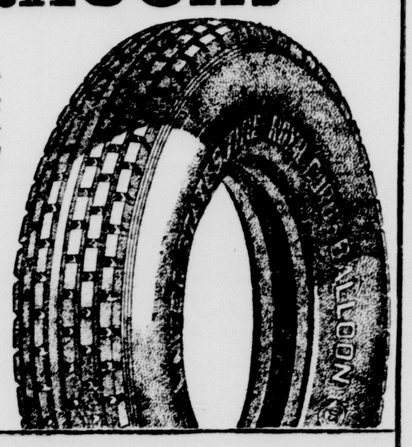

It can therefore be run at low enough pressure for ideal cushioning without injury.

Many nice big round tires with the name "balloon" on the side wall can't.

KIWANIS HEARS FROM DELEGATE

Report of St. Paul Convention Made at Noon Luncheon.

"Kiwanis is a bank—we cannot continue to draw out without putting something back in."

This was the thought expressed by Immediate Past Governor R. C. Heddleston of this city in connection with his report covering the international convention held at St. Paul, Minn., last week, made at today's meeting of the local club.

Heddleston reviewed the various sessions of the convention. Among the resolutions adopted by the delegates was one for clean movies, good books and decent literature, another pledging the club's co operation in fire prevention and also refusal to permit the organization of clubs in Mexico.

The attendance prize at today's meeting, a half dozen linen handker chiefs, furnished by O. O. Allison, was awarded to J. W. Moore. W. A. Weaver announced that the Lions' club had endorsed the proposed Salvation Army financial campaign and that the Rotary club would consider like action at their next week's meeting. The local club deferred action until the next meeting.

The club went on record as favoring the proposed cattle tuberculin test in Columbiana county, after Fred George, chairman of the agriculture committee, made a report of a conference held with farmers at Lisbon. The secretary was instructed to ask the county commissioners to set aside sufficient funds to make this test in Columbiana county.

C. W. Hendershot, chairman of the public affairs committee, submitted a report of the investigation as to the cost of signs, which the organization plans to erect along the principal highways leading into the city.

OFFICER HURT, AUTOIST FLEES

Driver Pushes Constable From Running Board After Arrest.

Constable A. F. Hephner, Leetonia, is suffering from bruises and lacerations, alleged to have been sustained at 6 o'clock last night, when he attempted to arrest a man, giving the name of Frank Lubrio, of Youngstown, as the latter was passing through Leetonia.

Hephner, sitting in his home in Columbia street, was attracted by the screams of a woman in a passing automobile. He stepped to the street and picked up a woman's shoe which had been dropped by the car. A few minutes later the automobile returned and was halted by the constable.

The officer, after taking the driver's name, ordered him to drive to the city hall. The stranger started his car in the direction of the road to Lisbon. Hephner commanded him to stop and climbed aboard the running board to give him the directions. Lubrio is alleged to have suddenly pushed the constable off the car, "stepped on the gas" and disappeared.

A call was sent to Lisbon and other places in an effort to head off the stranger, but he escaped.

Six Bandits Flee When Their Intended Victim Calls Police

CINCINNATI, July 2.—Six bandits after unsuccessfully attempting to raid the jewelry store of B. Greenwald, 514 Race street, early today escaped in an automobile after shooting one man and terrorizing crowds by firing many bullets into the air. The bandits were running away when Charles Golfuss, 31, an iceman who was delivering ice nearby unwittingly got in the path of one of the fugitives. Greatly excited the bandit shot Goldfuss in the hip. Goldfuss threw his ice tongs at the gun user, missed him but struck the driver of the automobile, causing him to swerve the car and collide with a pole.

When four of the six bandits entered the store the proprietors, Ernest Waldvogel and William Grassmuck, were not intimidated by the display of weapons. Grassmack ran to the door and called for the police, whereupon the bandits fled without taking anything.

Suspect Husband Of Patient Slew Cincinnati Doctor

CINCINNATI, July 2.—Many women who had been patients of Dr. Walter B. Knight, passed and repassed the coffin of the murdered physician when his funeral services were held at a funeral home this morning. Others were merely curiosity-seekers. Detectives are still trying to solve the mystery of Dr. Knight's death. With twelve wounds on his head, evidently inflicted with a hatchet, he was found by his wife lying on the floor of his office Sunday night.

Because of the nature of many of the cases Dr. Knight handled, it is thought the husband of one of his patients may have committed the crime. Many papers signed by women patients freeing Dr. Knight from any liability in their cases were found in his desk. Hundreds of letters written by women in cities and towns near Cincinnati also were discovered. The physician was last seen alive in a restaurant in the Negro district at 3 p. m. Saturday.

Almost the entire rural population of Denmark is organized in various classes of co-operative units, both for buying and distributing, and the total annual turnover of these associations in 1924 was 1,763,000,000 crowns.

Floods Devastate Part of Poland, 150,000 Homeless

LONDON, July 2.—Floods are spreading devastation in southeastern Poland, according to Warsaw advices to the Dispatch today.

More than 150,000 have been made homeless. Thousands of homes were carried away, crops destroyed or seriously damaged and railway bridges and factories hit by the havoc.

Relief funds have been organized.

SANTA BARBARA QUAKE TOLL 13

Four Thousand Workmen Demolish Condemned Structures.

SANTA BARBARA, Calif., July 2.—Another slight shock was felt in Santa Barbara at 10:02 this morning.

The tremor was mild and did no damage. It was the third shock in the last 12 hours.

SANTA BARBARA, July 2.—Dawn today dispersed white fog that had crept in from the ocean to conceal from 20 United States marines the scars that marred the beauty of the picturesque Santa Barabar on the fourth day since the city's earthquake disaster. As the sun wheeled into the heavens it became apparent that the city was more completely destroyed than first believed. Many buildings that yesterday stood upright, seemingly undamaged except for immense cracks up their facades, today were piles of bricks, mortar and wrenched steel. The work of demolishing condemned structures proceeded with gigantic strides under the impetus of the efforts of 4,000 workmen.

The death toll remained at 13 today. Search for four or five believed dead was made in all wrecked buildings.

Two minor shocks were felt during the night. No damage was done. The first shocks were felt at 10 o'clock last night and the second came shortly afterward. Both were extremely mild and passed almost unnoticed.

Contributions from all parts of the country continued to pour into the city for relief work.

One of the heaviest individual subscriptions came from R. B. Ward, baking king, who contributed $50,000 for relief work.

HENRY FORD BID ON SHIPS LOST

WASHINGTON, July 2.—Press reports today that Henry Ford had submitted a bid for the 200 surplus ships offered for sale by the United States Emergency Fleet corporation caused a search to be made today of the shipping board's files, but no letter from Ford was found.

It was indicated that Ford's bid probably would be considered should it be found later that it had been delayed in the mail, although dispatched in time to reach here when the bids were opened.

Overnight Air Mail

automobile horns and cheers from the great crowd assembled in and near the flying field.

Postmaster General New was enthusiastic over the success of the service. "It marks an epoch of two things," he said. "First, the science and progress of aviation, and, secondly, in transportation. It is a far cry to the days of the pony express. Both of these methods of transportation have existed within my own lifetime."

Cleveland Opens Airport

CHICAGO, July 2.—Chicago's first night air mail from New York, packed in the cockpit of a giant De Haviland piloted by Warreda B. Williams, zoomed down out of the sky to a perfect landing at the Maywood Field at 6:18 o'clock (Central Standard Time) today.

The 32 sacks of mail were immediately loaded on trucks and started for the Loop for the first daily delivery.

CLEVELAND, July 2.—While more than 100,000 citizens of Cleveland and northern Ohio looked on, the Cleveland airport was officially opened here last night following a banquet at public hall addressed by civic and aviation leaders.

Never before in Ohio was there such an assemblage gathered to watch the stunt flying and the inauguration of night air mail. Thousands were unable to reach the field so great was the traffic jam, although it was estimated by police that more than 30,000 automobiles parked in close approximately of the field.

Plane Brings Gown Shipment.

As the sun sank in the west a trail of lights beamed out to light the way across the continent for night air mail flyers who left Chicago, and New York mail that was delivered in Cleveland, New York, or Chicago early this morning.

At the same time in public hall the largest banquet ever held in Ohio was going on and 2,000 guests heard Cleveland extolled for its leadership in aviation and pictured as the future aeronautical capital of the United States.

William D. Mayo, engineer of the Ford Motor company, declared that Henry Ford would have 50 commercial airplanes carrying passengers and freight within another year.

A Ford roadster was brought here last night by the maiden Dearborn, Ill., assembled in 45 minutes, and driven from a platform by Mayo with City Manager William R. Hopkins sitting beside him.

Shortly after the arrival of the automobile from Detroit a Martin commercial plane arrived from New York with a load of gowns for a local department store. It had made a nonstop flight from New York.

The Socialist city council of Edmonton, England, has forbidden jazzing at its municipal dances.

REPORTS FROM STOCK MARKET

NEW YORK, July 2.—Industrial stock prices scored further moderate advances in the early trading today, with speculative interest also extending to wider range of the railroad, motor, equipment and copper stocks. Studebaker's advance to 49, the highest price for the year to date, was the feature of the first period in the motor stocks, though Moon, Packard, Piercearrow, Hupp, Briggs Manufacturing, United States Rubber and Yellow Cab moved up to fractionally higher prices.

Pullman's rise to 142 for a gain of 3½ points reflected investment buying due to the refusal of the Interstate Commerce commission to reduce surcharges on Pullman service in eastern points. Baldwin Locomotive, the other member of the equipment group, was active and strong, advancing to a new high on the movement. Woolworth humped 3 points at the opening, but selling orders flowed in and prices reacted. Owens Bottle, Universal Pipe and other specialties, continued to move moderately higher.

Heavy trading in Wheeling and Lake Erie, Wabash, Western Maryland, etc., accompanied rumors that the Loree railroad interests were vigorously pushing their plan to establish a gigantic eastern railroad system, revolving around the Delaware and Hudson and untimately linked up with Kansas City Southern, Katy and other mid-western and southwestern systems. Frisco common sold up a point on higher dividend prospects; New York Central, Atchison Southern Pacific and other dividend rails were fractionally higher.

Call money continued at 5 per cent for renewals. Foreign exchanges made a good recovery at the opening with French francs up 11 points, Belgian up 5½ and Scandanavian up 16 to 22 points.

Most of the high priced industrials and specialties continued to fore ahead, the list including American Ice, United Drug, Cast Iron Pipe, General Electric, Pullman, etc. Selling orders predominated in American Can, and prices were slightly lower.

OPEN BROADWAY GAS STATION

Ohio Valley Oil Co. Branch in Service Tomorrow.

Ohio Valley Oil company's new filling station at the southwest corner of Broadway and East Third street, will formally open for business tomorrow.

The new station, which occupies the site of the old Crisis building, is of stucco and red brick construction. It is equipped with three electrically-driven visible pumps, of 10 gallons capacity, the only pumps of this size in eastern Ohio. The station is also equipped with an oil rack where free crankcase service will be available for motorists.

To each motorist, who purchases five gallons or more of gasoline on the opening day, will be given coupons good for four quarts of "Super-Flash" motor oil. This station will handle "Super-Flash" gasoline and other products exclusively.

Work on the new filling station being erected by the Ohio Valley Oil company at the corner of Mulberry street and Pennsylvania avenue is progressing. The site has been cleared and ground for the storage tanks and building was broken yesterday.

This station will be larger than the other stations operated by the company here, inasmuch as it will be on the new road to Midland and the transient trade will be catered to especially. It will contain a ladies' rest room and other conveniences for the traveling motorist.

The Mulberry street station will be the Ohio Valley Oil company's eighth filling station, four of which are in East Liverpool, two in Wellsville and one each in Chester and New Cumberland. Frank G. Jones is president of the company.

"While this means a primary must be held in the township of Liverpool, it will be only for the purpose of nominating judge and clerk and will not extend to township offices.

"Nominations for either of these positions may be made by nominating petitions under section 4996, G. C. All candidates for judge, however nominated, will go on the non-partisan ballot in November. Candidates for clerk, is nominated at the primary, will go upon their proper party ballot. If nominated as independents, by petition, they should go in an independent column upon the ballot."

donment of these right has been the uncodified condition of China's laws.

Chinese magistrates impose sentences based largely on tradition, and it was to correct this condition that new penal and other codes were recently adopted.

A commission is now engaged in codifying all Chinese law.

London's Attiude.

LONDON, July 2.—Great Britain today threw cold water on Secretary of State Kellogg's propoal for a new conference of the powes to iron out Chinese troubles that have resulted in the present widespread disorders in that country.

"China must put her ouse in order before there can be any conference to discuss matters of extra-territoriality," said a statement from the foreign office.

British officials wee manifestly surprised at Kellogg's move, for no communication had ben received from Washington, they asserted. In the absence of such official communication, foreign office officials said they believed the United States would continue to co-operate with the other powers interested in Cina and deal with the issue of extr territoriality "only after China herself has cleared up the present situatio and showed herself able to protectforeign lives and property."

ted, also it is NOT contagious.

Unlike consumption and other diseases you cannot "catch" cancer from its victim. It is important to have this known.

Steve Donoghue was thrown from his horse in the Paris Grand Prix and laid up in the hospital.

In one day more tha a dozen special passenger airplanes were hired in London to take the jockey's friends to his Paris hospital. Not allowed to see him, they left best wishes and flew home. Europe is really USING the flying machine invented in America. We shall get around to it some day.

Those that watch and follow London fashions, take notice.

They make "black-less" waistcoats, men's suits are colored almost like the rainbow. Derby hats are worn gray and fawn colored, and you can get an Irish tweed so thin it's nearly transparent.

ELEPHANT leg trousers and "ice colored" silk shirts help to make the brighter men's clothes for London. What is wanted by England and her imitators, tailors can't supply, and that's cerebral activity under the gray or fawn colored derbies.

Russia will install a great telephone system and wisely calls in the telephone people of the United States to help spend $100,000,000 on the project.

The number of telephones will be increased from 120,000 to 1,000,000 and long distance will connect Leningrad with the Caspian sea.

Bolshevist Russia seems on her way to become a "safe and sane" capitalistic republic. Nothing like money to make you conservative.

KIWANIS HEARS FROM DELEGATE

Report of St. Paul Convention Made at Noon Luncheon.

"Kiwanis is a bank—we cannot continue to draw out without putting something back in."

This was the thought expressed by Immediate Past Governor R. C. Heddleston of this city in connection with his report covering the international convention held at St. Paul, Minn., last week, made at today's meeting of the local club.

Heddleston reviewed the various sessions of the convention. Among the resolutions adopted by the delegates was one for clean movies, good books and decent literature, another pledging the club's co operation in fire prevention and also refusal to permit the organization of clubs in Mexico.

The attendance prize at today's meeting, a half dozen linen handkerchiefs, furnished by O. O. Allison, was awarded to J. W. Moore. W. A. Weaver announced that the Lions' club had endorsed the proposed Salvation Army financial campaign and that the Rotary club would consider like action at their next week's meeting. The local club deferred action until the next meeting.

The club went on record as favoring the proposed cattle tuberculin test in Columbiana county, after Fred George, chairman of the agriculture committee, made a report of a conference held with farmers at Lisbon. The secretary was instructed to ask the county commissioners to set aside sufficient funds to make this test in Columbiana county.

C. W. Hendershot, chairman of the public affairs committee, submitted a report of the investigation as to the cost of signs, which the organization plans to erect along the principal highways leading into the city.

OFFICER HURT, AUTOIST FLEES

Driver Pushes Constable From Running Board After Arrest.

Constable A. F. Hephner, Leetonia, is suffering from bruises and lacerations, alleged to have been sustained at 6 o'clock last night, when he attempted to arrest a man, giving the name of Frank Lubrio, of Youngstown, as the latter was passing through Leetonia.

Hephner, sitting in his home in Columbia street, was attracted by the screams of a woman in a passing automobile. He stepped to the street and picked up a woman's shoe which had been dropped by the car. A few minutes later the automobile returned and was halted by the constable.

The officer, after taking the driver's name, ordered him to drive to the city hall. The stranger started his car in the direction of the road to Lisbon. Hephner commanded him to stop and climbed aboard the running board to give him the directions. Lubrio is alleged to have suddenly pushed the constable off the car, "stepped the gas" and disappeared.

A call was sent to Lisbon and other places in an effort to head off the stranger, but he escaped.

Six Bandits Flee When Their Intended Victim Calls Police

CINCINNATI, July 2.—Six bandits after unsucessfully attempting to raid the jewelry store of B. Greenwald, 514 Race street, early today escaped in an automobile after shooting one man and terrorizing crowds by firing many bullets into the air. The bandits were running away when Charles Golfuss, 31, an iceman who was delivering ice nearby unwittingly got in the path of one of the fugitives. Greatly excited the bandit shot Goldfuss in the hip. Goldfuss threw his ice tongs at the gun user, missed him but struck the driver of the automobile, causing him to swerve the car and collide with a pole.

When four of the six bandits entered the store the proprietors, Ernest Waldvogel and William Grassmuck, were not intimidated by the display of weapons. Grassmack ran to the door and called for the police, whereupon the bandits fled without taking anything.

Suspect Husband Of Patient Slew Cincinnati Doctor

CINCINNATI, July 2.—Many women who had been patients of Dr. Walter B. Knight, passed and repassed the coffin of the murdered physician when his funeral services were held at a funeral home this morning. Others were merely curiosity-seekers. Detectives are still trying to solve the mystery of Dr. Knight's death. With twelve wounds on his head, evidently inflicted with a hatchet, he was found by his wife lying on the floor of his office Sunday night.

Because of the nature of many of the cases Dr. Knight handled, it is thought the husband of one of his patients may have committed the crime. Many papers signed by women patients freeing Dr. Knight from any liability in their cases were found in his desk. Hundreds of letters written by women in cities and towns near Cincinnati also were discovered. The physician was last seen alive in a restaurant in the Negro district at 3 p. m. Saturday.

HENRY FORD BID ON SHIPS LOST

WASHINGTON, July 2.—Press reports today that Henry Ford had submitted a bid for the 200 surplus ships offered for sale by the United States Emergency Fleet corporation caused a search to be made today of the shipping board's files, but no letter from Ford was found.

It was indicated that Ford's bid probably would be considered should it be found later that it had been delayed in the mail, although dispatched in time to reach here when the bids were opened.

Overnight Air Mail

automobile horns and cheers from the great crowd assembled in and near the flying field.

Postmaster General New was enthusiastic over the success of the service. "It marks an epoch of two things," he said. "First, the science and progress of aviation, and, secondly, in transportation. It is a far cry to the days of the pony express. Both of these methods of transportation have existed within my own lifetime."

Cleveland Opens Airport

CHICAGO, July 2.—Chicago's first night air mail from New York, packed in the cockpit of a giant De Haviland piloted by Warreda B. Williams, zoomed down out of the sky to a perfect landing at the Maywood Field at 6:18 o'clock (Central Standard Time) today.

The 32 sacks of mail were immediately loaded on trucks and started for the Loop for the first daily delivery.

CLEVELAND, July 2.—While more than 100,000 citizens of Cleveland and northern Ohio looked on, the Cleveland airport was officially opened here last night following a banquet at public hall addressed by civic and aviation leaders.

Never before in Ohio was there such an assemblage gathered to watch the stunt flying and the inauguration of night air mail. Thousands were unable to reach the field so great was the traffic jam, although it was estimated by police that more than 30,000 automobiles parked in close approximately of the field.

Plane Brings Gown Shipment.

As the sun sank in the west a trail of lights beamed out to light the way across the continent for night air mail flyers who left Chicago, and New York mail that was delivered in Cleveland, New York, or Chicago early this morning.

At the same time in public hall the largest banquet ever held in Ohio was going on and 2,000 guests heard Cleveland extolled for its leadership in aviation and pictured as the future aeronautical capital of the United States.

William D. Mayo, engineer of the Ford Motor company, declared that Henry Ford would have 50 commercial airplanes carrying passengers and freight within another year.

A Ford roadster was brought here last night by the maiden Dearborn, Ill., assembled in 45 minutes, and driven from a platform by Mayo with City Manager William R. Hopkins sitting beside him.

Shortly after the arrival of the automobile from Detroit a Martin commercial plane arrived from New York with a load of gowns for a local department store. It had made a nonstop flight from New York.

The Socialist city council of Edmonton, England, has forbidden jazzing at its municipal dances.

REPORTS FROM STOCK MARKET

NEW YORK, July 2.—Industrial stock prices scored further moderate advances in the early trading today, with speculative interest also extending to wider range of the railroad, motor, equipment and copper stocks. Studebaker's advance to 49, the highest price for the year to date, was the feature of the first period in the motor stocks, though Moon, Packard, Piercearrow, Hupp, Briggs Manufacturing, United States Rubber and Yellow Cab moved up to fractionally higher prices.

Pullman's rise to 142 for a gain of 3½ points reflected investment buying due to the refusal of the Interstate Commerce commission to reduce surcharges on Pullman service in eastern points. Baldwin Locomotive, the other member of the equipment group, was active and strong, advancing to a new high on the movement. Woolworth humped 3 points at the opening, but selling orders flowed in and prices reacted. Owens Bottle, Universal Pipe and other specialties, continued to move moderately higher.

Heavy trading in Wheeling and Lake Erie, Wabash, Western Maryland, etc., accompanied rumors that the Loree railroad interests were vigorously pushing their plan to establish a gigantic eastern railroad system, revolving around the Delaware and Hudson and untimately linked up with Kansas City Southern, Katy and other mid-western and southwestern systems. Frisco common sold up a point on higher dividend prospects; New York Central, Atchison Southern Pacific and other dividend rails were fractionally higher.

Call money continued at 5 per cent for renewals. Foreign exchanges made a good recovery at the opening with French francs up 11 points, Belgian up 5½ and Scandanavian up 16 to 22 points.

Most of the high priced industrials and specialties continued to fore ahead, the list including American Ice, United Drug, Cast Iron Pipe, General Electric, Pullman, etc. Selling orders predominated in American Can., and prices were slightly lower.

OPEN BROADWAY GAS STATION

Ohio Valley Oil Co. Branch in Service Tomorrow.

Ohio Valley Oil company's new filling station at the southwest corner of Broadway and East Third street, will formally open for business tomorrow.

The new station, which occupies the site of the old Crisis building, is of stucco and red brick construction. It is equipped with three electrically-driven visible pumps, of 10 gallons capacity, the only pumps of this size in eastern Ohio. The station is also equipped with an oil rack where free crankcase service will be available for motorists.

To each motorist, who purchases five gallons or more of gasoline on the opening day, will be given coupons good for four quarts of "Super-Flash" motor oil. This station will handle "Super-Flash" gasoline and other products exclusively.

Work on the new filling station being erected by the Ohio Valley Oil company at the corner of Mulberry street and Pennsylvania avenue is progressing. The site has been cleared and ground for the storage tanks and building was broken yesterday.

This station will be larger than the other stations operated by the company here, inasmuch as it will be on the new road to Midland and the transient trade will be catered to especially. It will contain a ladies' rest room and other conveniences for the traveling motorist.

The Mulberry street station will be the Ohio Valley Oil company's eighth filling station, four of which are in East Liverpool, two in Wellsville and one each in Chester and New Cumberland. Frank G. Jones is president of the company.

500 Persons Hoot Dry Agents as They Capture Beer Truck

BALTIMORE, Md., July 2.—A crowd of 500 persons threatened dry agents today when they captured a beer-laden truck. The crowd gathered around the Southern police station and hooted and jeered the agents who took into custody F. H. Smith and J. H. Arnold.

Flashlight Powder Explosion Injures Ohio Photographer

RICHMOND, Ind., July 2.—Robert Huber, photographer, of Dayton, O., was in a critical condition in a hospital here today as a result of a premature explosion of flashlight powder. He was threatened with the loss of his sight.

etc. The necessary blank lines should be left under each title so that the electors may, if they so desire, write in the names of other persons.

"While this means a primary must be held in the township of Liverpool, it will be only for the purpose of nominating judge and clerk and will not extend to township offices.

"Nominations for either of these positions may be made by nominating petitions under section 4996, G. C. All candidates for judge, however nominated, will go on the non-partisan ballot in November. Candidates for clerk, is nominated at the primary, will go upon their proper party ballot. If nominated as independents, by petition, they should go in an independent column upon the ballot."

donment of these right has been the uncoditied condition of China's laws.

Chinese magistrates impose sentences based largely on tradition, and it was to correct this condition that new penal and other codes were recently adopted.

A commission is now engaged in codifying all Chinese law.

London's Attiude.

LONDON, July 2.—Great Britain today threw cold water on Secretary of State Kellogg's propoal for a new conference of the powes to iron out Chinese troubles that have resulted in the present widespread disorders in that country.

"China must put her ouse in order before there can be any confgrence to discuss matters of extra-territoriality," said a statement from the foreign office.

British officials wee manifestly surprised at Kellogg's move, for no communication had ben received from Washington, they asserted. In the absence of such official communication, foreign office officials said they believed the United States would continue to co-operate with the other powers interested in Cina and deal with the issue of extr territoriality "only after China herself has cleared up the present situatio and showed herself able to protect foreign lives and property."

ted, also it is NOT contagious.

Unlike consumption and other diseases you cannot "catch" cancer from its victim. It is important to have this known.

Steve Donoghue was thrown from his horse in the Paris Grand Prix and laid up in the hospital.

In one day more tha a dozen special passenger airplanes were hired in London to take the jockey's friends to his Paris hospital. Not allowed to see him, they left best wishes and flew home. Europe is really USING the flying machine invented in America. We shall get around to it some day.

Those that watch and follow London fashions, take notice.

They make "black-less" waistcoats, men's suits are colored almost like the rainbow. Derby hats are worn gray and fawn colored, and you can get an Irish tweed so thin it's nearly transparent.

ELEPHANT leg trousers and "ice colored" silk shirts help to make the brighter men's clothes for London. What is wanted by England and her imitators, tailors can't supply, and that's cerebral activity under the gray or fawn colored derbies.

Russia will install a great telephone system and wisely calls in the telephone people of the United States to help spend $100,000,000 on the project. The number of telephones will be increased from 120,000 to 1,000,000 and long distance will connect Leningrad with the Caspian sea.

Bolshevist Russia seems on her way to become a "safe and sane" capitalistic republic. Nothing like money to make you conservative.

Yank Lawn Tennis Invaders Winners In British Matches

WIMBLEDON, Eng., July 2.—Ray Casey and John Hennessey, the American lawn tennis invaders, today overwhelmed Leighton Crawford and M. B. Fisher in their fourth round match in the men's doubles, winning 6-4, 4-6, 6-0, 6-1.

The victory means that Casey and Hennessey will enter the semi-finals against Cochet and Brugnon, the Frenchmen.

The Americans were in rare form, while the Englishmen went to pieces at critical periods in various sets. Casey's services was brilliant—he won three love service games.

Answers to Questions

By FREDERIC J. HASKIN

(Any reader can get the answer to any question by writing The Review-Tribune Information Bureau, Frederic J. Haskin, Director, Washington, D. C. This offer applies strictly to information. The Bureau can not give advice on legal, medical and financial matters. It does not attempt to settle domestic troubles, nor undertake exhaustive research on any subject. Write your question plainly and briefly. Give full name and address and enclose two cents in stamps for return postage. All replies are sent direct to the inquirer.)

Q. What is the best record ever made on the Indianapolis speedway for 10 miles? R. J. D.

A. The speedway record for 10 miles was 7.5512 made by Aitgen with a National car July 2, 1910.

Q. What causes paralysis? A. M. G.

A. It may be caused by lesions of the brain, of the spinal cord, of the nerve trunks or their terminations.

Q. How does the number of women in college today compare with 50 years ago? M. A.

A. There are now 216,000, while 50 years ago there were about 4,000.

Q. Do the wild tribes menace travelers who cross the Sahara? E. D.

A. Many parts of the desert are still inhabited by wild desert tribes which attack tourists upon occasions. It is wise before making a trip into the desert to insure proper protection.

Q. Where is agate found? H. B.

A. Agates are found universally and are much used, when cut and polished, for ornaments and jewelry. The principal supply comes from Uraguay and Brazil, in South America, whence they are sent to Oberstein, in Germany, where their polishing is an important industry.

Q. For whom are Douglas firs named? W. O. H.

A. The Pseudotsuga douglasii, closely related to the firs, and often regarded as a fir, is named after the Scotch botanist, David Douglas. He visited the Pacific coast in the first half of the nineteenth century.

Q. Are any water snakes poisonous? B. R.

A. The biological survey says that the cotton mouth moccasin, a reptile found in the south, while not purely an aquatic snake, lives in the water a great part of the time. This is a poisonous snake.

Q. When was the Chateu de Ramezay built? H. O. W.

A. It was erected in Montreal about 1705.

Q. How long is the standard working day in Germany? M. R. F.

A. The eight-hour working day was provided for in Germany by regulations of 1918 and 1919. Under the emergency powers act of 1923, a federal order was issued January 1, 1924, making a number of exceptions to the eight-hour regulations. This caused considerable disturbance and much protest on the part of the unions.

Q. What state got the most congressional medals for the World war? C. W. R.

A. New York men received the greatest number. The following is a list of several of the states which stood at the top: New York, 14; Illinois, 10; California, 7; New Jersey, 7; South Carolina, 6; Tennessee, 6.

Q. How old are military societies in Europe? F. S. L.

A. Military societies as organized today are of comparatively recent introduction in Europe. During the Middle Ages plain soldiers were not organized. Persons of noble birth in the military service of their country, however, frequently joined the military and religious orders, such as the Knights Templars and the Knights of St. John of Jerusalem, which are among the earliest orders of history. The French Legion of Honor, a general military and civil order of merit, open to all citizens of France after 25 years of service, was established by Napoleon May 19, 1802.

Answers to Questions

By FREDERIC J. HASKIN

(Any reader can get the answer to any question by writing The Review-Tribune Information Bureau, Frederic J. Haskin, Director, Washington, D. C. This offer applies strictly to information. The Bureau can not give advice on legal, medical and financial matters. It does not attempt to settle domestic troubles, nor undertake exhaustive research on any subject. Write your question plainly and briefly. Give full name and address and enclose two cents in stamps for return postage. All replies are sent direct to the inquirer.)

Q. What is the best record ever made on the Indianapolis speedway for 10 miles? R. J. D.

A. The speedway record for 10 miles was 7.5512 made by Aitgen with a National car July 2, 1910.

Q. What causes paralysis? A. M. G.

A. It may be caused by lesions of the brain, of the spinal cord, of the nerve trunks or their terminations.

Q. How does the number of women in college today compare with 50 years ago? M. A.

A. There are now 216,000, while 50 years ago there were about 4,000.

Q. Do the wild tribes menace travelers who cross the Sahara? E. D.

A. Many parts of the desert are still inhabited by wild desert tribes which attack tourists upon occasions. It is wise before making a trip into the desert to insure proper protection.

Q. Where is agate found? H. B.

A. Agates are found universally and are much used, when cut and polished, for ornaments and jewelry. The principal supply comes from Uraguay and Brazil, in South America, whence they are sent to Oberstein, in Germany, where their polishing is an important industry.

Q. For whom are Douglas firs named? W. O. H.

A. The Pseudotsuga douglasii, closely related to the firs, and often regarded as a fir, is named after the Scotch botanist, David Douglas. He visited the Pacific coast in the first half of the nineteenth century.

Q. Are any water snakes piosonous? B. R.

A. The biological survey says that the cotton mouth moccasin, a reptile found in the south, while not purely an aquatic snake, lives in the water a great part of the time. This is a piosonous snake.

Q. When was the Chateu de Ramezay built? H. O. W.

A. It was erected in Montreal about 1705.

Q. How long is the standard working day in Germany? M. R. F.

A. The eight-hour working day was provided for in Germany by regulations of 1918 and 1919. Under the emergency powers act of 1923, a federal order was issued January 1, 1924, making a number of exceptions to the eight-hour regulations. This caused considerable disturbance and much protest on the part of the unions.

Q. What state got the most congressional medals for the World war? C. W. R.

A. New York men received the greatest number. The following is a list of several of the states which stood at the top: New York, 14; Illinois, 10; California, 7; New Jersey, 7; South Carolina, 6; Tennessee, 6.

Q. How old are military societies in Europe? F. S. L.

A. Military societies as organized today are of comparatively recent introduction in Europe. During the Middle Ages plain soldiers were not organized. Persons of noble birth in the military service of their country, however, frequently joined the military and religious orders, such as the Knights Templars and the Knights of St. John of Jerusalem, which are among the earliest orders of history. The French Legion of Honor, a general military and civil order of merit, open to all citizens of France after 25 years of service, was established by Napoleon May 19, 1802.

Sixteen Members of Soviet Militia Face Sentence of Death

MOSCOW, July — Sixteen members of the Soviet militia of Kherson, including six section chiefs, have been arrested and indicted on charges of discrediting the Soviet state, accepting bribes, forgery and immorality. They are accused, among other things, of accepting wine from keepers of illegal resorts. Soviet measures provide maximum sentences of death for corruption in official circles.

QUAKER COUPLE MARRIED HERE

Double Ceremony Takes Place in County Court House.

A Quaker wedding declared to be the first ever performed in the court house was that of Levi Carter, aged 73, a farmer of Barnesville and Mrs. Maria Sterling Sweeney, aged 65, formerly of Watkins, N. Y., and now operating a store at Middleton this county.

The couple informed Judge Lodge Riddle that inasmuch as there was no Quaker meeting or church service, they first desired to marry according to their custom and then to follow with a civil ceremony.

The license was granted, and the couple then went into the rear office of the court where both marriage services took place while the crowd stood in silence. With the Quaker service ended, Justice of the Peace M. K. Zimmerman then pronounced the civil marriage ceremony, using the text from Swan's Treatise.

The old form of a Quaker marriage was carried out with this exception, that when there is a marriage at a Meeting, those who are to be married stand before the congregation and make known their intent to take each other as man and wife. Then follows the signing of a record by all those who witnessed the wedding.

Automobile Owners Urged to Cooperate In Testing Program

Sheriff George Wright officially announced today that the headlight and brake testing program as sponsored by the Columbiana County Motor club will begin next Monday and continue throughout the month of July.

This is a program of vital importance and with the co-operation of the car owners of this county should serve to greatly reduce the appalling number of accidents and the numerous "close shaves" that occur daily, the sheriff declared.

The automobile laws of Ohio call for two lighted lamps between a half hour after sunset and a half hour before sunrise, on the forward part of a car. Each headlight should be approximately of equal candle power (not to exceed 32 candle power) which shall be visible at least 200 feet in front of the car. Each headlight must be equipped with approved non-glare lens and must be so arranged that no dazzling rays or beams of reflectors shall at any time be more than 3½ feet above the ground on a level road a distance of 75 feet ahead.

Headlights on all motor vehicles on approaching another vehicle must be dimmed or deflected that at a distance of 200 feet no part of the intensified rays shall be visible more than 3½ feet from the ground while the other vehicle is approaching or passing.

Automobiles must be equipped with a red tail light, and a white light which illuminates each and every part of the license number plate.

The use of a spotlight is forbidden unless it projects its rays directly on the ground at a distance not exceeding 50 feet in front of the vehicle and to the right of the center of the road.

A motor vehicle must be provided with sufficient brakes to control it at all times. Braking capacity as approved by the United States Bureau of Standards is usually accepted as sufficient.

In addition to the laws governing headlights and brakes, an adequte horn or signalling device must be maintained on all motor vehicles.

The view to the front and both sides of a car must be unobstructed and a mirror must be used if a direct view to the rear is to be obtained.

The official testing stations will be announced by the Columbiana County Motor club.

RAILROAD SEEKS RIGHT OF WAY

The Pittsburgh, Ft. Wayne & Chicago Railroad company, through its counsel, McCarty, Armstrong, Burt & Kinnisa of Canton, have filed a petition in common pleas court with the county commissioners named as defendants. The company seeks a right of way to lay two tracks across Watt street and Maple street, in the village of Bayard, but the streets are outside the municipal limits, according to Section 8898 of the General Code.

Because of this fact, the company is compelled to go into court to obtain a right to cross these streets, as they are within the county, and under the charge of the county commissioners.

The new tracks are a part of the new 15-mile cut-off the company is building between Canton and Bayard.

NEW HIGH RECORD FOR SALE BILLS

A new high record in the filing of automobile bills of sale was reached in this county in June, according to the monthly report of Clerk of Courts John T. Burns. The receipts of the office from this source for June totaled $293.75, with 1,175 sales being recorded.

The best previous month since the sale bill became a law was that for April last when the receipts for recording these sale bills amounted to $265 for recording 1,060 documents, or 115 less than the June record.

Busy Month for Marriages.

There were 91 marriage licenses in this county during June, which is a gain of three over the record of 1924 when 89 licenses were granted. The June record, however, is double that for the Month of May.

East Palestine

Sixteen local boys left Wednesday morning for Camp Knox, Ky., where they will take a month's military training at the expense of the government. The following lads compose the local group: Paul Mayhew, Burns Shearer, Angelo Skalkos, William Patton, Elden Hall, Blair Curry, Frank Reed, Clarence Noel, Martin Reed, Oliver Powell, Edward Selby, Regis Quilter, Clarence Funk, Albert Gorgews and Merle Barnhouse. They will return home July 30.

Members of the Young Women's Missionary society of the Presbyterian church were entertained in the James street home of Miss Minnie and Armanda Mohr Monday evening. The devotional exercises were led by Miss Mary Labor, following which Miss Sara Williams gave an address on the Mary Holmes school for Negro girls at West Point, Miss. At the conclusion of a pleasant social hour, the hostesses served a dainty lunch.

Mrs. H. G. Schodde entertained the members of the Women's Christian Temperance union in her South Market street home on Monday evening. Flower mission day was observed throughout the program. Mrs. S. A. McCune was devottional leader, taking as her subject, "Whatsoever things are lovely, think upon these things." Mrs. Patridge read a short story, following which Mrs. McCune read several letters from the state superintendents. Mrs. H. G. Schodde, flower superintendent for the local organization, will have charge of distributing five bushels of donated flowers among the sick and shut-ins of the city. The next meeting of the group will be held in the West Grant street home of Mrs. Samuel Faller, in which several reports on the federal government will be given.

Westminster Guild circle of the Presbyterian church met in the West Martin street home of Miss Mildred Reggle Monday evening. Miss Brewster gave an address on her work among the mountaineers in the Berry school of Georgia, as a special feature of the meeting. Lunch was served by the hostess.

Mrs. Elizabeth Verner and son, James, spent the weekend in Youngstown as guests in the home of William Nagle.

Mrs. Mary Unger has gone to New Middletown, where she will be the guest of Mrs. Orvie Sipe over the Fourth.

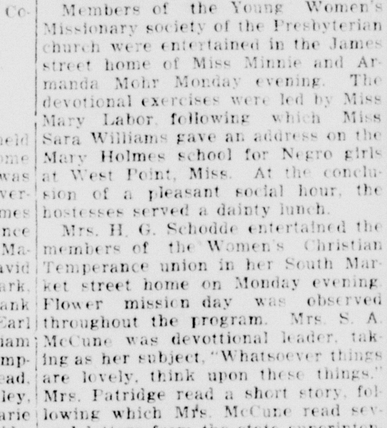

Mrs. J. W. Peterson and son, David, are the guests of relatives in East Liverpool.

Mr. and Mrs. Henry Orr left Tuesday for Denver, Col., where they will make their home.

Mr. and Mrs. Earl B. Watt and son, Richard, of Barnesville, O., have been guests in the South Market street home of Rev. and Mrs. W. H. Mitchell for the past few days.

When Better Automobiles Are Built, Buick Will Buil Them

Question: *Why is it that there are more than a milion Buicks in use today?*

Answer: Because Buicks are always popular with new car buyers and also because Buick's dependable construction results in a much longer life for Buicks than is ordinarily the span of service of a motor car.

FIFTH AND MARKET STREETS

Savings for the "4th" —and Enjoyment, Too!

This Store Will Be Closed July 4th.

As we approach the great National holiday, July 4th, we can experience a keen appreciation of all that has made the day worthy of celebration.

It is still the land of the free and the home of the brave—the most wonderful country on the face of the globe.

For its achievements we can all join in a lusty "hurrah"; for its opportunities there can be mutual elation.

Let us *all be proud of the* day and what it stands for. We will put aside business that day. This Store will be closed.

When Better Automobiles Are Built, Buick Will Buil Them

No. 23

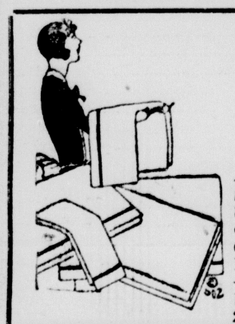

Question: *Why is it that there are more than a milion Buicks in use today?*

Answer: Because Buicks are always popular with new car buyers and also because Buick's dependable construction results in a much longer life for Buicks than is ordinarily the span of service of a motor car.

Free fireworks will be presented in the evening, and the midway attractions featured at all times are not excelled by any other amusement park in the state.

Says: Grandest Stomach Medicine In the World

Relief Comes At Once But Better Still Chronic Indigestion Goes For Good.

Get a bottle of Dare's Mentha-Pepsin from Jesse D. Holloway today with the distinct understanding that your money will be promptly returned if it does not stop the most acute stomach distress quicker than any remedy you ever used.

Your stomach may be so distended with gas that you think every minute your heart is going to stop beating yet with one dessert spoonful of Dare's Mentha-Pepsin that dreadful feeling of suffocation will vanish in a few minutes.

It's a wonderful formula—this combination of Pepsin with other good stomach invigorators — so wonderful that in one small town in New Jersey, in 1921, over 6,000 bottles were sold.

Never mind what causes your indigestion or gastritis, or how long you have had it, or how many other remedies you have tried, this is the one medicine that will make your old disabled stomach so strong and healthy that you can digest anything you eat without the slighest distress.

Even catarrh of the stomach can be banished in a reasonable length of time.

And you know that when your stomach is in fine shape, nervousness, headaches and dizziness won't bother you. Every regular druggist guarantees one bottle of Dare's Mentha-Pepsin. Jesse D. Holloway sells lots of it. —adv

Your stomach may be so distended with gas that you think every minute your heart is going to stop beating yet with one dessert spoonful of Dare's Mentha-Pepsin that dreadful feeling of suffocation will vanish in a few minutes.

It's a wonderful formula—this combination of Pepsin with other good stomach invigorators — so wonderful that in one small town in New Jersey, in 1921, over 6,000 bottles were sold.

Never mind what causes your indigestion or gastritis, or how long you have had it, or how many other remedies you have tried, this is the one medicine that will make your old disabled stomach so strong and healthy that you can digest anything you eat without the slighest distress.

Even catarrh of the stomach can be banished in a reasonable length of time.

And you know that when your stomach is in fine shape, nervousness, headaches and dizziness won't bother you. Every regular druggist guarantees one bottle of Dare's Mentha-Pepsin. Jesse D. Holloway sells lots of it. —adv

U. S. ACTS IN CHINESE CRISIS

TODAY

Diminishing Earthquake.
The Sheik Is Hanged.
The Hen, Pig, Cow.
Some Baby Fall.

By ARTHUR BRISBANE.

(The opinions expressed in this column are strictly those of Mr. Brisbane and not necessarily in consonance with the policies of The Review-Tribune).

Earthquake reports dwindle down. Five times as many deaths in a small section of a big eastern city, due to some disease outbreak, would attract no attention. The Gibraltar dam, supplying Santa Barbara with water reported to have burst and flooded the city has NOT burst or done any harm.

Earthquakes have occurred in 40 places on the earth's surface recently. But especial attention seems to concentrate on every disaster that happens in California. In Santa Barbara 12 at most are dead.

The Italian earthquake in 1915 killed 29,973, and in 1908 earthquakes in Italy killed 76,482. Italy has volcanoes in addition to earthquakes, yet nobody says, "I shall not go to Italy."

Some Wall street gentlemen organized a little panic based on Santa Barbara's earthquake and now wish they hadn't. They sold short California stocks, oils, rails, etc. But real finance knows that, compared to the total wealth of California, the property destruction in Santa Barbara is like losing one nail in a nail factory. The stocks "snapped" back again, as Wall Street reporters put it, and the panic promoters had their financial fingers pinched. Don't sell any part of this country short.

Sheik Said, leader of the Kurds, rebelled against the Turks and Kemal Pasha. He wanted to restore the Holy Mohammedan Caliphate that Kemal Pasha tore down.

Now, Sheik Said is hanged in the public square at Diarbekir, the crowd cheering and eager volunteers pulling on the gallows ropes.

Had Sheik Said been victorious, Kemal Pasha might have been hanged, the same crowd cheering and pulling on the ropes.

Moral: Don't allow yourself to be beaten and never pin your faith to the mob's applause.

Missionaries in Africa take a tame menagerie, including chickens, pigs, cattle and goats. As they travel, the missionaries will observe how these interesting animals all represent EVOLUTION.

The White Leghorns and Rhode Island Reds came from jungle fowl. Cows are improved sisters of the auroch, the buffalo, or the zebu. The pigs have their relatives scattered from the tapirs in South America to the feirce big-toothed wart hog of the jungle, or the hippopotamus.

Everything proves that constant change, or evolution, exists in the animal kingdom. Only the blind don't see it.

Naval oil reserves having been neatly taken from the people's ownership, as a skillful surgeon removes a vermiform appendix, the navy will now conserve large tracts of oil shale.

When oil wells no longer gush, the navy will extract oil from the rocky shale, as is now done in Scotland, where 3,000,000 tons of shale yield 1,200,000 barrels of oil a year.

Insurance authorities, that ought to know, deny flatly that cancer is hereditary. Nature protects the unborn child. Study of thousands of cases proves that the disease is not inheri-

WASHINGTON AWAITING ANSWER TO SUGGESTION FOR WORLD CONFERENCE

Immediate Future of Peking Government Hangs in Balance as Great Powers Debate Plan to Solve Involved Extra-Territorial Rights Problem—Seek Approval of Four Nations.

PRESENT AUTHORITY OF OFFICIALS ENDS WITH ARREST OF FOREIGNERS

Great Britain Throws Cold Water on Secretary Kellogg's Proposal Declaring China Must Put Her House in Order Before There Can be Any Discussion.

By FRED J. WALKER.

WASHINGTON, July 2.—China's immediate future hung in the balance today as the great powers of the world debated the Washington suggestion that a conference be held at once to solve the involved extra territorial rights problem.

Informal advices, either accepting or rejecting the American proposal, were expected to arrive at the state department within the next few days. The tenor of the communications will decide the next step in the negotiations.

The arrival in Peking of American Minister John Van A. MacMurray was expected here today to be the signal for the formal launching of the conference, which was provided for in resolutions adopted by the powers here in 1921.

Approval by Great Britain, France, Italy and Japan of the proposal, would be sufficient invitation, it was felt in official circles here, for the Peking government to again formally ask the powers to accept her previously tendered invitation.

Cause of Anti-Foreign Riots

Administration officials here regard extra territoriality as one of the great drawbacks to permanent Chinese stability.

During past decades, foregin powers obtaining concessions in China have been permitted to administer and enforce their own laws.

Chinese officials and police have had power to arrest foreigners, but at that point their authority ended, individuals appearing before magistrates of their own nationality.

It was this condition which inspired the anti-foreign riots and American officials are inclined to regard the present time as particularly for a general withdrawal by all the world powers from their extra-territorial rights positions.

The great hinderance to a general agreement by world powers to abou-

Asl. Police Aid As Vandals Rob Cemetery Vases

Police today were asked to look for vandals, who have been robbing the vases at Riverview cemetery.

The choice plants in 15 vases were carried away sometime Tuesday night, cemetery caretakers discovered Wednesday. The robbery occurred sometime after dark.

Driveways to the cemetery are locked at 8 p. m. The plant thieves entered the burial grounds through the smaller gates or through the fences.

Cemetery officials will prosecute any one detected, police were informed.

Anthracite Miners' Delegates Ready to Act Upon Scale

SCRANTON, Pa., July 2.—Convening at town hall for the fourth day's sessions of the tri-district convention of the United Mine Workers of America, the 700 anthracite delegates had before them today for approval or rejection, the final draft of the recommendations of the wage scale committee.

The recommendations of the committee, which, if approved by the delegates, will stand as the demands of the 155,000 miners in the anthracite field when the present wage scale agreement expires on August 31, include as their major items a flat 10 per cent increase for all mine employes, the institution of the "check off" system for union dues collection, and an increase of $1 a day for day shift miners.

CINCINNATI, July 2.—H. E. Baer, 43, who committed suicide by shooting himself in a downtown hotel Thursday, wrote a letter to the hotel manager apologizing profoundly for what he was about to do.

MINERS' STRIKE HINT AND KLAN TWO PROBLEMS FOR COOLIDGE

Coal Field Situation and Religious Liberty Question Studied.

UPSET VACATION

Of Greater Concern to President is Mine Fight.

BY GEORGE E. DURNO.

SWAMPSCOTT, Mass., July 2—Two problems hover over the hitherto serene horizon of President Coolidge's vacation today with a distinct threat that the next 30 days may bring developments of a more or less embarrassing nature to the administration.

The first has to do with possibility of a general strike in the coal fields. The second bears upon the old question of religious liberty, aggravated of late by the revival and growth of the Ku Klux Klan.

Of greater concern to the president, although not so imminent as the other, is the attending renewal of the biennial fight between coal operators and miners.

John L. Lewis' Charge.

The charge of John L. Lewis, president of the United Mine Workers of America, that industrial leaders, including John D. Rockefeller, Jr., and secretary of the treasury Mellon, are conspiring to violate the Jacksonville wage agreement, and his observance, is causing Mr. Coolidge some concern.

A tie-up in the coal mines would confront the president with the first real industrial crisis of his administration.

The klan problem is more imminent. Although no invitation actually has reached the summer White House here it has been announced that Mr. Coolidge would be asked to address the Klan convention in Washington early in August and also review their parade.

It has been stated through the press, by officials of that organization that the executive could not well refuse them because he spoke before the Holy Name society last year.

Expected To Decline Invitation.

While it already has been indicated here that should the invitation be received it would be decined on the ground that Mr. Coolidge would not be in Washington at that time. Opponents of the klan — Catholic, Jew and Negro — are literaly flooding White Court with demands that the president not only publicy refuse to accept, but that he take steps to prevent the Klan from assembling and parading in the national capital.

Scores of letters and petitions have been received on this subject.

Thus far, however, President Coolidge has taken no direct action which would indicate he was unduly concerned with either problem. But he is studying the situation closely.

PARTY TICKET ON COURT VOTE

Assistant Secretary of State Interprets Crabbe Ruling.

Confirming by letter his interpretation of Attorney General C. C. Crabbe's ruling for the nomination of candidates for judge and clerk of East Liverpool's municipal court, J. E. Baird, of Columbus, assistant secretary of state, today instructed J. W. Moore, clerk of the Columbiana county board of deputy state supervisors of elections, to prepare party ballots for electors in Liverpool township as well as the city proper for the primaries on Tuesday, August 11.

Baird's letter follows:

"Primaries are to be held in accordance with the primary laws both in the city of East Liverpool and the township of Liverpool. If declarations have been filed for nomination by the political parties entitled to nominate at the primaries those names should be printed upon the ballot with their proper designation—judge and clerk,

PANAMA CANAL TRAFFIC DROPS

BALBOA, Canal Zone, July 2.—Panama canal traffic showed a drop of 10 percent in the fiscal year just closed, compared with the preceding 12 months, according to figures available today.

The year 1925 still was 20 per cent above 1923. The decrease was attributed mainly to a smaller California oil trade.

The figures for the year showed that 4,673 commercial vessels paid $21,400,000 in tolls. They carried 24,000,000 tons of cargo.

Polite Conductor Dies.

ELYRIA, July 2.—Benjamin Barnes, 70, who was made a thirty-third degree Mason because of his uniform politeness to passengers as a New York Central conductor died at his home here today.

Pinkerton Detective Kills Man In Sister's Bedroom

Charge of Homicide is Placed Against New Yorker Who Says Intruder Tried to Choke Woman.

NEW YORK, July 2.—William Fitzmaurice, a Pinkerton detective, shot and killed Lewis Wood, 37, in the bedroom of his sister, Miss Clara Fitzmaurice, 35, at 664 Forty-ninth street, Brooklyn, early today.

The detective and his sister were taken to police headquarters and questioned. Later a charge of homicide was placed against Fitzmaurice.

Miss Fitzmaurice was also charged with homicide.

Miss Fitzmaurice was awakened by the breaking of glass in her bedroom window, according to the story told the authorities. She saw Wood coming through the window. Then, it is alleged, Wood rushed over and tried to choke her. She screamed.

Her brother, William, in a nearby room, rushed in with drawn revolver and fired twice.

Both shots struck Wood in the chest and he died almost immediately.

VANGUARD OF DELEGATES LEAVE FOR N. B. O. P. CONCLAVE AT SEASHORE

Annual Convention Will Open in Odd Fellows' Hall, Atlantic City, N. J., Friday Morning.

Delegates to the annual convention of the National Brotherhood of Operative Potters, which opens in Atlantic City, N. J., tomorrow morning, left East Liverpool today.

A party of about 50, including delegates, their wives and members of their families, boarded the 5 o'clock morning train for Pittsburgh. They left Pittsburgh about 8 o'clock over the B. & O. lines.

Others left here on the 8 a. m. "flyer," while a few boarded the 11:43 train to Pittsburgh. The B. & O. has arranged for a number of excursion specials, leaving Pittsburgh during the day.

The convention is scheduled to open at 9 o'clock Friday morning, in the Odd Fellows' hall, New York avenue, where all sessions will be conducted. Friday's session will be for organization work only. The convention will not be in session Saturday, Independence day, nor Sunday, but will get down to business in earnest on Monday.

Wage questions will not be considered at this year's convention inasmuch as the scale, adopted last fall, does not expire until October 1, 1927. Officers elected in May for one-year terms will be installed.

No date has been set for the closing of the annual meeting. It will probably remain in session for at least a week, it was announced today.

OVERNIGHT NEW YORK-CHICAGO AIR MAIL SERVICE IS DECIDED SUCCESS

First Plane From Illinois Metropolis Carries Flowers From Vice-President Dawes to Col. John Coolidge.

NEW YORK, July 2. — Overnight New York-Chicago air mail service is a success.

The first plane in the new night mail service from Chicago arrived at Hadley field, N. J., at 2 o'clock this morning, well ahead of schedule.

It carried flowers for Colonel John Coolidge from Vice President Charles G. Dawes and 130 pounds of mail in 13 pouches.

The second plane landed at Hadley Field at 4:35, Eastern Standard time.

The westbound planes took off from Hadley Field last night with heavy loads of mail for Chicago.

The first plane to arrive this morning at Hadley Field from Chicago arrived one hour and fifteen minutes ahead of schedule. It was piloted by Paul Collins. The second plane, piloted by James Ames, was 24 minutes ahead of time.

Postmaster General Enthusiastic.

Postmaster General Harry S. New and other postal and government officials and a crowd of 15,000 persons witnessed the arrival of the planes which marked the inauguration of night air mail service between America's two largest cities—making it possible for letters posted in New York in the evening to be delivered in Chicago the next morning.

The arrival of the planes from the west was greeted with the honking of

Santa Barbara Quiet With Marines Busy; Feels New Tremor

SANTA BARBARA, Cal., July 2.—With more than 300 United States marines on guard, a quiet prevailed in Santa Barbara today.

A tremblor, the first in the past 24 hours, was felt shortly before 10 o'clock last night. No damage was done.

An extremely light and separate shock followed the earlier one.

No Mail Delivery On July Fourth, Says Postmaster

The holiday schedule will be observed at both the downtown and the Station A postoffices, Saturday, Independence day, Postmaster J. Edwin McClure announced today.

The stamp and general delivery window will be open from 9 to 10 a. m., while the money order, registry and postal savings departments will be closed throughout the day. There will be no mail delivery by city or rural carriers.

Special delivery mail will be given prompt attention. All mails will be received and dispatched as usual.

THIEVES LOOT CHURCH; GET $15

Thieves entered the First Methodist Episcopal church, corner Fifth and Jackson streets, Tuesday evening, and escaped with $15 in cash, according to a report made to the police today.

Entrance was made with a skeleton key. The thieves pried open the lid of a roll top desk where they obtained the money. Keys kept in the desk were also taken.

REICH RETURNS FROM CAPITAL

Maurice H. Reich, of this city has returned from Washington, D. C., where he attended the 28th annual convention of the American Zionists association, held this week in the Mayflower hotel. More than 800 delegates from practically every state in the union attended the convention. Reich, who is secretary of the Zionists' organization in the East Liverpool district, was the delegate from the local organization.

Recovering From Stroke.

George B. M. Killmer, former member of the police force, who suffered a stroke of paralysis about two weeks ago, is recovering at his home, 668 St. Clair avenue. Killmer has been working as a cooper for the Smith-Phillips China company.

MAN CRUSHED AS AUTOMOBILE PLUNGES OVER EMBANKMENT

Arthur Dechman, 38, Tire Sales Manager, Seriously Injured.

ANOTHER IS CUT

Loses Control of Car Near West Point Curve.

Arthur Dechman, 38, Fairmont, W. Va., district manager for the Cord Tire Corporation, Chester, is in a serious condition in the City hospital, suffering from injuries, sustained at 6 o'clock this morning when his automobile crashed through a fence and plunged over a 20-foot embankment on the Lincoln highway north of the West Point filling station.

Fell Asleep at Wheel.

Dechman's left shoulder and chest were crushed when he was pinned behind the broken steering wheel.

A companion, Frank Johnson, 28, Youngstown distributor for the Cord Tire Corporation, who was traveling with him, sustained a slight laceration on the nose when struck by flying glass from the windshield.

The two men had been business visitors at the Chester tire factory yesterday and were enroute to Youngstown. Dechman, at the wheel of a Buick roadster, with Johnson, left here at 5:30 a. m. They had just rounded the curve at the gasoline filling station in West Point and reached a point about 200 yards beyond when the accident occurred.

Dechman is said to have fallen asleep, when the car swerved to the left of the road, crashed through the guard railing, cutting down four or five posts and two small trees and then went over the declivity. The car, however, remained in an upright position.

Deckman in Hospital.

A call was sent to Lisbon and Dr. Seward Harris, responded. The Eells ambulance from Lisbon also started for the scene of the smash-up, but out side of Lisbon it broke a rear axle. The driver returned to Lisbon and securing a touring car hurried to West Point.

The injured man and Johnson were placed in the touring car and started for the City hospital here. At the top of "Hall Deadening" hill, six miles north of here, the machine met the Sturgis ambulance which had been summoned in the meantime. The men made the remainder of the trip in the ambulance.

At the hospital, Deckman was attended by Dr. W. A. Hobbs and C. H. Bailey.

UNION WORKERS AID STRIKERS

Agree to Refuse to Work With Imported Carpenters.

Representatives of other branches of the building trades announced today, following a joint meeting last night, that they would refuse to work on jobs on which carpenters, imported to fill the places of 125 strikers, are engaged.

With the exception of plasters and stonemasons, who, it was declared, will stand with other unions workers, all branches of the building trade industry were represented at a conference with union carpenters. The meeting was held in the Fowler building.

As a result of the parley, steps looking toward the formation of a building trades council were taken.

Some out-of-town carpenters came here this week to fill the places of strikers, but most of them have left the city, union workers said.

The carpenters, who are demanding a wage increase from $10 to $11 a day, as well as the contractors, who rejected their proposal and offered a compromise of $10.25, are standing pat.

POTTERY PLANTS SUSPEND OPERATIONS FOR JULY HOLIDAYS WITH OUTLOOK FOR BUSINESS HOPEFUL

Suspension of operations ranging from one to two weeks in duration, will be the rule in the pottery industry in the East Liverpool district during the arly part of July, a survey today showed.

Most of the plants are idle today. In some cases work will be resumed next Monday, although in a majority of the shops operations will not be started until July 13. In one or two instances, plants will not resume production until July 20.

The suspension is customary during the early part of July because of the absence of many workers who are delegates to the annual convention of the National Brotherhood of Operative Potters which opens in Atlantic City, N. J., tomorrow. It is also inventory time.

Many manufacturers will make needed repairs to machinery and buildings during the shutdown.

Outlook for new business during the latter part of the year is hopeful, according to the plant owners.

"We are hopeful for a brighter turn of affairs a little later on," was the statement of one manufacturer.

Here are the results of the survey on the Fourth of July shutdown:

Homer Laughlin China company—(East End and Newell plants)—Decorating shops start July 6; clay shops and other departments, July 13.

Harker Pottery company—About 10 days; will resume July 13.

Vodrey Pottery company—Two or possibly three weeks; will start about July 20.

Knowles, Taylor & Knowles company—Short loaf only; date for resumption not known, probably early next week.

Edwin M. Knowles China company — (Newell and Chester plants) — About 15 days; start about July 1[illegible].

Davidson Porcelain company—Ten days; start July 13.

Potters Co-Operative company—Making extensive repairs; date of resumption of operations not determined.

Smith-Phillips China company—About two weeks; start about July 15.

C. C. Thompson Pottery company—Ten days; start Monday, July 13.

Standard Pottery company—Ten days; will resume about July 13.

T. A. McNicol Pottery company—Down until after the Fourth. Date for resumption indefinite.

Colonial Pottery company—Time of suspension undetermined.

Trenle China company—About five days only; will resume next Monday.

Hall China company — Two weeks; will start about July 15.

D. E. McNicol Pottery company—About two weeks.

West End Pottery company—About ten days; will resume probably Monday, July 13.

No Sunday Evening Services at St. John's Lutheran Church

Sunday evening services will be dispensed with at St. John's Lutheran church during July and August.

The Sunday school hour has been changed from 9:30 to 9 a. m. English services will begin at 10 a. m.

New York Fight Promoters Face Loss As Rain Pours Down

Postponement Would Make Total Expense Nearly Half-Million

Demands of Such Stars as Wills, Greb, Walker, and Slattery, as Well as Others on Card, Make Italian Hospital Benefit Card Most Expensive in Years; Tomorrow Night Only Available Date to Carry Over if Pluvius Doesn't Let up.

By Davis J. Walsh.

NEW YORK, July 2.—Rain may be God-given to the man wandering in the trackless wastes of the Sahara with a long time between drinks, as the governor of North Carolina said to the governor of South Carolina apropos of nothing in particular. Rain was as welcome as sand in the salad to Humbert J. Fugazy, promoter of the Italian hospital fund boxing show.

It was raining this morning twelve hours before the scheduled start of the Polo grounds extravaganza, featuring Harry Wills and Charley Weinert and Harry Greb and Mickey Walker, among others. Rain, in this case, meant near-ruin.

In the parlance of Broadway, the "nut," meaning the total expenses of the occasion, was nothing short of scandalous. Wills and Weinert, among the leading contenders for the heavyweight title, were due to be paid important money. So were Walker and Greb, respective holders of the welterweight and middleweight championships, with honors in the latter division at stake.

Tomorrow Night Open.

Jimmy Slattery and Dave Shade and Joe Lynch and Jack Sharkey, rounding out one of the finest attractions ever offered the great American public, also were lined up to throw Fugazy behind his own goal line.

But rain was his greatest menace. It meant that a postponement would leave only tomorrow night open for the show, with thousands of dollars in added expenses necessary in order to clear the field of seats before the New York Giants returned to the Stadium for a ball game on Sunday. It meant day and night shifts of workmen, paid at fabulous rates for night and holiday labor.

It meant that the gate would have to run over a half million for Fugazy to get in the clear, provided Charley Stoneham agreed to the postponement in the first place. Stoneham was dead against the original shift from June 19 when Walker sustained a flat tire or something.

Given any reasonable kind of weather however, it was certain that New York planned to respond to the demands of the occasion, at from two to twenty dollars to the individual response. The advance sale today was well over $200,000 and indications pointed to a crowd in excess of 60,000.

Card Carries Promise.

The boys knew "pay dirt" when they saw it.

They knew that Wills, chronic heavyweight challenger, would be in there faced with the necessity of knocking Weinert bowlegged or forever holding his peace. They knew that Walker, shooting at double championship, would carry Greb along at a pace that even this human catamount has seldom known. They knew that Slattery and Shade would uncover a dazzling exhibition for their scheduled six rounds or less.

Wills, Greb and Slattery were the favored entries, the brunette specimen being a unanimous choice over Weinert. The latter may have come back to the professional satisfaction of the megaphone men but he was passe two years ago and cannot be figured to improve with age. He is clever but quite punchless and if he remains, as is, at the end of fifteen rounds with the stronger and heavier Wills, it can mean only one of two things, either Wills is a bust or his fragile hands have played him false.

There was more of a divergence of opinion on Walker and Greb, but the latter got the bigger play, although even money prevailed. Those who liked Greb were influenced by his superior weight and speed; the Walker element based their claims on the belief that 160 pounds ten hours before the fight would weaken Greb, who is alleged to have done some of his road work in front of pursuing gendarmes.

Weigh in at 2 O'clock.

Whatever happens, they formed a more attractive duet than the heavyweights and there was a movement on foot to have this bout go on as the finale, in order that Wills and Weinert might not look, by comparison, worse than they really are.

The chances against a knockout in either fight were so heavy as to be almost ponderous.

Some, however, looked for the sensational Slattery to stop Shade inside of six rounds. In my opinion, he will do very well to win on points.

All of the principals indulged in light exercise this morning, preparatory to the weighing in ceremonies at the commission offices at 2 o'clock this afternoon. Except in the case of Greb, this is a mere formality, the others coming in at catchweights.

The stadium gates will be opened to the cut-rate customers at 6 o'clock and the "welcome" on the doormat was a most sincere invitation to every one with more than $1.99 in the wallet and the inclination to part company with it.

Laughlin Outslugs K. T. K. to Win, 10-9

Collect 14 Bingles Off Sainor; Have Three Big Innings.

Laughlin defeated K. T. K. at Columbian park last evening in a City Industrial league battle marked by activity of the heavy artillery on both sides. The final count was 10 to 9.

Both clubs made three runs in the second inning. The Katies forged to the front with another in the third. Laughlin made four in the fifth and three in the sixth and took the front, and K. T. K., though shoving five over in the seventh, failed to again knot the tally.

Finley tripled in the fifth to the street and a car held up his drive. Quick fielding by Werkheiser caught the runner at the plate. Had the player not been compelled to make all he got this blow, because of its being momentarily out of sight, might have equalized the standing of the teams.

Werkheiser singled in the second and stole second. Reese walked. V. Bailey doubled to left, scoring both runners. Riser singled over second, sending V. Bailey in.

Rariden and C. Coleman were hit by Riser in the second. Shaw ran for Rariden. C. Strobel singled between first and second. N. Canavan lined to Watson who threw low to the plate and Shaw and C. Strobel counted. McShane struck at a wild pitch, his third one, and landed at second as C. Coleman registered, tying the count.

Finley walked in the third. Rariden sacrificed Riser to Reese. C. Strobel singled to middle and Finley counted.

Watson and Tisher opened the fifth with singles. McConnell was safe as Shaw, handling his drive, threw wildly to first. Babb singled, scoring Watson and Tisher. Werkheiser singled, sending in McConnell. Babb came in on Reese's single.

Watson singled in the sixth, Sainor forced Tisher's fly. McConnell scored with a triple to left. DeLong scoring McConnell.

Sainor, singling in the seventh, was forced at second by McShane. Shaw doubled. Both scored on Finley's single. Rariden singled. C. Stroble drove to Watson, who threw Finley out at the plate. C. Coleman doubled, scoring Rariden and C. Strobel. N. Canavan lined to Watson, who threw wildly to first and C. Coleman counted.

CHURCH TEAMS CONCLUDE HALF

Business Meet Friday in Lutheran Church.

OFFICERS of the Sunday School baseball circuit today announced the completion of the first half schedule.

All clubs will be idle until the middle of the month, when the second half of the schedule will get under way. The second half opening date has been tentatively decided as July 13.

A business meeting of the league will be held on Friday evening in the Lutheran church. Team managers and various other league representatives will attend.

There will be no contests this week.

C. & P. Tossers Take Forfeit

The Wellsville-Trotter City Industrial league clash billed last evening at Central park, Wellsville, was forfeited to the Wellsville nine.

The Trotters failed to put in an appearance for the contest, and the C. & P. tossers were awarded a forfeit victory.

John Fowler's Club Idle; Proposed Trip Is Dropped

BILL BENEFIT CLASH TODAY

Chester and Wellsville Teams Play at Smith Field.

Frank Riley's Chester Industrial league leaders will clash with the Wellsville C. & P. club this evening at Smith Field, Chester, in the first benefit engagement of the year.

The contest will be played for Infielders Moore and Manning, the former a member of the Chester nine and the latter a C. & P. player. Both were injured in the early part of the season and neither has been able to play since.

All the proceeds of the game will go to the two players.

June Wood In Lisbon Meet

One of the horses that will be featured in the matinee races at the county fair grounds next Saturday afternoon will be June Wood, seven years old, owned and driven by E. O. Cramer, of Canton. June Wood is declared by horsemen to have been one of the best horses entered in the 2:24 pace at the recent meeting at Canton, and it took a share of the money in all the races in which it was entered.

Entries for this meet continue to be received, and it is very likely that about 60 entries will be received before Friday night.

June Wood was entered in the Lisbon races last year, and its owner and driver is well konwn to all county horsemen.

Barnstorming Tour of West Virginia Towns Is Called Off at Last Moment.

Difficulties in arranging paying guarantees getting suitable dates, and other troubles have put the skids under a week's baseball tour by John Fowler's East Liverpool club that several weeks ago gave every promise of being one of the best barnstorming trips scheduled this season by the local road team.

As a result, two games scheduled with Parkersburg, one on Saturday, July 4, and the other on July 5, have been called off, contests with Moundsville and Gallipolis have been stricken from the bill, and engagements at St. Mary's on July 11 and 12 have gone by the boards.

Parkersburg first punctured the prospective baseball tourists' tires by cancelling the July 4 and 5 games, asserting that the team has been disorganized and that it had become necessary to rebuild. As a result, the West Virginians stated, not only the games with the locals, but all games up until the middle of July and been cancelled.

And then the St. Mary's club tried to shrink the guarantee originally promised Manager Fowler. These contests were given the go-by with due alacrity. With the Parkersburg and St. Mary's games dropped, the major part of the prospective week's trip was cracked wide open and consequently Fowler called off engagements promised at Gallipolis and Moundsville.

The locals' schedule now is quite blank, the only definite clash in view being that with Charleroi on August 1. No effort had been made to schedule game prior to this week inasmuch as the team was considering the down-river tour. With this out of sight, Fowler's players will be given an enforced rest.

DAYS OF "80'S" CAN'T COMPARE

NEW YORK, July 2.—Making due allowance for the "Rabbit ball" and the fact that modern pitching is not what it might be, there nevertheless seems to be no way of going behind the fact that the Pittsburgh Pirates, taken at the face value of their record to date, are the greatest hitting outfit of several generations, if not of all time. How many points have pitching restrictions and the lively ball added to the average player's hitting? Not more than 50.

Therefore, even the die-hards who still live in "the good old eighties" must concede that a ball club hitting for a team average of .329 on June 24 must have something all others have lacked. The figures quoted just about represent a world's record for this more or less advanced period of the campaign.

Eight Above .335.

All one has to do is cut 50 points off each Pirate's average and then compare the result with those obtained by the great hitting combinations of other years—the old Giants, the old and new Tigers, the old Athletics, etc. The Pirates will continue to show a margin of profit.

A ball club with eight men hitting above .335 could hardly do otherwise. A glance down the lineup tells the story. On June 24 it showed Barnhart hitting .382; Grantham, .369; Earl Smith, .368; Carey, .366; Cuyler, .348; Wright, .348; Traynor, .345, and Moore, .340.

In brief, every regular was getting close to two hits in every five attempts.

Break All Records.

The result was inevitable. The Pirates broke all records for modern scoring during the month of June and in one wild spree of seven days scored the colossal total of 85 runs in seven games—46 of them on successive playing days.

Never Before a Value Like This

The Super-Six principle, exclusive to Hudson and Essex, is responsible for the largest selling 6-cylinder cars in the world, because it gives results in smooth, brilliant action, reliability and economy never attained by any other type.

This Essex, in all ways, is the finest ever built.

Easier riding and driving, more flexible in performance, handsomer in line and finish, it is also lower in price than ever before. Its success is simply the belief of buyers that it represents the utmost automobile value and satisfaction within hundreds of dollars of the price; and it proceeds entirely from what owners themselves say of Essex.

CAUSE OF BLAZE STILL UNKNOWN

Low Water Pressure is Blamed for Loss at Huntington.

Difference of opinion on estimates as to the amount of damage caused by a fire which yesterday destroyed three principal units of the Charles Boldt Glass commpany's plant at Huntington, and criticism by company officials of the lack of pressure in the city water system furnishing water to fight the blaze were heard yesterday. The loss is variously estimated at from over $100,000 to $500,000 by officials of the company and the city's two fire chiefs.

The cause of the fire is as yet unknown. No one was injured.

F. W. Schwenk, president of the company, placed the lowest estimate on the damage caused by the 12-hour blaze, declaring that accounts which placed the loss at $300,000 were grossly exaggerated and not more than $100,000.

Schwenk attributed the loss to his plant as being principally due to the inadequate water supply. He said that "firemen could not be expected to put out a fire, big or small, when the pressure was so low that they might drink from the feeble stream spouting from their lines."

Rush Burks, fire chief, who retired in favor of Ed Knight, said the loss would be "not one cent less than $500,000." Knight placed the loss at "anywhere between $350,00 and $450,000."

Another official of the glass company today declared that the loss was "substantially more than $300,000." He also said that insurance adjusters were scheduled to arrive here in a day or two, and the first official estimate would come from them. A $1,000,000 policy had been obtained two months ago.

The three principal structures damaged by the flames are the box plant, the power plant, of which the roof was burned, although the machinery housed there was said to be intact, and the planing mill.

In addition to these a number of warehouses storing millions of bottles were destroyed. The warehouses or sheds are in the center of the factory, and it is here that the flames were discovered.

CONDEMNED MAN IS GRANTED STAY

Martin Martino, sentenced to hang by Judge John C. Southern of the Harrison county criminal court, yesterday was granted a 30-day stay of execution of sentence by Governor Howard M. Gore. It was the second stay of execution Martino has received since he was taken to the state penitentiary at Moundsville.

Martino was sentenced after confessing to the murder of his common law wife and sent to the penitentiary in April. The first stay granted him set the date for his execution at July 3, and he was to have been hung on this date when Governor Gore gave him his second postponement.

The governor is believed to be considering the problem of communting the sentence to life imprisonment.

BENEFIT GAME HERE TONIGHT

Chester and Wellsville teams of the Industrial league will meet this evening on the Fifth street diamond. This will bring the first half of the season to a close and in addition the proceeds will be turned over to players Moore and Manning of the respective teams who were injured reecntly. Record crowd is anticipated.

BROOKE COUNTY MINE SUSPENDS

About 30 miners were thrown out of employment yesterday when the McKinleyville mine, three miles south of Wellsburg was closed. The mine was operated by the Richland Coal company, which stated that the closing order was due to decreased demand for coal. The McKinleyville mine is the last of several large mines in the Wellsburg district to suspend operations.

To Attend Convention.

Number of local residents left today for Atlantic City, where they will attend the convention of the National Brotherhood of Operative Potters, which opens tomorrow. Sessions will last for 10 days.

Game Postponed.

The scheduled game here last evening between the Chester Independents and Newell Greys was postponed owing to the non-appearance of the latter team.

TRAMP SHOOTS RIVAL IN FATAL FIGHT OVER OLD PAIR OF SHOES

LOS ANGELES, June.—The story of a fatal battle in a junk heap over a pair of old shoes salvaged from the city's refuse was contained in the murder complaint issued by Deputy District Attorney Harold L. Davis against an unknown itinerant recorded now only as "Pistol Pete."

The victim of Pistol Pete was equally unknown. He was buried in an unmarked grave, after all efforts at identification failed. In drawing the complaint against the accused slayer, the prosecutor's office chraged "Pistol Pete" with the slaying of "one Gasoline, a human being." "Gasoline' was the only name by which the dead man was known to his fellow tramps.

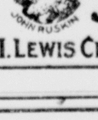

According to the meagre testimony obtained by Davis concerning the circumstances that led to the fatal shooting, both men eked out a bare existence by picking out scraps of some slight value from the city's refuse.

To these men a discarded stray hat represented a competence, an old shirt a modest inheritance. Consequently when the eyes of Pete and "Gasolene" lit on and old pair of shoes at the same time a quarrel ensued in which Pete shot and killed "Gasoline."

Kaynee Wash Suits, Shirts and Blouses for Boys'

Many a mother is spared the humiliation of seeing her son look like aramuffin after strenuous play. If her son's clothes are cut on smart, distinctive lines they look neat and trim at all times—and the boy looks like a small gentleman.

Keeping a small son neat and respectable is a problem in every mother's life. Boys will be boys and they will skin their knees and tear their clothes.

The difference in boys appearance lies in the fact that some have clothes that stand a lot of wear and some have clothes that are quick to tear. Rents, tears, smudges of dirt—that's what makes the life of a boys' suit short.

Yet it need not necessarily.

Kaynee Wash Togs stand hard wear. Why? Because they are made of the best fabrics procurable, many of which are exclusive to Kaynee.

There are middy and Oliver Twist styles in linens, Palmer linens, ginghams and other sturdy materials. Smart styles and color combinations. Priced from $1.95 to $4.50. Sizes 2 to 8.

New Spring Creepers and Rompers for tiny tots. Fashioned of dimity, poplin, swasette and English Broadcloth. Peach,tan, pink, blue and white. Sizes 1, 2, and 3. Priced from $1.00 to $3.75.

Kaynee blouses and shirts are both smart and long wearing.

That a boys' blouse can have both these features is demonstrated in Kaynee togs.

These blouses and shirts are of Lancaster Cloth, madras, English Broadcloth, Oxfords and other desirable fabrics.

You can turn your sons loose in Kaynee blouses and shirts without fear of consequences, for hard wear is nothing to them.

They are built for service — sturdy in fabric — absolutely fast color—every pattern is a design exclusive to Kaynee.

The cut and fit are noticeably good, the workmanship is exceptional. Best of all, these blouses and shirts are able to resist the hazards of grime and rough play.

Among the new Spring blouses you will find checks, stripes and plain light blue. Priced at $1.00, $1.50 and $2.00. Sizes 4 to 15.

Shirts are in sizes 12 to 14 neckbands. Checks and stripes in good shades. Priced at $1.25, $1.35, $1.50, $2.00 and $2.85.

Hot Campaign Issue

ST. CLAIRSVILLE—A hot dispute over the advisibility of installing traffic lights on Main street—the National road gives promise of becoming the chief issue in the forthcoming campaign here. Autoists oppose the lights. Pedestrians demand them and declare that with out them crossing the street was a hazardous task. Autoists say they are unnecessary as there is virtually no cross-town traffic.

COERCED BY MOTHER-IN-LAW, HE GIVES BRIDE TO BROTHER

LONDON—An extraordinary story by a petitioner for divorce that he was coerced, within a week of marriage, into signing his wife away to his brother, has been the sensation of the present divorce hearings.

The husband, Harold William Beaver, was granted the divorce by Lord Merivale on the ground of his wife's misconduct with his brother, Alfred John Beaver. The chief point of his story was that his mother-in-law was the principal agent in his losing his wife.

Beaver told the court that he was married at the end of December, 1923, when he was 23, and his bride, Phyllis, 19.

Four days after the wedding Beaver found his wife and his brother together in a room.

His brother ordered him out of the room, but some of the other guests came along and turned the brother out of the house.

Beaver said that later Mrs. Mucklow, the mother-in-law, insisted he sign a paper freeing his wife so that she could marry his brother.

The document ran:

"I free my wife on condition that she marries my brother."

"I was quite ignorant," continued Harold Beaver, "that I was doing any wrong. I thought that as my wife seemed to hate me and loved my brother, she would be happier with him."

Spain's total wealth is estimated at $31,000,000,000, of which agriculture accounts for one-third.

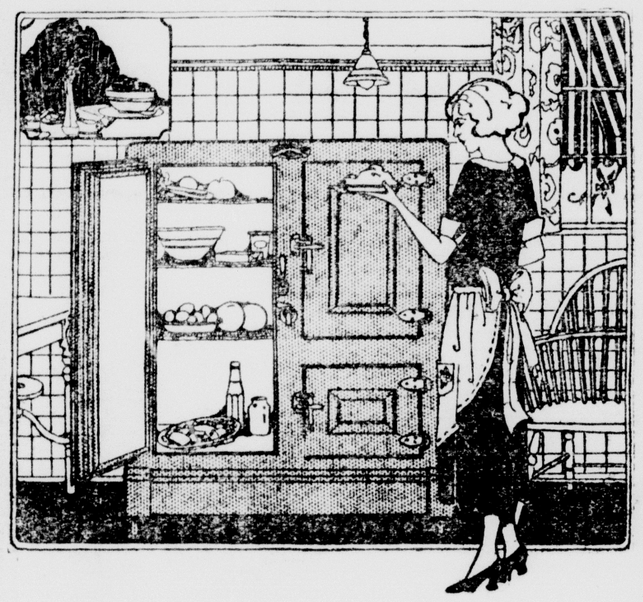

Seek New Highway

ATHENS—The Athens county motorists' organization is sponsoring a movement to open up a new state highway "through" western Athens county and into Hocking county by way of Laurelville. The territory the proposed road would traverse is one of the wildest and most picturesque in this part of Ohio and much of it is being surveyed for state park purposes.

"How Big is my baby?" Selma would demand. "How Big is my man?"

Then little Dirk would stretch his arms wide and squeal, "So-o-o-o Big!"

When he grew to be one of the most correct young men in fashionable society, he returned to his apartment from visiting his mother and questioned himself:

"How Big?"

His answer is this story of a most remarkable woman.

DAVID BETHEL, AGED 44, DIES

Succumbs to Complications Following Broken Jaw.

David R. Bethel, 44 years old, former Pennsylvania Railroad employe, died this morning at 4 o'clock at his home, 1312 Center street, following a four months' illness of complications resulting from injuries he sustained in February.

Bethel, who was employed in the C. & P. shops here, sustained a fractured jaw bone. The injury failed to heal, it is said, and caused his death.

He was recently taken to the East Liverpool City hospital for treatment, but several days ago was returned to his home.

He is survived by his wife, Helen, and two children, at home.

Pending the completion of funeral arrangements, the body has been removed to the Haugh funeral home.

FIREWORKS GO ON SALE TODAY

Fourth of July fireworks went on sale here today, accompanied by a series of "don'ts" by Mayor James S. Barnes, the chief executive urging a safe and sane observance.

The use of excessively large firecrackers is forbidden by police who will keep close watch on celebrators during the next few days.

Mayor Barnes rules that fireworks must not be ignited close to any structure, especially a frame one. "Keep away from property," he warns.

He further says: "Avoid the use of cheap toy cannons, pistols, etc., in which powder charges of cartridges are used.

"If a firecracker or other noise maker fails to go, wait a few minutes before investigating; otherwise it may explode suddenly and cause injury.

"And don't forget to take proper and immediate care of yourself in case of burns."

MEN'S MEETING AT HILLCREST

Arrangements have been completed for the men's meeting which will be held this evening in the Fairview school house at Hillcrest.

Luncheon will be served, followed by a program of speaking, singing and musicial selections. Attorney S. W. Crawford of East Liverpool will deliver the chief address, it was announced. Attorney Blaine Cochran was scheduled to lead the singing, with Dr. Wineswelg at the piano.

ATTEND LODGE MEET IN LISBON

Members of the Wellsville chapter, Order of the Eastern Star, expect to attend the annual inspection of Ivy chapter, Lisbon, which will be held this evening in the Masonic temple, Lisbon.

Mrs. Hazel Beech, worthy matron, and Mrs. Dora S. Mitchell, deputy grand matron, will attend the inspection.

Dinner will be served at 6 o'clock and inspection ceremonies will start at 8:00.

Will Present Drama.

Members of the missionary society of the A. M. E. church today announced plans for the presentation of a home talent play.

The title of the drama is "The Old New Hampshire Home." The first performance will be given on Friday evening at 8 o'clock in the city hall auditorium. Rehearsals are well under way. Brownie's orchestra will provide music.

Yellow Creek Church Services.

"The Influence of Calvinism on History" will be the subject of a special sermon on Sunday morning at 11 o'clock in the Yellow Creek Presbyterian church by Rev K. J. Stewart, pastor.

A patriotic song service, in addition to an address, will be held in the evening.

Sunday school will convene in the morning at 10 o'clock. The Young People's society will hold a patriotic consecration service in the evening. The leader will be Paul Shaffer.

Rev. Stewart will also preach in the Long's Run Presbyterian church in the afternoon at 2:30. The Sunday school will convene at 1:30 p. m.

Mrs. Forbes Seriously Ill.

The condition of Mrs. D. A. Forbes, of Wood street, who recently underwent an operation in the East Liverpool City hospital, remains critical, it was announced today, with little hope for recovery.

Recovering From Injuries.

Miss Allie Mulford, daughter of Mr. and Mrs. Riley Mulford, of Washington avenue, is recovering from injuries sustained recently when an automobile in which she was riding, and driven by her aunt, Mrs. Virginia Saunders, of Toronto, backed into a fire plug in Washington avenue. Her head, which struck against the inside of the car, was severely lacerated.

Wellsville Personals.

Mr. and Mrs. Harry Driggs and son, Harold, of Washington street, have concluded a 10 days' motor trip to Niagara Falls, Buffalo and Geneva on the Lake.

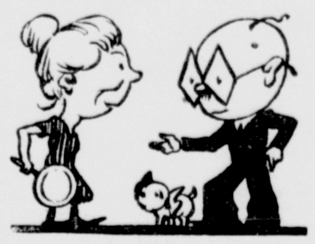

Mrs. W. E. Tucker and sons, of Columbus, are visiting with the former's aunt, Mrs. W. W. Rice, Riverside avenue.

Moore Funeral Today.

Funeral services for William A. Moore, 30, of this city, who died Tuesday at Massillon, will be held this afternoon at the late residence in Chester avenue. Burial will be made in Spring Hill cemetery.

Veteran Bridge Builder.

BELLAIRE, July —. R. Griner, of Baltimore, who designed the vehicle bride between Bellaire and Benwood, W. Va., had charge of the erection 50 years ago of the big Baltimore and Ohio railroad bridge between the two cities. The new structure is to be constructed just north of the old railroad bridge.

JOHNNY HINES AT CERAMIC

'Conductor 1492,' Screen Hit of Season Here for Three Days.

A battle royal, waxing fast and furious, that attracted participants and gained momentum, threatened to bring complete disaster to the production of "Conductor 1492," the feature photoplay which begins a three-day engagement today at the Ceramic, during the filming of a spectacular scene recently.

The grand free-for-all, in which the fists and pugilistic abilities of more than 150 extras were involved, was occasioned by the excessive high spirits and rousing good cheer that welcomed the ever-smiling Johnny's return to Ireland from America, a scene of great mirth in the production.

Hines returns to his native Irish town, very picturesquely portrayed, with adobe-shaped houses, covered with straw and greens; the pigs very comfortably wallowing in the mire, while the goats and mules complete the picture of a typical Erin village.

Johnny's home coming is a matter of great moment in the village, and of great joy, and when the long-awaited hour arrives all the folks rush out to greet him, taking him to their hearts with a vengeance. In the midst of the joyous babel of welcome a County Corker suddenly shouts: "Well, what did ye bring from America?" And, in answer to this query, Hines very dramatically lifts a box-full of boxing gloves, from the back seat of his limousine, throws them to the crowd and exclaims: "Show your nationality."

Well, then the fun begins in earnest. The men, women and boys, participating in the scene, are directed to put on the gloves, to celebrate, in fitting style, the return of Hines. Directors Charles Hines and Frank Griffen, enthusiastically cheered on the mob, and in short time, all had entered into the spirit of the occasion and a real fight, with all the trimmings, was on. Here and there, and everywhere—bang! zip! punch!

Movie Industry Lags In Japan; Ten Years Behind America

LOS ANGELES, July 2.—Japan film producers are still ten years behind American makers of motion pictures, and as yet in their own country they exhibit only 20 per cent of the cinemas shown, according to Baron von Kettler, German manufacturer of photographic films, who has returned from a business trip to the Orient.

"Japanese producers lack the sense of detail and the knowledge of picture making for international appeal that is so pronounced in American films," the Baron said. "It will be twenty years at least before Americans need fear much competition."

ROAD BUILDING ON LARGE SCALE

West Virginia's road building program will be launched late this month with the announcement yesterday that $\$$,000,000 highway bonds had been sold to the Harriman company of New York city. This money will be used for improvements in all sections of the state including the extension of the state road through Hancock county.

Governor Howard M. Gore who recently completed an inspection tour of the state during which he visited every main road will be consulted by the commission in the make up of the program which is one of the most extensive ever planned in the state.

Picnic Plans Progressing.

Plans are being perfected for the annual outing of the employes of the Homer Laughlin China company to be held at Cascade park, New Castle, Pa., Friday, August 7. Special trains has been engaged by the committee in charge of the event.

HOLIDAY HOURS AT POSTOFFICE

Holiday hours will be observed Saturday, Independence day, at the Newell post office. Stores and business houses will be closed the greater part of the day while operations will be suspended in all industrial plants.

VACATION TRIPS PLANNED HERE

Number of local people will leave tomorrow for the annual vacation at various places. Some will attend the Atlantic City convention of the National Brotherhood of Operative Potters while others have arranged for a fishing trip to Canada. Number of family outings will be held on July 4 at nearby resorts.

Locals Close Season.

Homer Laughlin China team of the Industrial league closed the first half of the season last evening with the Knowles, Taylor and Knowles squad. The team got off to a bad start and supporters are confident of better results in the second campaign for league honors.

Class Meeting Tonight.

Members of the night school class of the First Methodist Episcopal church met last evening in the parsonage. The lesson was in charge of Rev. J. W. Schrader.

Wool Crop Pooled.

WHEELING — Approximately 250,000 pounds of wool, pooled by eastern Ohio wool growers, have been received at the Wheeling warehouse of the Ohio Wool Growers' Co-Operative association this year, it was announced here today. The same organization, selling through Horkheimer Bros., of this city, has 2,750,000 pounds of wool in storage at the Columbus warehouse.

Imports Increase as Fur Vogue Grows in Popular Favor Here

WASHINGTON, July —Use of furs in women's wearing apparel was chiefly responsible for the $80,000,000 importation of this commodity into the United States last year, according to the Department of Commerce.

Fur trimmings for many articles of feminine dress, as well as the use of furs for the manufacture of top coats, is increasing rapidly in popularity among the modistes of this country, according to officials.

Plea Denied.

ST. CLAIRSVILLE—Judicial notice has been taken here of the hitherto reported fact that wives almost daily ask their husbands for money. Ruling in an action for divorce brought by Mrs. Balbena Roskowski against John Roskowski, of Neffs, Judge W. W. Cowen held that the mere fact that a husband or wife asked the other for money did not constitute grounds for divorce. Mrs. Roskowski had contended that Roskowski liked her money and real estate far better than he did her. The plea was denied.

To Vote on Franchise.

CHILLICOTHE—Voters here are to be asked to decide next autumn whether the franchise recently granted E. F. Bearce for supplying light and power in this city shall be approved. Bearce obtained the franchise against opposition of the Ohio Power company and the Scioto Valley Railway and Power company, on a guarantee of lower rates.

EAST LIVERPOOL — AMERICA'S POTTERY CENTER

WEDNESDAY, JULY 1, 1925.

Let's Make It a Sane Fourth

Is East Liverpool's celebration of the birthday of the nation and its president to be safe and sane?

This is the question on the lips of parents today, following the first 24 hours' sale of fireworks under the provisions of a municipal ordinance enacted for the purpose of reducing to a minimum Fourth of July accidents.

Despite the prohibition of the sale of cannon crackers, torpedo canes, pistols and other peace-destroying paraphernalia, battle-like noises permeated the atmosphere in all sections of the city last night and today. And it will be a like story tonight and tomorrow night and Saturday.

The Fourth, as some old residents remember, was once a day when young lives were wasted, for mutilations, tetanus, blindness, loss of limbs, and burned buildings marked the celebration. It was a day long remembered by physicians and surgeons, hospital attendants, firemen and undertakers.

According to a report of the National Safety Council, more than 60,000 persons have been killed and injured in the last 20 Independence day celebrations. And included in the casualty list have been East Liverpool district victims.

This year the duties of Defense day are combined with the observance of the country's natal day, and a boisterous nation should celebrate the glad day in a spirit of comparative moderation.

East Liverpool, like scores of other cities, has learned the lesson of reckless Fourths and has legislated in an effort to prevent casualties and fire damage. But despite the prohibition of dangerous pyrotechnics, children may pay tribute with detonating explosives instead of an intelligent understanding of the significance of the great holiday unless older and wiser persons caution them.

Let sports, family picnics, motor trips and community gatherings supplant the old-fashioned Fourth, and let's celebrate the holiday without killing and maiming.

Earthquakes

These earthquake shocks are occurring in the United States lately with such frequency as to cause a good deal of alarm. They come not only in the usual sections but in areas long regarded as immune. It begins to look as if no part of the country is safe from tremors.

The old earth evidently is in one of her periods of readjustment. The crust, slowly shrinking as it cools, has to settle a bit now and then, or shove a little this way or that, to equalize the stresses and strains.

It has always been so since the molten globe hardened. It will always continue so, geologists say, until the process is complete and the globe is cold and dead like the moon. That will be many millions of years.

But the quakes diminish in intensity as time goes on. There are evidences in the ancient rocks of upheavals, subsidences and fractures enormously more violent than any recorded in human history. The crust thickens and strengthens like a coat of ice on a northern lake in winter. Even a thick crust will crack occasionally, but the cracking does less and less harm.

Most of our quakes are trivial and would be scarcely known except for the seismograph. It is surprising that the worst of them do so little damage, compared with what they might do. Our civilization really gets off easy, in its contest with great natural forces, in spite of its great cities and transportation systems, its huge buildings and its mazes of electric wires, sewers, water mains and reservoirs and gas and oil pipes.

Life For Gun-Toting

A vigorous effort is being made in New York to fix life imprisonment as the penalty for all persons convicted of crime who used deadly weapons or had such weapons with them at the time of the offense. One of the leading sponsors of the measure is the board of trade and transportation.

This would be severe, but on the whole would be just, because "no criminal set upon committing any crime or act of violence carries a weapon without being a potential murderer." It should tend to discourage both crimes and gun-toting.

Even this drastic proposal, however, ignores the main issue. Criminals carry "guns" because they can get them. Better than locking the criminal up for life after he has shot somebody would be making it impossible for him to get the pistol to shoot with. Sooner or later we shall get around to stopping this dangerous and unnecessary traffic in individual arms.

Fewer Infant Deaths

Belgium furnishes a striking example of the results that can be obtained by the establishment of child-welfare clinics and the general teaching of infant hygiene to the public. Belgium started such work during the World war.

Prior to that time Belgium's infant mortality rate was high. For the years 1901-1905, it had been 147.7 deaths for every 1,000 births. By 1922 the rate had been cut down to 107. The Belgian Children's bureau announces that the rate for 1923 was only 93.1 per 1,000 births. It will undoubtedly be progressively lower in the next few years, for such work accumulates success as it dispels ignorance and indifference. Any community that institutes widespread health publicity can achieve prompt results.

NEW YORK DAYBYDAY

By O. O. McINTYRE

NEW YORK, July 2.—Great Neck, L. I., is peopled mostly by theatrical folk. George M. Cohan, Tommy Meighan, Jame J. Corbett, Ed Wynne, Raymond Hitchcock, Oscar Shaw and hundreds of others, including, of course, Ring Lardner, the town's official Boswell, live there.

Any of its quiet streets is a slice of the Rialto transported. The town is a sharp contradiction to the reputed profligacy of theatrical folk. There are great estates with haughty mansions on all sides and many have their private strips of bathing beach.

A wag has dubbed it "Goitre" and as such it is known to its residents. It is there that Fred Stone and Will Rogers practice with their lariats. Gene Buck writes lyrics for the Follies. Marilyn Miller attempts a new toe twirl and "Tad" fashions his slang.

Great Neck slumbers through the morning and not until 1:30 p. m. do the matinee idols stroll trainward for the life that begins for them at 2:30. And in the afternoon beauties that may be seen in bathing suits would curl Mack Sennett's hair.

Real life for the Great Neckers begins after the theater when the stage folk rush home without often times removing all the grease paint. Homes glow with light, jazz record airs float through the windows and there is the pleasant exchange of talk from verandas.

Great Nack's proximity to New York does not stifle the village atmosphere. Every one seems to know everyone else and I am told they borrow cups and even exchange local gossip over the hedge. That it is a peaceful community and law abiding is evidenced by the village bastile.

It has fewer occupants yearly than any other village on Long Island. Also it has more pets—dogs, parrots, canaries, cats and even monkeys and marmosets.

There is the story of the Wall Street bond salesman who invaded Great Neck. He encountered a group at the golf club and explained his purpose. One actor told him he thought business would be brisk but that the residents were late sleepers and away most of the day rehearsing or acting in plays.

"A good way for you to do," he said, "is to distribute red cards to every home and when they want a bond they can stick it out on the front porch and then drive through town every day and see how many customers you have."

At one of my jobless periods I tried to sell bonds. My first prospect—as we say in the trade—was a man I learned later wrote magazine articles on finance. He admitted me to his office but before I left he had me so confused that I put on his hat and tried to walk out a door that led into a closet.

Manny Silverstone has left Delancey street for Paris. He was known as the "kosher shop poet" and tossed off many poems on the top of bare tables. His hair was long, his elbows threadbare and he wore the conventional poetical flowing tie but his sonnets would not sell. He finally got a job with an importing house and made such rapid advance in three weeks that they dispatched him to Paris but he says he is coming back. At a farewell dinner he said: "Business is just business, but poetry is life."

Most poets have this idea, but I lack the divine afflatus. It seems to me there is more of romance in the hustling business world than will ever be found in a cob-webby attic. And I have reached the point where I prefer a pot-belly to malnutrition in a charity ward.

HASKIN'S LETTER

BY FREDERIC J. HASKIN

A News Congress.

WASHINGTON, July 2. — There have been Pan-American commercial congresses, financial congresses, scientific congresses and public health congresses for the purpose of promoting a better understanding between the Americas. Now there is to be a Pan-American Congress of Journalists. This was provided for at the fifth Pan-American conference which met in Santiago, Chile, in 1923. At that time the governing board of the Pan-American Union was authorized to designate the date and place in the United States at which the congress should be assembled.

It has been decided that this congress shall convene on April 6, 1926, at Washington, D. C. One of the reasons for this date is that the annual Newspaper Publishers' convention is held in New York during April. It was felt that there would be more likelihood of a large representation from the west and middle west if the meeting could be arranged at a time when publishers from all over the United States would be congregating in the east for this convention. It was feared that for one reason or another many publishers would not feel that they could make such a trip twice.

In announcing the date Secretary of State Kellogg said he believed that such a congress of journalists would have a far-reaching influence in bringing about a closer acquaintance between the people of the American continents. He further stated that he believed that a resultant feature of such a congress would be that the journalists would be better able to interpret to their readers the common purpose and ideals of the nations of America.

Latin Americans are tremendously interested in the United States and have the greatest respect for many of its products. They are convinced that it manufactures the best motion pictures, the best typewriters and the best dental machinery. To this list they have now added American news services. There are at this time approximately a hundred newspapers in Latin America which subscribe to such services as the Associated Press and the United Press.

Up until the advent of the American cables, Latin America had only cable services with very high press rates. The newspapers of those countries therefore welcomed the American cables whose low press rates made it possible to purchase news services from the United States at reasonable cost. Most of their news had come from Great Britain, France and Germany. These services were maintained only by those people who had cables.

Movies Interest Them.

A man who has spent a great deal of time in South America and who probably understands the Latin American viewpoint better than any one else in this country, gives it as his personal opinion that the American motion pictures have had a strong influence on the Latin Americans' interest in United States news. Motion picture productions filmed in the United States enjoy a great popularity in the countries of the southern continent. Most of these deal with everyday life in various sections of the United States. Then there are the news reels which keep the world informed of what is being done even in the most remote places. These have made the Latin Americans familiar with the United States and her people. They feel that they actually know them. Therefore when they read in their newspaper of something which has occurred in Shellbark they feel a thrill of interest and say, "Oh, yes, I saw a picture of that the other day."

It is hoped that the first congress of journalists will be the forerunner of others to be held in Latin America. It is believed that journalists from the United States will be amazed at the way in which newspapers are run on the sister continent. Those who have gone there have come back filled with enthusiasm for many things they have seen. It is said that the United States has no race courses such as there are in some of these countries. There are many magnificent clubs, which far surpass any here.

Any personal contact and acquaintance with the people and the customs would do much to cement a friendship between the man from the United States and his Latin neighbor. One man of national prominence who made his first trip to South America recently became so enthused that he has since made four or five trips. This seems true of the majority who go. Immediately upon their return to the United States they begin planning for another trip.

Model Newspaper Offices.

Probably the most outstanding difference between the newspaper methods of the United States and those of Latin America is in the offices. In the latter the buildings are constructed as monuments to the profession — something which may be pointed to with price. They are built to impress the people with their solidity in much the same manner as our banks are constructed. All bankers realize the psychological effect the building itself has upon their patrons. There is apt to be a lack of confidence in a bank housed in a cheap, flimsy way.

In Buenos Aires one of the largest newspapers has a building which is one of the show places. In this there is a club where out-of-town guests may stay during their visit. There is a restaurant and a hospital which is for the use of not only employes, but for any one who may be injured or be taken ill in that vicinity. There is also an auditorium where any group of business men or others desiring to hold a meeting may gather.

The machinery in the press room is trimmed with the brightest nickel, and while it is probably actually no cleaner than the machinery of our newspaper offices, the visitor is dazzled by the glint of polished nickel. The pressmen instead of being in greasy trousers and B. V. D. undershirts wear neat uniforms. The reporters are not all squeezed into one room which reeks of stale tobacco and perspiration, and where the visitor wonders how they are ever able to concentrate sufficiently to turn in their copy. Each reporter is given a separate room where he may be quiet, and where careful attention has been given to just the proper light and ventilation. Perhaps the Latin American temperament requires more quiet for work.

While the office described may be more pretentious than many, it is said not to be unusual in the main. The publisher from the states may pick up quite a few ideas from a visit to one of these. They are already becoming imbued with the idea of making their offices show places, and it may be that before long large newspapers here may follow suit.

Certainly a Pan-American congress of journalists at which the methods and ethics of newspaper making are discussed can not but be both interesting and helpful to the profession. And it is just one more link in the chain of friendship being forged between the Americas.

TRJO SAILING 5,000 MILES IN MOTOR BOAT

Leave Astoria, Ore., in Frail Craft for Hoboken.

90-DAY JAUNT

One Member of Party Will Write for Magazines.

PORTLAND, Ore., July 2. — "Bound for heaven, hell or Hoboken!"

The little motor boat Traveler bears that inscription as it pushes its way along various mighty rivers and streams on a transcontinental journey of 5,000 miles from Astoria, Ore., to New York.

The three members of the crew were most optimistic that Hoboken would be their ultimate landing point as they chugged out of Astoria Harbor the evening of May 21; and John Edwin Hoad, skipper; Frank S. Wilton, movie man, and Val Woodbury, navigator, all of Los Angeles, were mates in joy and enthusiasm when they arrived in Portland Harbor May 22.

"Spy Wapato," a daschund in appearance, with a water spaniel's disposition, is the other member of the crew. He comes by his name in memory of the potato eaten by members of the Lewis and Clark expedition.

Take Three Months.

The Traveler is eighteen feet long and has a five-foot beam. It is equipped with two outboard engines, four-and-aft steering gear and locker space. The men believe they can make the trip in three months in the light, fast craft.

Leaving Portland the route was via the Columbia and Snake rivers to Lewistown, Idaho. They will portage the craft from Lewiston to Fort Benton, Mont., at the headwaters of the Missouri river, and then proceed down the Missouri 2,280 miles to the Mississippi, just above St. Louis, Mo. The course will then follow the Mississippi to the Illinois river, up the Illinois to La Salle, Ill., through the Illinois-Michigan canal to Chicago; up the west side of Lake Michigan through the Straits of Mackanaw, to Lake Huron.

The route will then follow the Canadian shore to the southern end of Georgia Bay to Fort Severn, Ont., thence through the Trent Waterways to Lake Ontario, down the St. Lawrence river to the mouth of the Richelieu river, then to Lake Champlain, through the Champlain canal to the Hudson river and down to New York.

Woodbury is an old navigator, and Hoag is an author. Hoag will write seevral articles for magazines.

WEAK, RUN-DOWN NERVOUS, DIZZY

Mrs. Lee Suffered From All These Troubles, but Lydia E. Pinkham's Vegetable Compound Made Her Well

Terre Haute, Indiana.—"I was weak and run-down and in such a nervous condition that I could hardly do my work. I was tired all the time and dizzy, had no appetite and could not sleep. I tried different medicines for a year but they did not help me. Then my husband saw the ad. for Lydia E. Pinkham's Vegetable Compound in the newspapers and had me take it. I regained my strength and never felt better in my life. It completely restored me to health. I had practically no suffering when my baby boy was born and he is very strong and healthy. I know that the Vegetable Compound is the best medicine a woman can take before and after childbirth for health and strength. I would be willing to answer letters from women asking about the Vegetable Compound."—Mrs. Wm. J. Lee, Route E, Box 648, Terre Haute, Indiana.

Lydia E. Pinkham's Vegetable Compound is a dependable medicine for all these troubles.

What is a Balloon Tire?

THE announcements of two years or so ago defined a balloon tire as—

"A tire of large cross-sectional diameter having a thin, flexible side wall so it can be run at low enough air pressure to provide a soft air cushion between the car and the road."

That was the industry's ideal.

That was what the car owner was told he would get.

That is what the car owner *does* get in the U. S. Royal True Low-Pressure Balloon.

But he doesn't get it in all tires that carry the word "Balloon" on the side wall.

Some tires labeled Balloon wear out too fast when run soft, so they must be run at too high pressure to give ideal cushioning and comfort.

The makers of U. S. Royal Balloons have stuck to the original idea and ideal.

The U. S. Royal Balloon is built of Latex-treated Web Cord.

This provides the necessary strength and flexibility for low air pressure.

It also has the U. S. Low-Pressure Tread which distributes the weight evenly over the entire tread surface and eliminates early, uneven and unsightly tread wear.

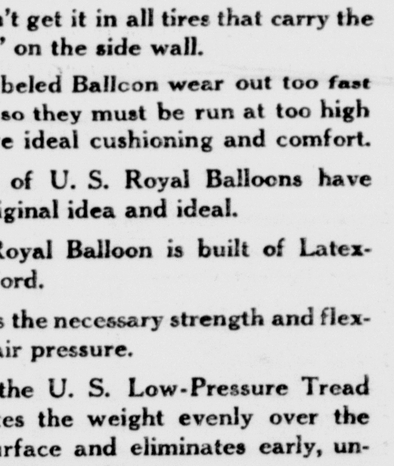

It can therefore be run at low enough pressure for ideal cushioning without injury.

Many nice big round tires with the name "balloon" on the side wall can't.

A WORD FOR BEGINNERS.

The best way to solve a cross-word puzzle is to run quickly over the list of horizontal and vertical synonyms and compare them to the spaces in the puzzle extending crosswise or downward from the number of the synonym. Some word which will just fit in the number of space available will quickly occur to you in some instances, giving you a foundation from which to solve the more difficult words. The words must interlock perfectly.

Seven Classes Barred From Membership in Russ Labor Unions

PRAGUE, July—The Central committee of the Russian Labor Unions has published a list of the people who are forbidden to belong to any labor union. This deprivation is a very serious thing in Russi, because membership in a union carries with it many privileges.

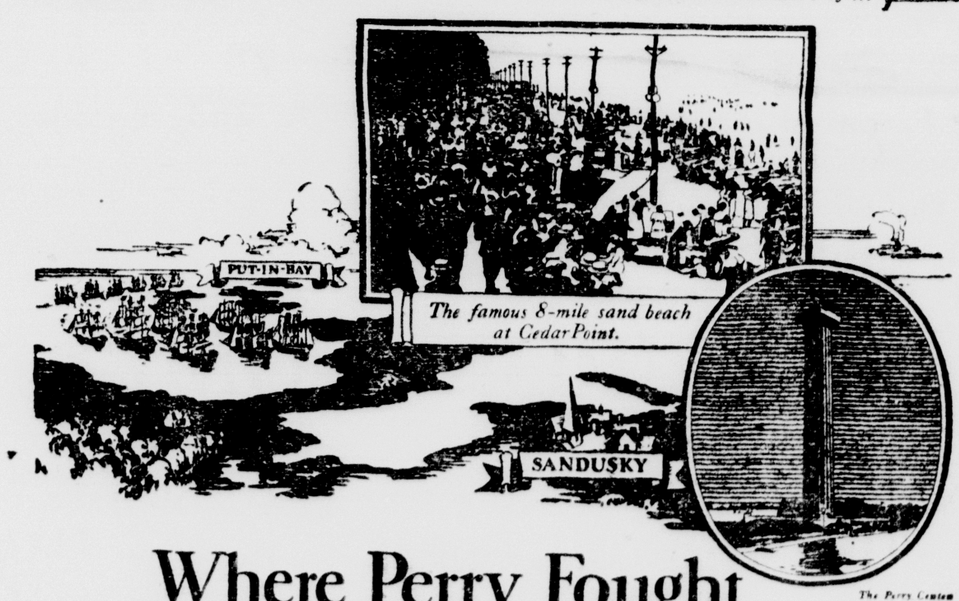

The holder of a union card is favored in such matters as payment of rent and taxes, social insurance and out-of-work doles. The list of forbidden categories includes the following classes: Concesionaries, executives in capitalistic enterprises who have the right to hire and discharge labor, independent artisans, monks and priests of all denominations, former officers in the White Army, persons formerly employed in the Tsarist Police department, persons convicted of capital crimes and deprived of civil rights.

Held for Grand Jury.

NELSONVILLE, July—Charles and Sherman Ball, who, it is charged, set off a charge of dynamite in the mouth of an old coal mine just as dry law enforcing officers were entering the mine, were held for the grand jury. The raiders said they were almost sealed up in the mine by the explosion. They reported they found four stills in the shaft.

Spanish coal mining is prospering under tariff protection.

This is No. 3 of a series of advertisements by the Standard Oil Co. [Ohio] designed to tell Ohioans about their interesting State and encourage them to see more of it.

The famous 8-mile sand beach at Cedar Point.

The Perry Centennial Memorial at Put-in-Bay.

Where Perry Fought

Spend the "Fourth" along Sandusky Bay

The spirit of the "Glorious Fourth" suggests a visit to the scene of the Battle of Lake Erie, victoriously waged by Oliver Hazard Perry to make secure the independence we celebrate. Patriotic Ohio motorists will enjoy Put-in-Bay—easily reached by ferries from Sandusky—and the classic memorial to the doughty Commodore who sent forth the famous message "We have met the enemy and they are ours."

Along the breeze-swept shores of Sandusky Bay stand other monuments marking ancient forts and stirring deeds that swayed our nation's destiny. The rocks of Kelley's Island, a few miles off-shore, bear some of the world's most remarkable glacial grooves.

Newby, also, are two of Ohio's most popular vacation spots. Cedar Point provides wonderful fresh water bathing and countless added attractions that beckon the tourist to its mammoth hotels. And Lakeside, a famous religious encampment known as the "Chautauqua of the Great Lakes."

In most of the towns along your way you will find familiar Standard Oil Service Stations where helpful road information is as easily available as are the reliable products of this Ohio corporation. Those in Sandusky and Port Clinton will supply local directions for reaching the interesting places mentioned above.

KIWANIS HEARS FROM DELEGATE

Report of St. Paul Convention Made at Noon Luncheon.

"Kiwanis is a bank—we cannot continue to draw out without putting something back in."

This was the thought expressed by Immediate Past Governor R. C. Heddleston of this city in connection with his report covering the international convention held at St. Paul, Minn., last week, made at today's meeting of the local club.

Heddleston reviewed the various sessions of the convention. Among the resolutions adopted by the delegates was one for clean movies, good books and decent literature, another pledging the club's co operation in fire prevention and also refusal to permit the organization of clubs in Mexico.

The attendance prize at today's meeting, a half dozen linen handkerchiefs, furnished by O. O. Allison, was awarded to J. W. Moore. W. A. Weaver announced that the Lions' club had endorsed the proposed Salvation Army financial campaign and that the Rotary club would consider like action at their next week's meeting. The local club deferred action until the next meeting.

The club went on record as favoring the proposed cattle tuberculin test in Columbiana county, after Fred George, chairman of the agriculture committee, made a report of a conference held with farmers at Lisbon. The secretary was instructed to ask the county commissioners to set aside sufficient funds to make this test in Columbiana county.

C. W. Hendershot, chairman of public affairs committee, submitted a report of the investigation as to the cost of signs, which the organization plans to erect along the principal highways leading into the city.

OFFICER HURT, AUTOIST FLEES

Driver Pushes Constable From Running Board After Arrest.

Constable A. F. Hephner, Leetonia, is suffering from bruises and lacerations, alleged to have been sustained at 6 o'clock last night, when he attempted to arrest a man, giving the name of Frank Lubrio, of Youngstown, as the latter was passing through Leetonia.

Hephner, sitting in his home in Columbia street, was attracted by the screams of a woman in a passing automobile. He stepped to the street and picked up a woman's shoe which had been dropped by the car. A few minutes later the automobile returned and was halted by the constable.

The officer, after taking the driver's name, ordered him to drive to the city hall. The stranger started his car in the direction of the road to Lisbon. Hephner commanded him to stop and climbed aboard the running board to give him the directions. Lubrio is alleged to have suddenly pushed the constable off the car, "stepped on the gas" and disappeared.

A call was sent to Lisbon and other places in an effort to head off the stranger, but he escaped.

Six Bandits Flee When Their Intended Victim Calls Police

CINCINNATI, July 2.—Six bandits after unsucessfully attempting to raid the jewelry store of B. Greenwald, 514 Race street, early today escaped in an automobile after shooting one man and terrorizing crowds by firing many bullets into the air. The bandits were running away when Charles Golfuss, 31, an iceman who was delivering ice nearby unwittingly got in the path of one of the fugitives. Greatly excited the bandit shot Goldfuss in the hip. Goldfuss threw his ice tongs at the gun user, missed him but struck the driver of the automobile, causing him to swerve the car and collide with a pole.

When four of the six bandits entered the store the proprietors, Ernest Waldvogel and William Grassmuck, were not intimidated by the display of weapons. Grassmack ran to the door and called for the police, whereupon the bandits fled without taking anything.

Suspect Husband Of Patient Slew Cincinnati Doctor

CINCINNATI, July 2.—Many women who had been patients of Dr. Walter B. Knight, passed and repassed the coffin of the murdered physician when his funeral services were held at a funeral home this morning. Others were merely curiosity-seekers. Detectives are still trying to solve the mystery of Dr. Knight's death. With twelve wounds on his head, evidently inflicted with a hatchet, he was found by his wife lying on the floor of his office Sunday night.

Because of the nature of many of the cases Dr. Knight handled, it is thought the husband of one of his patients may have committed the crime. Many papers signed by women patients freeing Dr. Knight from any liability in their cases were found in his desk. Hundreds of letters written by women in cities and towns near Cincinnati also were discovered. The physician was last seen alive in a restaurant in the Negro district at 3 p. m. Saturday.

Almost the entire rural population of Denmark is organized in various classes of co-operative units, both for buying and distributing, and the total annual turnover of these associations in 1924 was 1,763,000,000 crowns.

Floods Devastate Part of Poland, 150,000 Homeless

LONDON, July 2. — Floods are spreading devastation in southeastern Poland, according to Warsaw advices to the Dispatch today.

More than 150,000 have been made homeless. Thousands of homes were carried away, crops destroyed or seriously damaged and railway bridges and factories hit by the havoc.

Relief funds have been organized.

SANTA BARBARA QUAKE TOLL 13

Four Thousand Workmen Demolish Condemned Structures.

SANTA BARBARA, Calif., July 2.—Another slight shock was felt in Santa Barbara at 10:02 this morning.

The tremor was mild and did no damage. It was the third shock in the last 12 hours.

SANTA BARBARA, July 2.—Dawn today dispersed white fog that had crept in from the ocean to conceal from 20 United States marines the scars that marred the beauty of the picturesque Santa Barabar on the fourth day since the city's earthquake disaster. As the sun wheeled into the heavens it became apparent that the city was more completely destroyed than first believed. Many buildings that yesterday stood upright, seemingly undamaged except for immense cracks up their facades, today were piles of bricks, mortar and wrenched steel. The work of demolishing condemned structures proceeded with gigantic strides under the impetus of the efforts of 4,000 workmen.

The death toll remained at 13 today. Search for four or five believed dead was made in all wrecked buildings.

Two minor shocks were felt during the night. No damage was done. The first shocks were felt at 10 o'clock last night and the second came shortly afterward. Both were extremely mild and passed almost unnoticed.

Contributions from all parts of the country continued to pour into the city for relief work.

One of the heaviest individual subscriptions came from R. B. Ward, baking king, who contributed $50,000 for relief work.

HENRY FORD BID ON SHIPS LOST

WASHINGTON, July 2.—Press reports today that Henry Ford had submitted a bid for the 200 surplus ships offered for sale by the United States Emergency Fleet corporation caused a search to be made today of the shipping board's files, but no letter from Ford was found.

It was indicated that Ford's bid probably would be considered should it be found later that it had been delayed in the mail, although dispatched in time to reach here when the bids were opened.

Overnight Air Mail

(Continued from Page One)

automobile horns and cheers from the great crowd assembled in and near the flying field.

Postmaster General New was enthusiastic over the success of the service. "It marks an epoch of two things," he said. "First, the science and progress of aviation, and, secondly, in transportation. It is a far cry to the days of the pony express. Both of these methods of transportation have existed within my own lifetime."

Cleveland Opens Airport

CHICAGO, July 2.—Chicago's first night air mail from New York, packed in the cockpit of a giant De Haviland piloted by Warreda B. Williams, zoomed down out of the sky to a perfect landing at the Maywood Field at 6:18 o'clock (Central Standard Time) today.

The 32 sacks of mail were immediately loaded on trucks and started for the Loop for the first daily delivery.

CLEVELAND, July 2.—While more than 100,000 citizens of Cleveland and northern Ohio looked on, the Cleveland airport was officially opened here last night following a banquet at public hall addressed by civic and aviation leaders.

Never before in Ohio was there such an assemblage gathered to watch the stunt flying and the inauguration of night air mail. Thousands were unable to reach the field so great was the traffic jam, although it was estimated by police that more than 30,000 automobiles parked in close approximately of the field.

Plane Brings Gown Shipment.

As the sun sank in the west a trail of lights beamed out to light the way across the continent for night air mail flyers who left Chicago, and New York mail that was delivered in Cleveland, New York, or Chicago early this morning.

At the same time in public hall the largest banquet ever held in Ohio was going on and 2,000 guests heard Cleveland extolled for its leadership in aviation and pictured as the future aeronautical capital of the United States.

William D. Mayo, engineer of the Ford Motor company, declared that Henry Ford would have 50 commercial airplanes carrying passengers and freight within another year.

A Ford roadster was brought here last night by the maiden Dearborn, Ill., assembled in 45 minutes, and driven from a platform by Mayo with City Manager William R. Hopkins sitting beside him.

Shortly after the arrival of the automobile from Detroit a Martin commercial plane arrived from New York with a load of gowns for a local department store. It had made a nonstop flight from New York.

The Socialist city council of Edmonton, England, has forbidden jazzing at its municipal dances.

REPORTS FROM STOCK MARKET

NEW YORK, July 2.—Industrial stock prices scored further moderate advances in the early trading today, with speculative interest also extending to wider range of the railroad, motor, equipment and copper stocks. Studebaker's advance to 49, the highest price for the year to date, was the feature of the first period in the motor stocks, though Moon, Packard, Piercearrow, Hupp, Briggs Manufacturing, United States Rubber and Yellow Cab moved up to fractionally higher prices.

Pullman's rise to 142 for a gain of 3½ points reflected investment buying due to the refusal of the Interstate Commerce commission to reduce surcharges on Pullman service in eastern points. Baldwin Locomotive, the other member of the equipment group, was active and strong, advancing to a new high on the movement. Woolworth humped 3 points at the opening, but selling orders flowed in and prices reacted. Owens Bottle, Universal Pipe and other specialties, continued to move moderately higher.

Heavy trading in Wheeling and Lake Erie, Wabash, Western Maryland, etc., accompanied rumors that the Loree railroad interests were vigorously pushing their plan to establish a gigantic eastern railroad system, revolving around the Delaware and Hudson and untimately linked up with Kansas City Southern, Katy and other mid-western and southwestern systems. Frisco common sold up a point on higher dividend prospects; New York Central, Atchison Southern Pacific and other dividend rails were fractionally higher.

Call money continued at 5 per cent for renewals. Foreign exchanges made a good recovery at the opening with French francs up 11 points, Belgian up 5½ and Scandanavian up 16 to 22 points.

Most of the high priced industrials and specialties continued to fore ahead, the list including American Ice, United Drug, Cast Iron Pipe, General Electric, Pullman, etc. Selling orders predominated in American Can., and prices were slightly lower.

OPEN BROADWAY GAS STATION

Ohio Valley Oil Co. Branch in Service Tomorrow.

Ohio Valley Oil company's new filling station at the southwest corner of Broadway and East Third street, will formally open for business tomorrow.

The new station, which occupies the site of the old Crisis building, is of stucco and red brick construction. It is equipped with three electrically-driven visible pumps, of 10 gallons capacity, the only pumps of this size in eastern Ohio. The station is also equipped with an oil rack where free crankcase service will be available for motorists.

To each motorist, who purchases five gallons or more of gasoline on the opening day, will be given coupons good for four quarts of "Super-Flash" motor oil. This station will handle "Super-Flash" gasoline and other products exclusively.

Work on the new filling station being erected by the Ohio Valley Oil company at the corner of Mulberry street and Pennsylvania avenue is progressing. The site has been cleared and ground for the storage tanks and building was broken yesterday.

This station will be larger than the other stations operated by the company here, inasmuch as it will be on the new road to Midland and the transient trade will be catered to especially. It will contain a ladies' rest room and other conveniences for the traveling motorist.

The Mulberry street station will be the Ohio Valley Oil company's eighth filling station, four of which are in East Liverpool, two in Wellsville and one each in Chester and New Cumberland. Frank G. Jones is president of the company.

500 Persons Hoot Dry Agents as They Capture Beer Truck

BALTIMORE, Md., July 2.—A crowd of 500 persons threatened dry agents today when they captured a beer-laden truck. The crowd gathered around the Southern police station and hooted and jeered the agents who took into custody F. H. Smith and J. H. Arnold.

Flashlight Powder Explosion Injures Ohio Photographer

RICHMOND, Ind., July 2.—Robert Huber, photographer, of Dayton, O., was in a critical condition in a hospital here today as a result of a premature explosion of flashlight powder. He was threatened with the loss of his sight.

etc. The necessary blank lines should be left under each title so that the electors may, if they so desire, write in the names of other persons.

"While this means a primary must be held in the township of Liverpool, it will be only for the purpose of nominating judge and clerk and will not extend to township offices.

"Nominations for either of these positions may be made by nominating petitions under section 4996, G. C. All candidates for judge, however nominated, will go on the non-partisan ballot in November. Candidates for clerk, is nominated at the primary, will go upon their proper party ballot. If nominated as independents, by petition, they shall go in an independent column upon the ballot."

donment of these right has been the uncodified condition of China's laws.

Chinese magistrates impose sentences based largely on tradition, and it was to correct this condition that new penal and other codes were recently adopted.

A commission is now engaged in codifying all Chinese law.

London's Attiude.

LONDON, July 2.—Great Britain today threw cold water on Secretary of State Kellogg's proposal for a new conference of the powers to iron out Chinese troubles that have resulted in the present widespread disorders in that country.

"China must put her house in order before there can be any conference to discuss matters of extra-territoriality," said a statement from the foreign office.

British officials wee manifestly surprised at Kellogg's move, for no communication had ben received from Washington, they asserted. In the absence of such official communication, foreign office officials said they believed the United States would continue to co-operate with the other powers interested in Cina and deal with the issue of extra territoriality "only after China herself has cleared up the present situatio and showed herself able to protect foreign lives and property."

ted, also it is NOT contagious.

Unlike consumption and other diseases you cannot "catch" cancer from its victim. It is important to have this known.

Steve Donoghue was thrown from his horse in the Paris Grand Prix and laid up in the hospital.

In one day more than a dozen special passenger airplanes were hired in London to take the jockey's friends to his Paris hospital. Not allowed to see him, they left best wishes and flew home. Europe is really USING the flying machine invented in America. We shall get around to it some day.

Those that watch and follow London fashions, take notice.

They make "black-less" waistcoats, men's suits are colored almost like the rainbow. Derby hats are worn gray and fawn colored, and you can get an Irish tweed so thin it's nearly transparent.

ELEPHANT leg trousers and "ice colored" silk shirts help to make the brighter men's clothes for London. What is wanted by England and her imitators, tailors can't supply, and that's cerebral activity under the gray or fawn colored derbies.

Russia will install a great telephone system and wisely calls in the telephone people of the United States to help spend $100,000,000 on the project.

The number of telephones will be increased from 120,000 to 1,000,000 and long distance will connect Leningrad with the Caspian sea.

Bolshevist Russia seems on her way to become a "safe and sane" capitalistic republic. Nothing like money to make you conservative.

HENLEY-ON-THE-THAMES, July 2.—Walter Hoover, of Duluth, the American champion, defeated M. K. Morris in the second round of the diamond sculls today.

Yank Lawn Tennis Invaders Winners In British Matches

WIMBLEDON, Eng., July 2.—Ray Casey and John Hennessey, the American lawn tennis invaders, today overwhelmed Leighton Crawford and M. B. Fisher in their fourth round match in the men's doubles, winning 6-4, 4-6, 6-0, 6-1.

The victory means that Casey and Hennessey will enter the semi-finals against Cochet and Brugnon, the Frenchmen.

The Americans were in rare form, while the Englishmen went to pieces at critical periods in various sets. Casey's services was brilliant—he won three love service games.

Children's Pictorial Cross Word Puzzle

HOW TO SOLVE PUZZLE.

The words start in the numbered squares and run either across or down. Only one letter is placed in each white square. If the proper words are found each combination of letters in the white squares will form words. The key to puzzle—the first word—is given in the drawing. Below are keys to the other words.

Running Across.

Word 1. The spring flower in the picture.

Word 3. Older; also a kind of berry.

Word 5. What the woods are full of.

Word 6. To unweave or unknit.

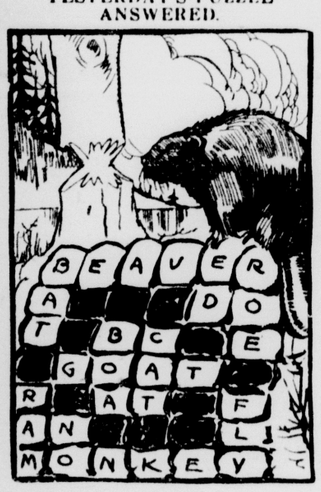

Running Down.

Word 1. A building for the presentation of plays.

Word 2. A sunshade.

Word 4. A female deer.

MILL WORKER IS BADLY INJURED

George Rutherford of Beaver avenue, who was injured in the Crucible steel here Sunday and removed to the Rochester General hospital in the Shepler Murray mbulance, is reported to have had several ribs broken and internally injrued. Rutherford was caught and crushed in an elevator shaft about 10 o'clock Sunday morning. He was given attention by Dr. J. A. Helfrich and then removed to the hospital.

Mrs. McGogney Hostess.

Mrs. C. B. McGogney of Beaver avenue entertained a number of little girls at her home yesterday in honor of her daughters, Helen and Margaret. Games and music were the diversions of the afternoon, after which a luncheon was served by the hostess.

Mill Closed Down.

The open hearth and merchant mill of the local plant of the Pittsburgh Crucible Steel is closed down for a week until after the Fourth.

Midland Personals.

A daughter was born to Mr. and Mrs. James Maher of West End Drive on Sunday morning. The mother will be remembered as Miss Mae Beckwell of this place.

Mr. and Mrs. William McInerney and family of Ohio avenue are visiting for several days with relatives and friends in Philadelphia and other eastern points.

Mr. and Mrs. Harry Bergner of Masilon, O., former residents of this place, visited for several days with the former's brother, Albert Bergner, and family of Midland avenue.

John Yetso of Woodlawn visited with his parents, Mr. and Mrs. John Yetso of Beaver avenue, for several days.

Miss Pauline Perrier of Imperial, Pa., is spending a week's visit with Mrs. W. G. Anderson, her sister, and family of Midland avenue.

Mrs. S. J. Woods and daughter, Dorothy, of Seventh street, will visit for a week with the former's mother, Mrs. K. Stone, and family of Pittsburgh.

Mrs. P. P. Gallagher of Beaver avenue has returned to her home after a visit of several days with relatives and friends in Cleveland. She accompanied her daughter, Helen, there, who has ccepted a position with the Pennsylvania Railroad company.

M. Balko, C. Palmer, James Murphy and A. Petrosky of Seventh street left yesterday for Youngstown, Pa., where they will visit with their respective parents.

Answers to Questions

By FREDERIC J. HASKIN

(Any reader can get the answer to any question by writing The Review-Tribune Information Bureau, Frederic J. Haskin, Director, Washington, D. C. This offer applies strictly to information. The Bureau can not give advice on legal, medical and financial matters. It does not attempt to settle domestic troubles, nor undertake exhaustive research on any subject. Write your question plainly and briefly. Give full name and address and enclose two cents in stamps for return postage. All replies are sent direct to the inquirer.)

Q. What is the best record ever made on the Indianapolis speedway for 10 miles? R. J. D.

A. The speedway record for 10 miles was 7.5512 made by Altgen with a National car July 2, 1910.

Q. What causes paralysis? A. M. G.

A. It may be caused by lesions of the brain, of the spinal cord, of the nerve trunks or their terminations.

Q. How does the number of women in college today compare with 50 years ago? M. A.

A. There are now 216,000, while 50 years ago there were about 4,000.

Q. Do the wild tribes menace travelers who cross the Sahara? E. D.

A. Many parts of the desert are still inhabited by wild desert tribes which attack tourists upon occasions. It is wise before making a trip into the desert to insure proper protection.

Q. Where is agate found? H. B.

A. Agates are found universally and are much used, when cut and polished, for ornaments and jewelry. The principal supply comes from Uraguay and Brazil, in South America, whence they are sent to Oberstein, in Germany, where their polishing is an important industry.

Q. For whom are Douglas firs named? W. O. H.

A. The Pseudotsuga douglasii, closely related to the firs, and often regarded as a fir, is named after the Scotch botanist, David Douglas. He visited the Pacific coast in the first half of the nineteenth century.

Q. Are any water snakes poisonous? B. R.

A. The biological survey says that the cotton mouth moccasin, a reptile found in the south, while not purely an aquatic snake, lives in the water a great part of the time. This is a poisonous snake.

Q. When was the Chateu de Ramezay built? H. O. W.

A. It was erected in Montreal about 1705.

Q. How long is the standard working day in Germany? M. R. F.

A. The eight-hour working day was provided for in Germany by regulations of 1918 and 1919. Under the emergency powers act of 1923, a federal order was issued January 1, 1924, making a number of exceptions to the eight-hour regulations. This caused considerable disturbance and much protest on the part of the unions.

Q. What state got the most congressional medals for the World war? C. W. R.

A. New York men received the greatest number. The following is a list of several of the states which stood at the top: New York, 14; Illinois, 10; California, 7; New Jersey, 7; South Carolina, 6; Tennessee, 6.

Q. How old are military societies in Europe? F. S. L.

A. Military societies as organized today are of comparatively recent introduction in Europe. During the Middle Ages plain soldiers were not organized. Persons of noble birth in the military service of their country, however, frequently joined the military and religious orders, such as the Knights Templars and the Knights of St. John of Jerusalem, which are among the earliest orders of history. The French Legion of Honor, a general military and civil order of merit, open to all citizens of France after 25 years of service, was established by Napoleon May 19, 1802.

Sixteen Members of Soviet Militia Face Sentence of Death

MOSCOW, July — Sixteen members of the Soviet militia of Kherson, including six section chiefs, have been arrested and indicted on charges of discrediting the Soviet state, accepting bribes, forgery and immorality. They are accused, among other things, of accepting wine from keepers of illegal resorts. Soviet measures provide maximum sentences of death for corruption in official circles.

COLUMBUS, July.—Miss Kathryn Mathews, Columbus, and W. R. Updegraff, former Martins Ferry, Ohio, boy and formerly with the International News Service in Columbus, were married here June 27 in a small home wedding. Dr. W. O. Thompson, president of Ohio State university, performed the ceremony. Mr. Updegraff is now a resident of Long View, Washington.

There's ever a witchery in fine hosiery that is shared by no other apparel. It expresses and reveals so much, that men and women are never well-dressed until they are well-stockinged. And now that desirable attainment can be had at *small cost.* Phoenix hosiery has worked a new economy in the world. To the allurement of lovely color and sure-fitting shapeliness, it has added a long-mileage serviceability that is peculiarly its own.

Man Hunt Postponed.

ELYRIA, July.—Man hunters cannot conduct a man hunt when there is nothing to hunt, Sheriff Fred Underhill has decided. As a result he called off the two deputies who had been sent to search woods near South Lorain for an alien who, it was reported, had carried off a young girl. No child was missing, it developed.

TWO DRINKS that celebrate one day

Clicquot Club Ginger Ale, Regular, is the dashing, full-flavored, martial beverage that is celebrating its fortieth glorious Fourth. Clicquot Club Pale Dry gives you the subtle exhilaration of a milder, drier drink, with a delicacy of flavor that is still real ginger ale. ¶ Each is blended with that just right quantity and quality of pure water and pure fruit flavors that properly sets off the tingling refreshment of real ginger ale. ¶ It takes time to make as good a ginger ale as Clicquot Club. It takes that subtle, artful skill in blending that has produced the drink that first taught America what real ginger ale tastes like. ¶ Here it is—Clicquot Club Ginger Ale, in two flavors, with two full glasses in every pint bottle, with the one ingredient that no one else can put into bottles—the forty years of knowing how to make good drinks the Clicquot Club way. QUAKER COUPLE MARRIED HERE

Double Ceremony Takes Place in County Court House.

A Quaker wedding declared to be the first ever performed in the court house was that of Levi Carter, aged 73, a farmer of Barnesville and Mrs. Maria Sterling Sweeney, aged 63, formerly of Watkins, N. Y., and now operating a store at Middleton this county.

The couple informed Judge Lodge Riddle that inasmuch as there was no Quaker meeting or church service, they first desired to marry according to their custom and then to follow with a civil ceremony.

The license was granted, and the couple then went into the rear office of the court where both marriage services took place while the crowd stood in silence. With the Quaker service ended, Justice of the Peace M. K. Zimmerman then pronounced the civil marriage ceremony, using the text from Swan's Treatise.

The old form of a Quaker marriage was carried out with this exception, that when there is a marriage at a Meeting, those who are to be married stand before the congregation and make known their intent to take each other as man and wife. Then follows the signing of a record by all those who witnessed the wedding.

Automobile Owners Urged to Cooperate In Testing Program

Sheriff George Wright officially announced today that the headlight and brake testing program as sponsored by the Columbiana County Motor club will begin next Monday and continue throughout the month of July.

This is a program of vital importance and with the co-operation of the car owners of this county should serve to greatly reduce the appalling number of accidents and the numerous "close shaves" that occur daily, the sheriff declared.

The automobile laws of Ohio call for two lighted lamps between a half hour after sunset and a half hour before sunrise, on the forward part of a car. Each headlight should be approximately of equal candle power (not to exceed 32 candle power) which shall be visible at least 200 feet in front of the car. Each headlight must be equipped with approved non-glare lens and must be so arranged that no dazzling rays or beams of reflectors shall at any time be more than 3½ feet above the ground on a level road a distance of 75 feet ahead.

Headlights on all motor vehicles on approaching another vehicle must be dimmed or deflected that at a distance of 200 feet no part of the intensified rays shall be visible more than 3½ feet from the ground while the other vehicle is approaching or passing.

Automobiles must be equipped with a red tail light, and a white light which illuminates each and every part of the license number plate.

The use of a spotlight is forbidden unless it projects its rays directly on the ground at a distance not exceeding 50 feet in front of the vehicle and to the right of the center of the road.

A motor vehicle must be provided with sufficient brakes to control it at all times. Braking capacity as approved by the United States Bureau of Standards is usually accepted as sufficient.

In addition to the laws governing headlights and brakes, an adequte horn or signalling device must be maintained on all motor vehicles.

The view to the front and both sides of a car must be unobstructed and a mirror must be used if a direct view to the rear is to be obtained.

The official testing stations will be announced by the Columbiana County Motor club.

RAILROAD SEEKS RIGHT OF WAY

The Pittsburgh, Ft. Wayne & Chicago Railroad company, through its counsel, McCarty, Armstrong, Burt & Kinnisa of Canton, have filed a petition in common pleas court with the county commissioners named as defendants. The company seeks a right of way to lay two tracks across Watt street and Maple street, in the village of Bayard, but the streets are outside the municipal limits, according to Section 8898 of the General Code.

Because of this fact, the company is compelled to go into court to obtain a right to cross these streets, as they are within the county, and under the charge of the county commissioners.

The new tracks are a part of the new 15-mile cut-off the company is building between Canton and Bayard.

NEW HIGH RECORD FOR SALE BILLS

A new high record in the filing of automobile bills of sale was reached in this county in June, according to the monthly report of Clerk of Courts John T. Burns. The receipts of the office from this source for June totaled $293.75, with 1,175 sales being recorded.

The best previous month since the sale bill became a law was that for April last when the receipts for recording these sale bills amounted to $265 for recording 1,060 documents, or 115 less than the June record.

Busy Month for Marriages.

There were 91 marriage licenses in this county during June, which is a gain of three over the record of 1924 when 89 licenses were granted. The June record, however, is double that for the Month of May.

Columbiana

The annual election of officers of the Luther league which was to have been held Sunday evening, was postponed owing to lack of numbers present.

The Leetonia Kiwanis club were guests of the Columbiana Rotary club Monday evening at their regular meeting at the Park hotel. The Leetonia men, about 45 in number, furnished a comedy program.

Mrs. Charles Fuhrman was taken to the Salem City hospital Monday, where she submitted to a serious operation.

The Easterly reunion will be held Saturday, July 4, at the home of Ira Esterly, south of town.

Mr. and Mrs. Willis Wire, living south of Columbiana, are the parents of a baby boy, born Saturday.

Mrs. H. R. Riddle has returned home from a visit at the home of her parents in Sebring.

Mrs. Clarence Esterly and daughter, Minetta of Leetonia, visited with Columbiana relatives Monday.

Mr. and Mrs. Frank Baker and son Earl spent Sunday at the home of A. I. Huston at Signal.

Ralph Brungard, dental student at the University of Pittsburgh, is spending his vacation at the home of his father, E. C. Brungard, Duquesne street.

Henry Ready of Salem was in Columbiana on business Tuesday.

When Better Automobiles Are Built, Buick Will Build Them

No. 23

Question: *Why is it that there are more than a milion Buicks in use today?*

Answer: Because Buicks are always popular with new car buyers and also because Buick's dependable construction results in a much longer life for Buicks than is ordinarily the span of service of a motor car.

HOLIDAY PLANS AT IDORA PARK

Hopi Indian Tribe Feature Attraction at Youngstown.

The very special plans which have been developed by the management of Idora park, Youngstown, will make a strong appeal to motorists seeking a place to play on the big national holiday.

Dancing afternoon and evening will hold a prominent place on the program of activities. Bill Fooey's Original Keystone Serenaders are drawing tremendous crowds and their music has grown in popularity daily since their opening at Idora. The dancing pavilion has been beautifully decorated with special lighting effects, making it one of the most attractive in the country.

As a special feature, a tribe of Hopi Indians will present a novel and spectacular production entitled "Legends of the Hopi." This includes the weird Hopi snake dances and other interesting ceremonies which have never before been seen outside of the Arizona deserts where their reservation is located. This spectacle will be given afternoon and evening.

Idora bathing beach, the new $100,000 pool, with its attractive sand beach and pure water constantly changing, will also attract thousands.

Free fireworks will be presented in the evening, and the midway attractions featured at all times are not excelled by any other amusement park in the state.

Says: Grandest Stomach Medicine In the World

Relief Comes At Once But Better Still Chronic Indigestion Goes For Good.

Get a bottle of Dare's Mentha-Pepsin from Jesse D. Holloway today with the distinct understanding that your money will be promptly returned if it does not stop the most acute stomach distress quicker than any remedy you ever used.

Your stomach may be so distended with gas that you think every minute your heart is going to stop beating yet with one dessert spoonful of Dare's Mentha-Pepsin that dreadful feeling of suffocation will vanish in a few minutes.

It's a wonderful formula—this combination of Pepsin with other good stomach invigorators — so wonderful that in one small town in New Jersey, in 1921, over 6,000 bottles were sold.

Never mind what causes your indigestion or gastritis, or how long you have had it, or how many other remedies you have tried, this is the one medicine that will make your old disabled stomach so strong and healthy that you can digest anything you eat without the slighest distress.

Even catarrh of the stomach can be banished in a reasonable length of time.

And you know that when your stomach is in fine shape, nervousness, headaches and dizziness won't bother you. Every regular druggist guarantees one bottle of Dare's Mentha-Pepsin. Jesse D. Holloway sells lots of it. —adv

New York Fight Promoters Face Loss As Rain Pours Down

Postponement Would Make Total Expense Nearly Half-Million

Demands of Such Stars as Wills, Greb, Walker, and Slattery, as Well as Others on Card, Make Italian Hospital Benefit Card Most Expensive in Years; Tomorrow Night Only Available Date to Carry Over if Pluvius Doesn't Let up.

By Davis J. Walsh.

NEW YORK, July 2.—Rain may be God-given to the man wandering in the trackless wastes of the Sahara with a long time between drinks, as the governor of North Carolina said to the governor of South Carolina apropos of nothing in particular. Rain was as welcome as sand in the salad to Humbert J. Fugazy, promoter of the Italian hospital fund boxing show.

It was raining this morning twelve hours before the scheduled start of the Polo grounds extravaganza, featuring Harry Wills and Charley Weinert and Harry Greb and Mickey Walker, among others. Rain, in this case, meant near-ruin.

In the parlance of Broadway, the "nut," meaning the total expenses of the occasion, was nothing short of scandalous. Wills and Weinert, among the leading contenders for the heavyweight title, were due to be paid important money. So were Walker and Greb, respective holders of the welterweight and middleweight championships, with honors in the latter division at stake.

Tomorrow Night Open.

Jimmy Slattery and Dave Shade and Joe Lynch and Jack Sharkey, rounding out one of the finest attractions ever offered the great American public, also were lined up to throw Fugazy behind his own goal line.

But rain was his greatest menace. It meant that a postponement would leave only tomorrow night open for the show, with thousands of dollars in added expenses necessary in order to clear the field of seats before the New York Giants returned to the Stadium for a ball game on Sunday. It meant day and night shifts of workmen, paid at fabulous rates for night and holiday labor.

It meant that the gate would have to run over a half million for Fugazy to get in the clear, provided Charley Stoneham agreed to the postponement in the first place. Stoneham was dead against the original shift from June 19 when Walker sustained a flat tire or something.

Given any reasonable kind of weather however, it was certain that New York planned to respond to the demands of the occasion, at from two to twenty dollars to the individual response. The advance sale today was well over $200,000 and indications pointed to a crowd in excess of 60,000.

Card Carries Promise.

The boys knew "pay dirt" when they saw it.

They knew that Wills, chronic heavyweight challenger, would be in there faced with the necessity of knocking Weinert bowlegged or forever holding his peace. They knew that Walker, shooting at double championship, would carry Greb along at a pace that even this human catamount has seldom known. They knew that Slattery and Shade would uncover a dazzling exhibition for their scheduled six rounds or less.

Wills, Greb and Slattery were the favored entries, the brunette specimen being a unanimous choice over Weinert. The latter may have come back to the professional satisfaction of the megaphone men but he was passe two years ago and cannot be figured to improve with age. He is clever but quite punchless and if he remains, as is, at the end of fifteen rounds with the stronger and heavier Wills, it can mean only one of two things, either Wills is a bust or his fragile hands have played him false.

There was more of a divergence of opinion on Walker and Greb, but the latter got the bigger play, although even money prevailed. Those who liked Greb were influenced by his superior weight and speed; the Walker element based their claims on the belief that 160 pounds ten hours before the fight would weaken Greb, who is alleged to have done some of his road work in front of pursuing gendarmes.

Weigh in at 2 O'clock.

Whatever happens, they formed a more attractive duet than the heavyweights and there was a movement on foot to have this bout go on as the finale, in order that Wills and Weinert might not look, by comparison, worse than they really are.

The chances against a knockout in either fight were so heavy as to be almost ponderous.

Some, however, looked for the sensational Slattery to stop Shade inside of six rounds. In my opinion, he will do very well to win on points.

All of the principals indulged in light exercise this morning, preparatory to the weighing in ceremonies at the commission offices at 2 o'clock this afternoon. Except in the case of Greb, this is a mere formality, the others coming in at catchweights.

The stadium gates will be opened to the cut-rate customers at 6 o'clock and the "welcome" on the doormat was a most sincere invitation to every one with more than $1.99 in the wallet and the inclination to part company with it.

Laughlin Outslugs K. T. K. to Win, 10-9

Collect 14 Bingles Off Sainor; Have Three Big Innings.

Laughlin defeated K. T. K. at Columbian park last evening in a City Industrial league battle marked by activity of the heavy artillery on both sides. The final count was 10 to 9.

Both clubs made three runs in the second inning. The Katies forged to the front with another in the third. Laughlin made four in the fifth and three in the sixth and took the front, and K. T. K., though shoving five over in the seventh, failed to again knot the tally.

Finley tripled in the fifth to the street and a car held up his drive. Quick fielding by Werkheiser caught the runner at the plate. Had the player not been compelled to make all he got, this blow, because of its being momentarily out of sight, might have equalized the standing of the teams.

Werkheiser singled in the second and stole second. Reese walked. V. Bailey doubled to left, scoring both runners. Riser singled over second, sending V. Bailey in.

Rariden and C. Coleman were hit by Riser in the second. Shaw ran for Rariden. C. Strobel singled between first and second. N. Canavan lined to Watson who threw low to the plate and Shaw and C. Strobel counted. McShane struck at a wild pitch, his third one, and landed at second as C. Coleman registered, tying the count.

Finley walked in the third. Rariden sacrificed Riser to Reese. C. Strobel singled to middle and Finley counted.

Watson and Tisher opened the fifth with singles. McConnell was safe as Shaw, handling his drive, threw wildly to first. Babb singled, scoring Watson and Tisher. Werkheiser singled, sending in McConnell. Babb came in on Reese's single.

Watson singled in the sixth, Sainor forced Tisher's fly. McConnell scored with a triple to left. DeLong scoring McConnell.

Sainor, singling in the seventh, was forced at second by McShane. Shaw doubled. Both scored on Finley's single. Rariden singled. C. Strobel drove to Watson, who threw Finley out at the plate. C. Coleman doubled, scoring Rariden and C. Strobel. N. Canavan lined to Watson, who threw wildly to first and C. Coleman counted.

CHURCH TEAMS CONCLUDE HALF

Business Meet Friday in Lutheran Church.

OFFICERS of the Sunday School baseball circuit today announced the completion of the first half schedule.

All clubs will be idle until the middle of the month, when the second half of the schedule will get under way. The second half opening date has been tentatively decided as July 13.

A business meeting of the league will be held on Friday evening in the Lutheran church. Team managers and various other league representatives will attend.

There will be no contests this week.

C. & P. Tossers Take Forfeit

The Wellsville-Trotter City Industrial league clash billed last evening at Central park, Wellsville, was forfeited to the Wellsville nine.

The Trotters failed to put in an appearance for the contest, and the C. & P. tossers were awarded a forfeit victory.

BUCS SET HITTING RECORD

John Fowler's Club Idle; Proposed Trip Is Dropped

BILL BENEFIT CLASH TODAY

Chester and Wellsville Teams Play at Smith Field.

Frank Riley's Chester Industrial league leaders will clash with the Wellsville C. & P. club this evening at Smith Field, Chester, in the first benefit engagement of the year.

The contest will be played for Infielders Moore and Manning, the former a member of the Chester nine and the latter a C. & P. player. Both were injured in the early part of the season and neither has been able to play since.

All the proceeds of the game will go to the two players.

June Wood In Lisbon Meet

One of the horses that will be featured in the matinee races at the county fair grounds next Saturday afternoon will be June Wood, seven years old, owned and driven by E. O. Cramer, of Canton. June Wood is declared by horsemen to have been one of the best horses entered in the 2:24 pace at the recent meeting at Canton, and it took a share of the money in all the races in which it was entered.

Entries for this meet continue to be received, and it is very likely that about 60 entries will be received before Friday night.

June Wood was entered in the Lisbon races last year, and its owner and driver is well konwn to all county horsemen.

Barnstorming Tour of West Virginia Towns Is Called Off at Last Moment.

Difficulties in arranging paying guarantees getting suitable dates, and other troubles have put the skids under a week's baseball tour by John Fowler's East Liverpool club that several weeks ago gave every promise of being one of the best barnstorming trips scheduled this season by the local road team.

As a result, two games scheduled with Parkersburg, one on Saturday, July 4, and the other on July 5, have been called off, contests with Moundsville and Gallipolis have been stricken from the bill, and engagements at St. Mary's on July 11 and 12 have gone by the boards.

Parkersburg first punctured the prospective baseball tourists' tires by cancelling the July 4 and 5 games, asserting that the team has been disorganized and that it had become necessary to rebuild. As a result, the West Virginians stated, not only the games with the locals, but all games up until the middle of July and been cancelled.

And then the St. Mary's club tried to shrink the gurantee originally promised Manager Fowler. These contests were given the go-by with due alacrity. With the Parkersburg and St. Mary's games dropped, the major part of the prospective week's trip was cracked wide open and consequently Fowler called off engagements promised at Gallipolis and Moundsville.

The locals' schedule now is quite blank, the only definite clash in view being that with Charleroi on August 1. No effort had been made to schedule game prior to this week inasmuch as the team was considering the down-river tour. With this out of sight, Fowler's players will be given an enforced rest.

DAYS OF "80'S" CAN'T COMPARE

NEW YORK, July 2.—Making due allowance for the "Rabbit ball" and the fact that modern pitching is not what it might be, there nevertheless seems to be no way of going behind the fact that the Pittsburgh Pirates, taken at the face value of their record to date, are the greatest hitting outfit of several generations, if not of all time. How many points have pitching restrictions and the lively ball added to the average player's hitting? Not more than 50.

Therefore, even the die-hards who still live in "the good old eighties" must concede that a ball club hitting for a team average of .329 on June 24 must have something all others have lacked. The figures quoted just about represent a world's record for this more or less advanced period of the campaign.

Eight Above .335.

All one has to do is cut 50 points off each Pirate's average and then compare the result with those obtained by the great hitting combinations of other years—the old Giants, the old and new Tigers, the old Athletics, etc. The Pirates will continue to show a margin of profit.

A ball club with eight men hitting above .335 could hardly do otherwise. A glance down the lineup tells the story. On June 24 it showed Barnhart hitting .382; Grantham, .369; Earl Smith, .368; Carey, .366; Cuyler, .348; Wright, .348; Traynor, .345, and Moore, .340.

In brief, every regular was getting close to two hits in every five attempts.

Break All Records.

The result was inevitable. The Pirates broke all records for modern scoring during the month of June and in one wild spree of seven days scored the colossal total of 85 runs in seven games—46 of them on successive playing days.

Never Before a Value Like This

The Super-Six principle, exclusive to Hudson and Essex, is responsible for the largest selling 6-cylinder cars in the world, because it gives results in smooth, brilliant action, reliability and economy never attained by any other type.

This Essex, in all ways, is the finest ever built.

Easier riding and driving, more flexible in performance, handsomer in line and finish, it is also lower in price than ever before. Its success is simply the belief of buyers that it represents the utmost automobile value and satisfaction within hundreds of dollars of the price; and it proceeds entirely from what owners themselves say of Essex.

Hot Campaign Issue

ST. CLAIRSVILLE—A hot dispute over the advisibility of installing traffic lights on Main street—the National road gives promise of becoming the chief issue in the forthcoming campaign here. Autoists oppose the lights. Pedestrians demand them and declare that with out them crossing the street was a hazardous task. Autoists say they are unnecessary as there is virtually no cross-town traffic.

COERCED BY MOTHER-IN-LAW, HE GIVES BRIDE TO BROTHER

LONDON—An extraordinary story by a petitioner for divorce that he was coerced, within a week of marriage, into signing his wife away to his brother, has been the sensation of the present divorce hearings.

The husband, Harold William Beaver, was granted the divorce by Lord Merivale on the ground of his wife's misconduct with his brother, Alfred John Beaver. The chief point of his story was that his mother-in-law was the principal agent in his losing his wife.

Beaver told the court that he was married at the end of December, 1923, when he was 23, and his bride, Phyllis, 19.

Four days after the wedding Beaver found his wife and his brother together in a room.

His brother ordered him out of the room, but some of the other guests came along and turned the brother out of the house.

Beaver said that later Mrs. Mucklow, the mother-in-law, insisted he sign a paper freeing his wife so that she could marry his brother.

The document ran:

"I free my wife on condition that she marries my brother."

"I was quite ignorant," continued Harold Beaver, "that I was doing any wrong. I thought that as my wife seemed to hate me and loved my brother, she would be happier with him."

Spain's total wealth is estimated at $31,000,000,000, of which agriculture accounts for one-third.

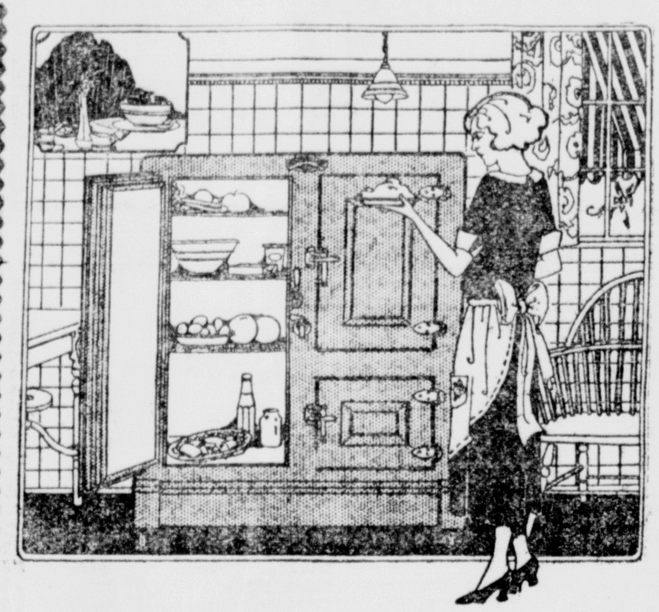

Seek New Highway

ATHENS—The Athens county motorists' organization is sponsoring a movement to open up a new state highway through western Athens county and into Hocking county by way of Laureiville. The territory the proposed road would traverse is one of the wildest and most picturesque in this part of Ohio and much of it is being surveyed for state park purposes.

Chrysler Four Demand So Great That We Must Sell Our Used Cars

CHRYSLER'S latest achievement—the Chrysler Four—The outstanding feature of the automobile world — as a result of the formal showing this past week, we have been literally swamped with cars offered in trade. This is only one way we can successfully keep going—we must sell our used cars — we can only do this by pricing them right.

MR. SIMMS IS AT THE FACTORY TO SEE IF WE CAN GET MORE CARS TO MEET THE DEMAND.

ROAD BUILDING ON LARGE SCALE

West Virginia's road building program will be launched late this month with the announcement yesterday that $80,000,000 highway bonds had been sold to the Harriman company of New York city. This money will be used for improvements in all sections of the state including the extension of the state road through Hancock county.

Governor Howard M. Gore who recently completed an inspection tour of the state during which he visited every main road will be consulted by the commission in the make up of the program which is one of the most extensive ever planned in the state.

Picnic Plans Progressing.

Plans are being perfected for the annual outing of the employes of the Homer Laughlin China company to be held at Cascade park, New Castle, Pa., Friday, August 7. Special trala has been engaged by the committee in charge of the event.

HOLIDAY HOURS AT POSTOFFICE

Holiday hours will be observed Saturday, Independence day, at the Newell post office. Stores and business houses will be closed the greater part of the day while operations will be suspended in all industrial plants.

VACATION TRIPS PLANNED HERE

Number of local people will leave tomorrow for the annual vacation at various places. Some will attend the Atlantic City convention of the National Brotherhood of Operative Potters while others have arranged for a fishing trip to Canada. Number of family outings will be held on July 4 at nearby resorts.

Locals Close Season.

Homer Laughlin China team of the Industrial league closed the first half of the season last evening with the Knowles, Taylor and Knowles squad. The team got off to a bad start and supporters are confident of better results in the second campaign for league honors.

Class Meeting Tonight.

Members of the night school class of the First Methodist Episcopal church met last evening in the parsonage. The lesson was in charge of Rev. J. W. Schrader.

Wool Crop Pooled.

WHEELING — Approximately 250,000 pounds of wool, pooled by eastern Ohio wool growers, have been received at the Wheeling warehouse of the Ohio Wool Growers' Co-Operative association this year, it was announced here today. The same organization, selling through Horkheimer Bros., of this city, has 2,750,000 pounds of wool in storage at the Columbus warehouse.

Imports Increase as Fur Vogue Grows in Popular Favor Here

WASHINGTON, July —Use of furs in women's wearing apparel was chiefly responsible for the $80,000,000 importation of this commodity into the United States last year, according to the Department of Commerce.

Fur trimmings for many articles of feminine dress, as well as the use of furs for the manufacture of top coats, is increasing rapidly in popularity among the modistes of this country, according to officials.

Plea Denied.

ST. CLAIRSVILLE—Judicial notice has been taken here of the hitherto reported fact that wives almost daily ask their husbands for money. Ruling in an action for divorce brought by Mrs. Balbena Roskowski against John Roskowski, of Neffs, Judge W. W. Cowen held that the mere fact that a husband or wife asked the other for money did not constitute grounds for divorce. Mrs. Roskowski had contended that Roskowski liked her money and real estate far better than he did her. The plea was denied.

To Vote on Franchise.

CHILLICOTHE—Voters here are to be asked to decide next autumn whether the franchise recently granted E. F. Bearce for supplying light and power in this city shall be approved. Bearce obtained the franchise against opposition of the Ohio Power company and the Scioto Valley Railway and Power company, on a guarantee of lower rates.

A WORD FOR BEGINNERS.

The best way to solve a cross-word puzzle is to run quickly over the list of horizontal and vertical synonyms and compare them to the spaces in the puzzle extending crosswise or downward from the number of the synonym. Some word which will just fit in the number of space available will quickly occur to you in some instances, giving you a foundation from which to solve the more difficult words. The words must interlock perfectly.

Woman Commands Post.

BUCYRUS—The local post of the Salvation Army is now in command of a woman, Captain ida Lamb, formerly of Canton. She is assisted by Miss Gladys Vaugh, of Marion. They succeed Captain William H. Gilmore and Gilmore, who were transferred to Lima.

Foreign capital flotation in Japan from September, 1923, to January, 1925, including the large short-term credits, totaled about $292,000,000.

Seven Classes Barred From Membership in Russ Labor Unions

PRAGUE, July.—The Central committee of the Russian Labor Unions has published a list of the people who are forbidden to belong to any labor union. This deprivation is a very serious thing in Russi, because membership in a union carries with it many privileges.

The holder of a union card is favored in such matters as payment of rent and taxes, social insurance and out-of-work doles. The list of forbidden categories includes the following classes: Concesionaries, executives in capitalistic enterprises who have the right to hire and discharge labor, independent artisans, monks and priests of all denominations, former officers in the White Army, persons formerly employed in the Tsarist Police department, persons convicted of capital crimes and deprived of civil rights.

Held for Grand Jury.

NELSONVILLE, July.—Charles and Sherman Ball, who, it is charged, set off a charge of dynamite in the mouth of an old coal mine just as dry law enforcing officers were entering the mine, were held for the grand jury. The raiders said they were almost sealed up in the mine by the explosion. They reported they found four stills in the shaft.

Spanish coal mining is prospering under tariff protection.

Where Perry Fought

Spend the "Fourth" along Sandusky Bay

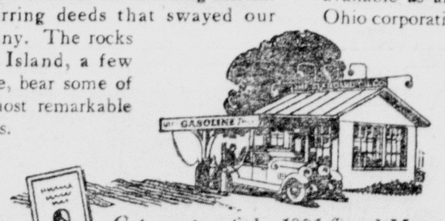

The spirit of the "Glorious Fourth" suggests a visit to the scene of the Battle of Lake Erie, victoriously waged by Oliver Hazard Perry to make secure the independence we celebrate. Patriotic Ohio motorists will enjoy Put-in-Bay—easily reached by ferries from Sandusky—and the classic memorial to the doughty Commodore who sent forth the famous message "We have met the enemy and they are ours."

Along the breeze-swept shores of Sandusky Bay stand other monuments marking ancient forts and stirring deeds that swayed our nation's destiny. The rocks of Kelley's Island, a few miles off-shore, bear some of the world's most remarkable glacial grooves.

Newby, also, are two of Ohio's most popular vacation spots. Cedar Point provides wonderful fresh water bathing and countless added attractions that beckon the tourist to its mammoth hotels. And Lakeside, a famous religious encampment known as the "Chautauqua of the Great Lakes."

In most of the towns along your way you will find familiar Standard Oil Service Stations where helpful road information is as easily available as are the reliable products of this Ohio corporation. Those in Sandusky and Port Clinton will supply local directions for reaching the interesting places mentioned above.

Children's Pictorial Cross Word Puzzle

HOW TO SOLVE PUZZLE.

The words start in the numbered squares and run either across or down. Only one letter is placed in each white square. If the proper words are found each combination of letters in the white squares will form words. The key to puzzle—the first word—is given in the drawing. Below are keys to the other words.

Running Across.

Word 1. The spring flower in the picture.

Word 3. Older; also a kind of berry.

Word 5. What the woods are full of.

Word 6. To unweave or unknit.

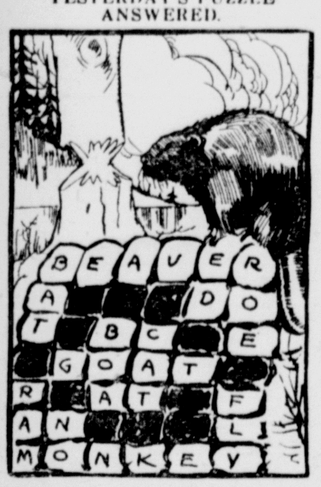

Running Down.

Word 1. A building for the presentation of plays.

Word 2. A sunshade.

Word 4. A female deer.

YESTERDAY'S PUZZLE ANSWERED.

MIDLAND

MILL WORKER IS BADLY INJURED

George Rutherford of Beaver avenue, who was injured in the Crucible steel here Sunday and removed to the Rochester General hospital in the Shepler Murray mbulance, is reported to have had several ribs broken and internally injued. Rutherford was caught and crushed in an elevator shaft about 10 o'clock Sunday morning. He was given attention by Dr. J. A. Helfrich and then removed to the hospital.

Mrs. McGogney Hostess.

Mrs. C. B. McGogney of Beaver avenue entertained a number of little girls at her home yesterday in honor of her daughters, Helen and Margaret. Games and music were the diversions of the afternoon, after which a luncheon was served by the hostess.

Mill Closed Down.

The open hearth and merchant mill of the local plant of the Pittsburgh Crucible Steel is closed down for a week until after the Fourth.

Midland Personals.

A daughter was born to Mr. and Mrs. James Maher of West End Drive on Sunday morning. The mother will be remembered as Miss Mae Beckwell of this place.

Mr. and Mrs. William McInerney and family of Ohio avenue are visiting for several days with relatives and friends in Philadelphia and other eastern points.

Mr. and Mrs. Harry Bergner of Massilon, O., former residents of this place, visited for several days with the former's brother, Albert Bergner, and family of Midland avenue.

John Yetso of Woodlawn visited with his parents, Mr. and Mrs. John Yetso of Beaver avenue, for several days.

Miss Pauline Perrier of Imperial, Pa., is spending a week's visit with Mrs. W. G. Anderson, her sister, and family of Midland avenue.

Mrs. S. J. Woods and daughter, Dorothy, of Seventh street, will visit for a week with the former's mother, Mrs. K. Stone, and family of Pittsburgh.

Mrs. P. P. Gallagher of Beaver avenue has returned to her home after a visit of several days with relatives and friends in Cleveland. She accompanied her daughter, Helen, there, who has ccepted a position with the Pennsylvania Railroad company.

M. Balko, C. Palmer, James Murphy and A. Petrosky of Seventh street left yesterday for Youngstown, Pa., where they will visit with their respective parents.

Man Hunt Postponed.

ELYRIA, July.—Man hunters can not conduct a man hunt when there is nothing to hunt, Sheriff Fred Underhill has decided. As a result he called off the two deputies who had been sent to search woods near South Lorain for an alien who, it was reported, had carried off a young girl. No child was missing, it developed.

TWO DRINKS that celebrate one day

Clicquot Club Ginger Ale, Regular, is the dashing, full-flavored, martial beverage that is celebrating its fortieth glorious Fourth. Clicquot Club Pale Dry gives you the subtle exhilaration of a milder, drier drink, with a delicacy of flavor that is still real ginger ale. ¶ Each is blended with that just right quantity and quality of pure water and pure fruit flavors that properly sets off the tingling refreshment of real ginger ale. ¶ It takes time to make as good a ginger ale as Clicquot Club. It takes that subtle, artful skill in blending that has produced the drink that first taught America what real ginger ale tastes like. ¶ Here it is—Clicquot Club Ginger Ale, in two flavors, with two full glasses in every pint bottle, with the one ingredient that no one else can put into bottles—the forty years of knowing how to make good drinks the Clicquot Club way. The Clicquot Club Company, Millis, Mass., U. S. A.
